Statistics, Hyderabad.**

## **Foreword**

The '**Statistical Year Book 2017**' is an important annual publication that provides a wide range of statistical information emerged from the latest surveys, censuses and administrative records of departments and agencies, at one place with the statistics broadly encompassing demographic, socio-economic, production and macro-economic sectors.

The present publication "Statistical Year Book 2017" is fourth in its series. The prime objective of this publication is to present important social and economic data pertaining to the State of Telangana in a succinct yet comprehensive form of statistical tables. The data presented herein is obtained from a number of sources spreading across twenty eight categories, viz., Demography and Population, Health, Climate, Agriculture, Irrigation, Livestock and Fisheries, Forests, Industries, Mining, Energy, Transport and Communication, Public Finance, State Economy, Joint Stock Companies, Banking, Prices, Labor and Employment, Social Security, Education, Economic Census, Local Bodies, Judicial, Police and Crime, Tourism, Elected Representatives, All India Information and Comparison of Telangana State with that of All India and States and Union Territories. With an intent to make the publication more useful for researchers and other users, time series data is also made available, wherever feasible.

Every effort has been made to ensure that the information presented in the publication is comprehensive, clear and up to date. However, we continue to strive further improve the coverage, quality, suggestions and comments in this regard are most welcome. We hope this edition of the Statistical Year Book will serve as a valuable resource for administrators, policymakers and Social Researchers and be an effective tool in making evidence-based decisions. Last but not the least, we look forward to innovative ideas from the users of the data to enhance its value and to present the data in a more meaningful way.

I wish to place on record my sincere gratitude to the officers and staff of this office, particularly the Social Statistics Division for their commitment in bringing out this publication in such a comprehensive manner.

*A. Sudershan Reddy*

## Overview

The Telangana State was carved-out from the erstwhile Andhra Pradesh and came into existence with effect from 2<sup>nd</sup> June, 2014. The State emerged as 29<sup>th</sup> and the youngest State in the Indian Union with a geographical area of 1,12,077 Sq. Kms., (After accounting for the transferred 327 villages from the erstwhile Khammam district to Andhra Pradesh) and is the twelfth largest State in terms of both area and the size of the population in the country. Telangana is located on the Deccan Plateau and lies in the Southern region of India. The State is strategically located in the central stretch of the eastern seaboard of Indian Peninsula. The State is bordered by the States of Maharashtra to the North and North-West and Chhattisgarh to the North, Karnataka to the West, and Andhra Pradesh to the South, East and North-East.

As per the 2011 Census, total population of the State is about 3.50 crore. The overall population growth rate during 2001 to 2011 is about 13.58 percent as against the national growth of 17.70 percent. Majority of the population in the State reside in rural areas and mainly depend on agriculture for their livelihood. However, population in urban areas has been witnessing a significant increase in recent years, resulting in Telangana becoming one of the fastest urbanizing States in the country. The major cities in Telangana State include Hyderabad, Warangal, Mahabubnagar, Karimnagar, Nizamabad, and Khammam.

Telangana State is divided into four agro-climatic zones based on the geographical characteristics such as rainfall, nature of soils, climate etc., viz., (i) Northern Telangana Zone, (ii) Central Telangana Zone, (iii) Southern Telangana Zone and (iv) High Altitude and Tribal Zone. The Climate of the State is predominantly hot and dry.

The annual normal rainfall of the State is around 905.3 mm. Important soils include red sandy loams, red loams with clay base along with very small patches of alluvial soils. The maximum and minimum temperatures during south west monsoon ranges between 13°C - 27°C and 29°C - 34°C, respectively. Horticulture has become a promising source of income for farmers due to favourable climatic conditions. Presently, the State is the major contributor in horticultural production, such as mango, mosambi, red-chilli, turmeric, marigold and vegetables. Telangana is rich in livestock resources, especially cattle and sheep population. Animal Husbandry provides an additional income and employment to the farmers, especially during droughts.

Telangana has diversified its industrial base, from high-tech nano-technology, biotechnology and pharmaceuticals to traditional textiles, leather, minerals, and food processing. The State is one the major exporter of Information Technology (IT) services in the country. Hyderabad has become a premier global destination for IT and ITeS.

Apart from Hyderabad, cities such as Warangal, Karimnagar and Nizamabad are emerging as Tier-2 for IT and IT-based industries. The State has become an important tourist destination for both domestic and international tourists. Hyderabad has gained a brand of its-own and became a premier medical, business and MICE tourism destination in the world.

In order to bring administration closer to the public and to ensure the benefits of development and welfare schemes reach the poorest person in the State more effectively and efficiently, the existing 10 districts are re-organized into 31 districts. Apart from the existing 10 districts, i.e., Adilabad, Hyderabad, Karimnagar, Khammam,

Mahabubnagar, Nizamabad, Medak, Nalgonda, Rangareddy, and Warangal Urban, 21 new districts were created, which are: Bhadradi Kothagudem, Jagtial, Jangaon, Jayashankar, Jogulamba Gadwal, Kamareddy, Kumuram Bheem, Mahabubabad, Mancherial, Medchal-Malkajgiri, Nagarkurnool, Nirmal, Peddapalli, Rajanna Sircilla, Sangareddy, Siddipet, Suryapet, Vikarabad, Wanaparthy, Yadadri Bhuvanagiri, and Warangal Rural.

Best efforts have been made to present up to date information/data related to 31 districts in this publication. However, wherever the required information/data is not available for all 31 districts, data relating to erstwhile 10 districts is provided.

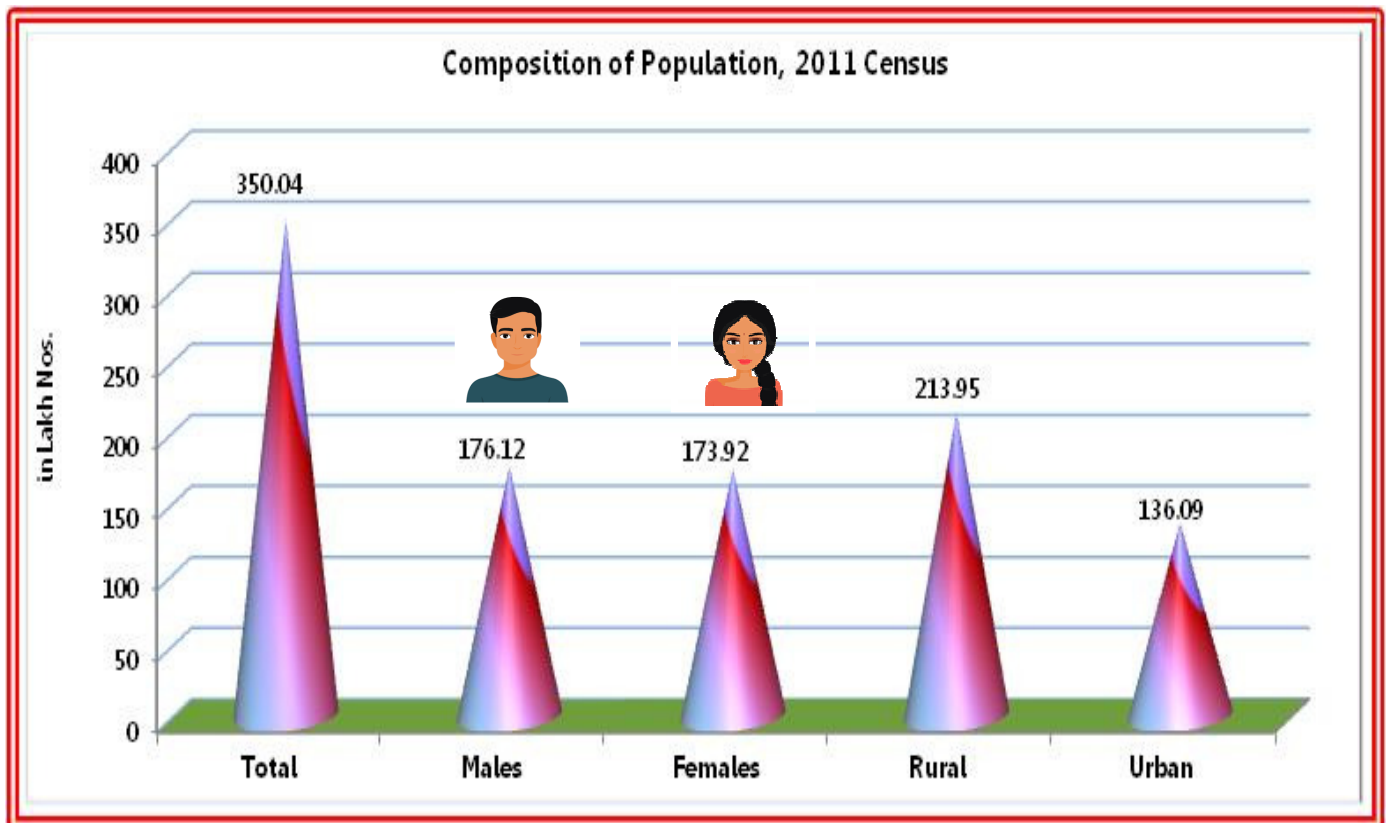

# 1. POPULATION

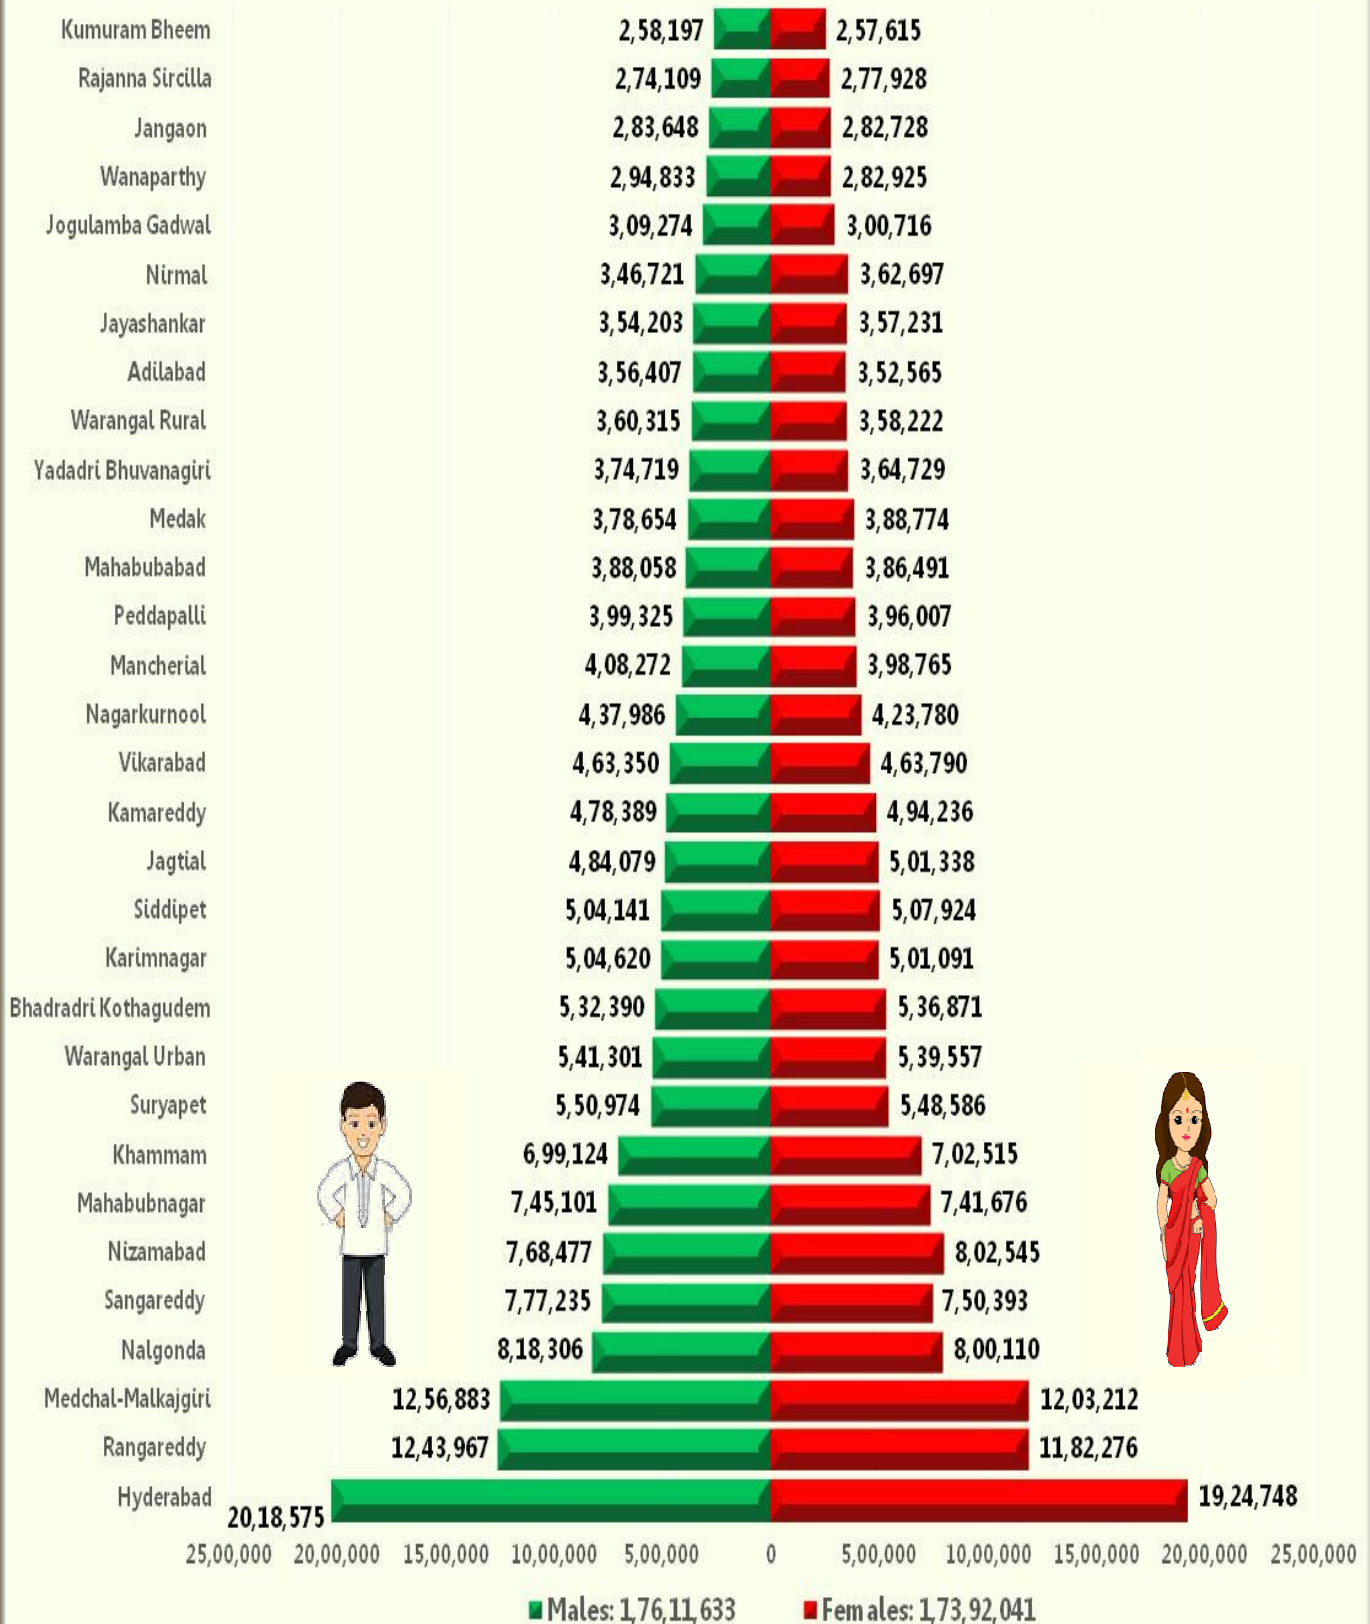

The Government of India, in exercise of the powers conferred under the provisions of the Census Act, 1948, conducting the population census across the country once in a decade and releasing the results in different phases. Accordingly, the Government of India has conducted the population census in the year 2011 and released the final results, up to the village level, in different classifications. An attempt is made in this chapter to present the results of the population census, 2011 conducted

in Telangana State, excluding those 327 revenue villages that were transferred to the State of Andhra Pradesh (Residual) as per the Andhra Pradesh Reorganization (Amendment) Act, 2014 (No. 19 of 2014) along with certain comparisons with that of the earlier censuses. Consequently, the geographical area of the Telangana State is 1,12,077 sq. kms., with a population of 350.04 lakhs consisting of 176.12 lakh males and 173.92 lakh females. The details of population is shown in the following graphs.

### Males and Females Population, Census 2011

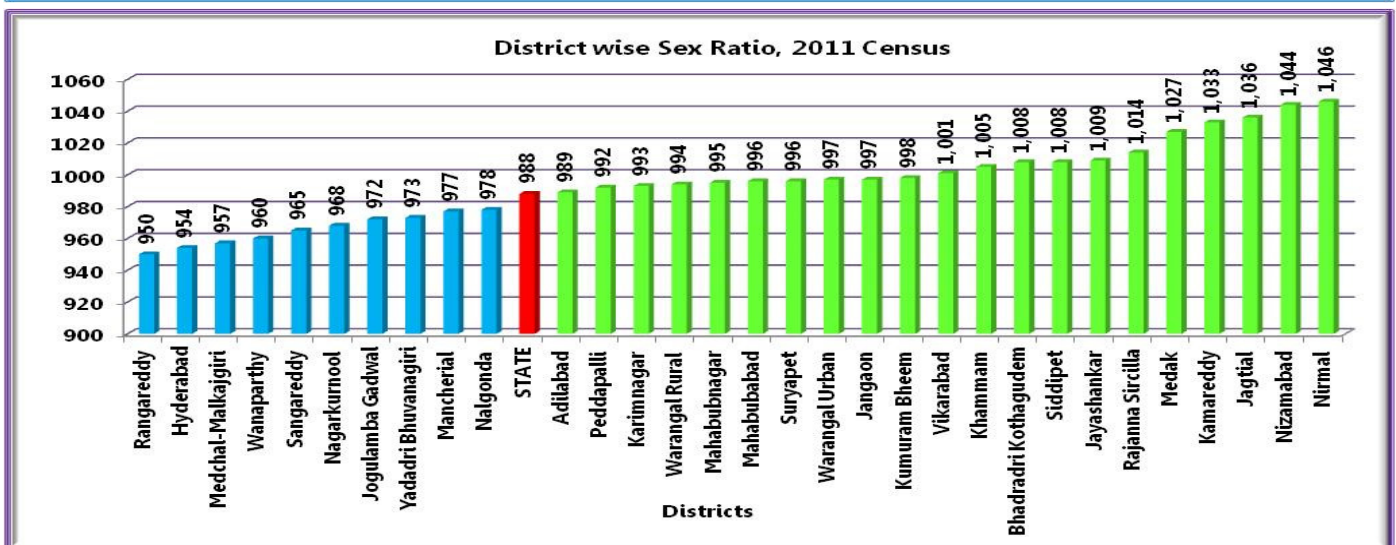

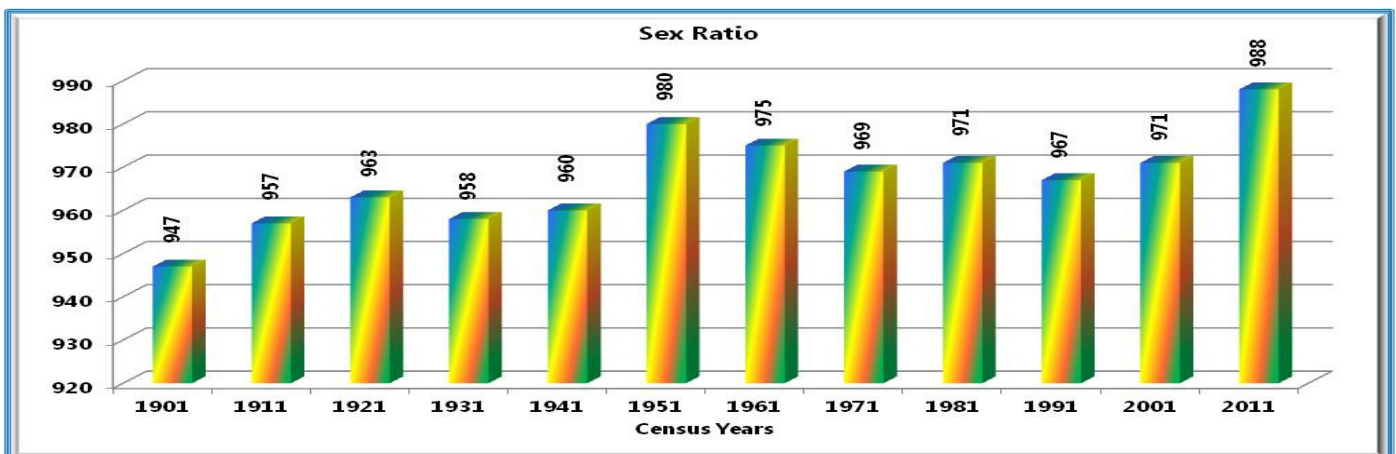

## Composition of Population

### Sex Ratio

One of the important characteristics of demography of population is sex composition or sex ratio. The sex ratio is defined as the number of females per 1,000 males in the population. If we observe the Sex Ratio scenario of Telangana State we will find that the curves are either stable or in increasing trend. This ratio for the State is 988 according to 2011 Census. 21 Districts out of 31 districts have the Sex Ratio more than the State average of 988 and 11 districts have the Sex Ratio with more than 1000 female per 1000 male which is praiseworthy. The lowest Sex Ratio is noticed in

more urbanized districts like Hyderabad, Rangareddy, Medchal-Malkajgiri, Sangareddy, Yadadri Bhuvanagiri, Jogulamba Gadwal, Wanaparthy, Nagarkurnool, and Nalgonda and the highest Sex Ratio is in Nirmal district with 1,046 Female per 1000 Males. The sex ratio has shown an increasing trend in the State from 967 in 1991 to 971 in 2001 and further to 988 in 2011.

The pictorial presentation of the sex ratio of population from the years 1901 to 2011, including children (0-6 years) and the District wise Sex Ratio of Population is given in the following graphs.

## Density of Population

The density of population is defined, in general, as average number of persons residing

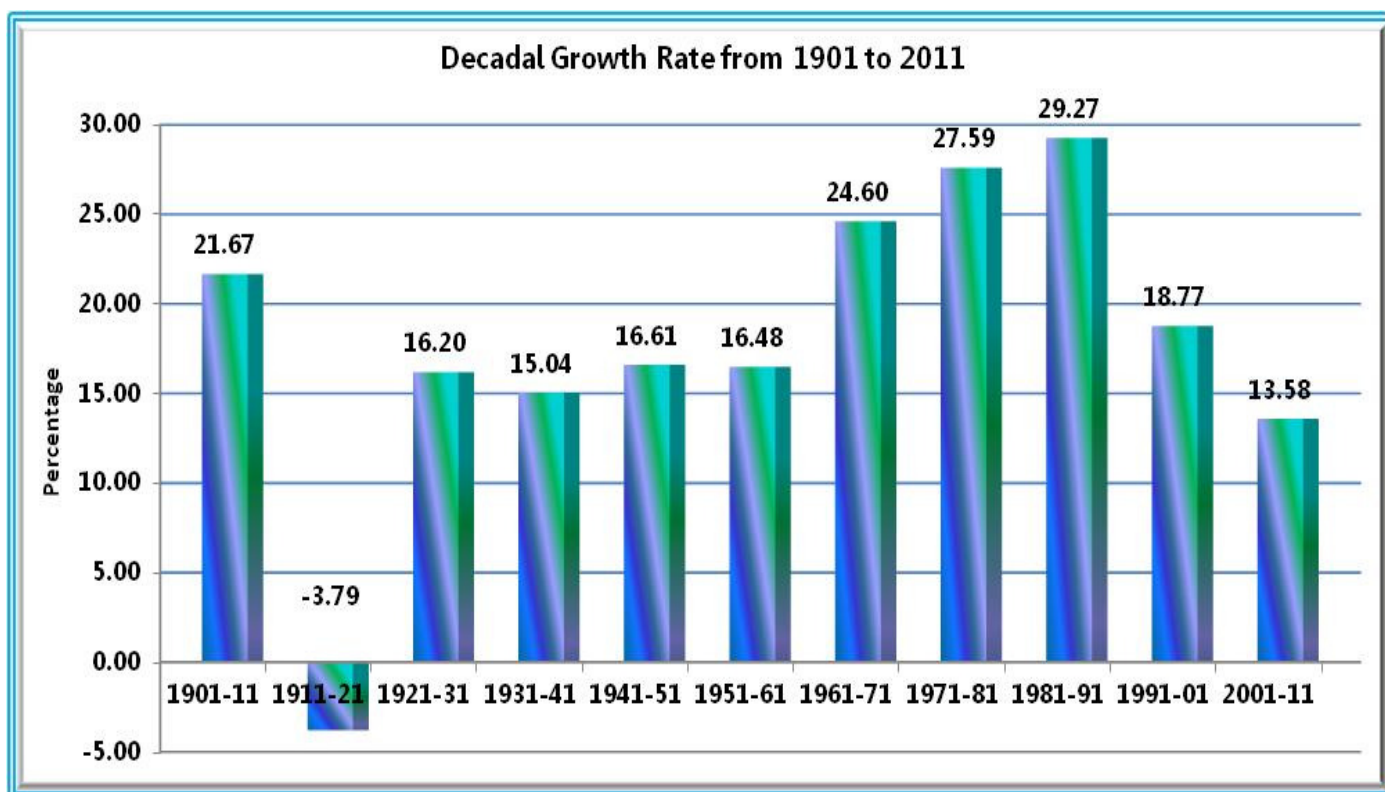

per square kilometer of area. The State average as a whole is 312 per sq., kilometer.

## Growth of Population

The growth of population will have considerable impact on economic development, particularly State like Telangana. It necessitates meticulous planning for requirement of food grains, housing, education, health and other infrastructure for leading better life. The people of the State are predominantly residing in rural areas with 61.12% and the rest 38.88% are residing in Urban areas. During the decade the overall growth of total Population 2001 and 2011 is

13.58%, whereas it was 18.77% in the preceding decade. The growth of the Population in Urban areas has been witnessing a significant increase and grew by 38.12% during the decade 2001 and 2011 as compared with 25.13% in the preceding decades. In sharp contrast, rural population in the State grew by a modest 2.13% as per the 2011 census.

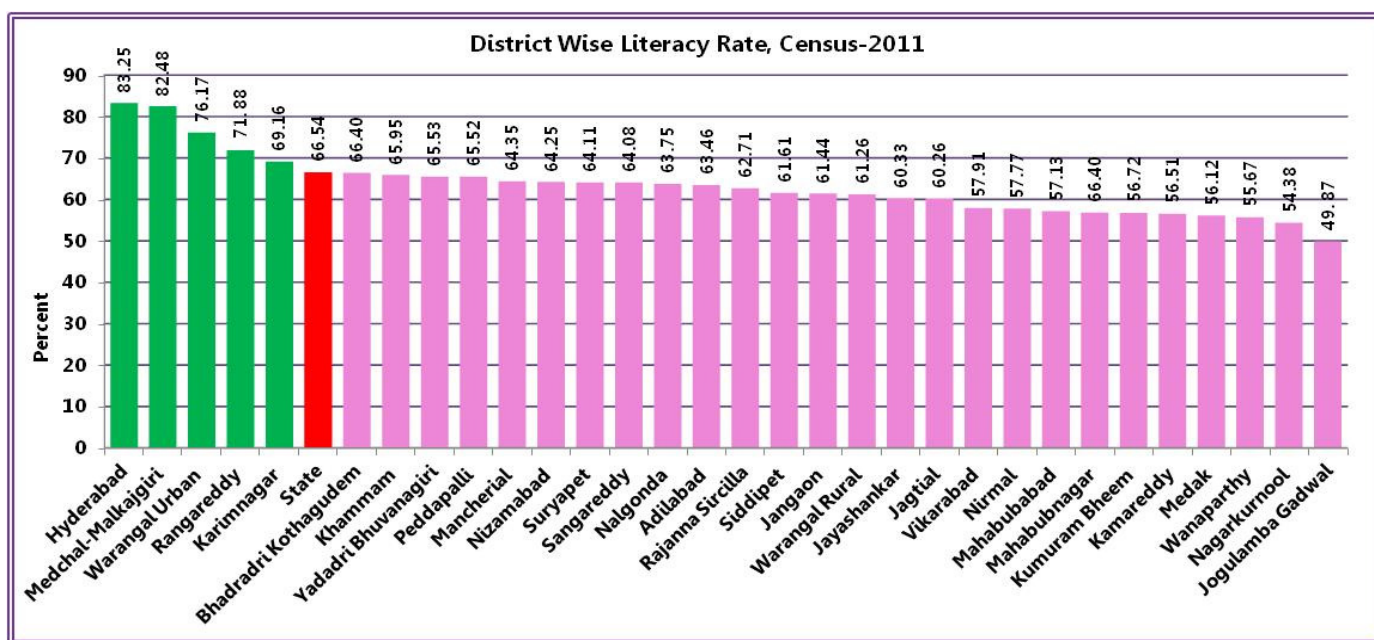

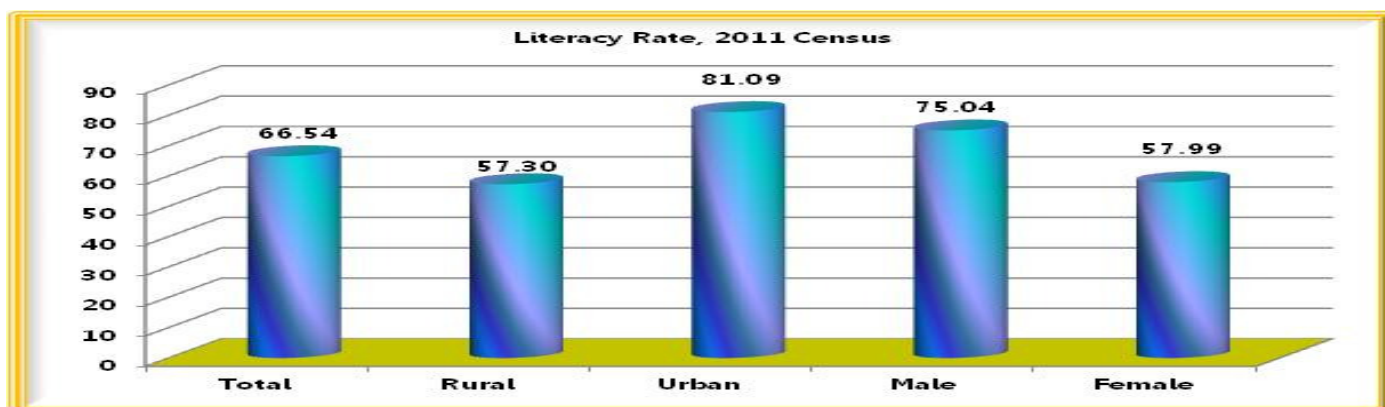

The decadal growth rates from 1901-11 to 2001-11 is depicted in the graph given below:

## Literacy Rate

A person whose age is 7 years and above and is able to read and write with understanding in any one language is defined as literate. The literacy rate is the percentage of literates in the total population excluding 0-6 years. The literacy rate of the State as per 2011 census is 66.54%. Male literacy stands at 75.04% and female literacy at 57.99%. There is a huge gap in literacy of urban areas when compared to rural area literacy and the same is depicted in the graph below. Literacy in Hyderabad district is highest with 83.25% followed

by Medchal-Malkajgiri, Warangal Urban, Rangareddy and Karimnagar, whereas Jogulamba Gadwal district is lowest with 49.87% followed by Nagarkurnool with 54.38%, Wanaparthy with 55.67% and Medak at 56.12%. Except Hyderabad, Medchal-Malkajgiri, Warangal Urban, Rangareddy and Karimnagar all other Districts Literacy rate are lower than State average of 66.54%. The District wise literacy rate and the total male, female, rural and urban literacy rate are presented in the graphs shown hereunder:

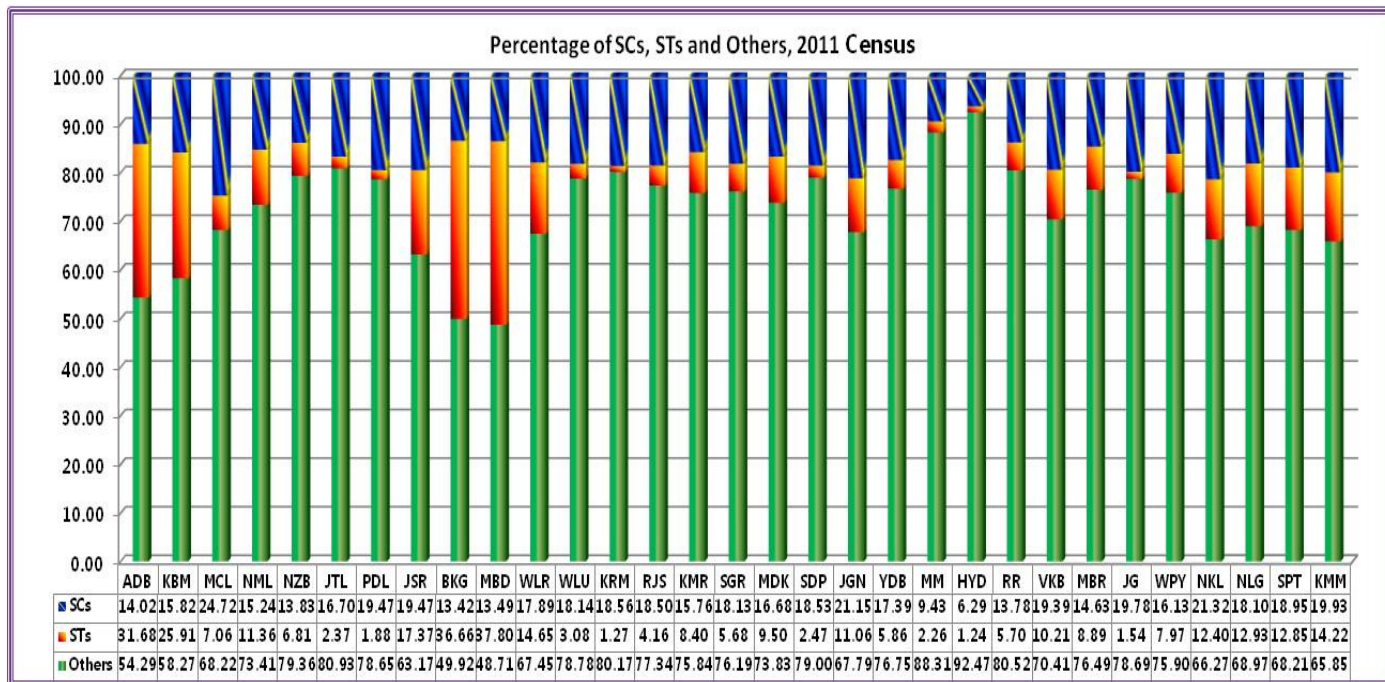

### Social Composition of Population

The population of the State consists of scheduled castes, scheduled tribes and others. Out of the total population of the State, scheduled castes constitute 15.45% and the scheduled tribes constitute 9.08%. There has been a significant

increase in scheduled tribes population from 2.81% in 1961 to 8.19% in 1981 and further to 9.08% in 2011. Details regarding percentage composition of SCs, STs and Others population are presented in the graph given below.

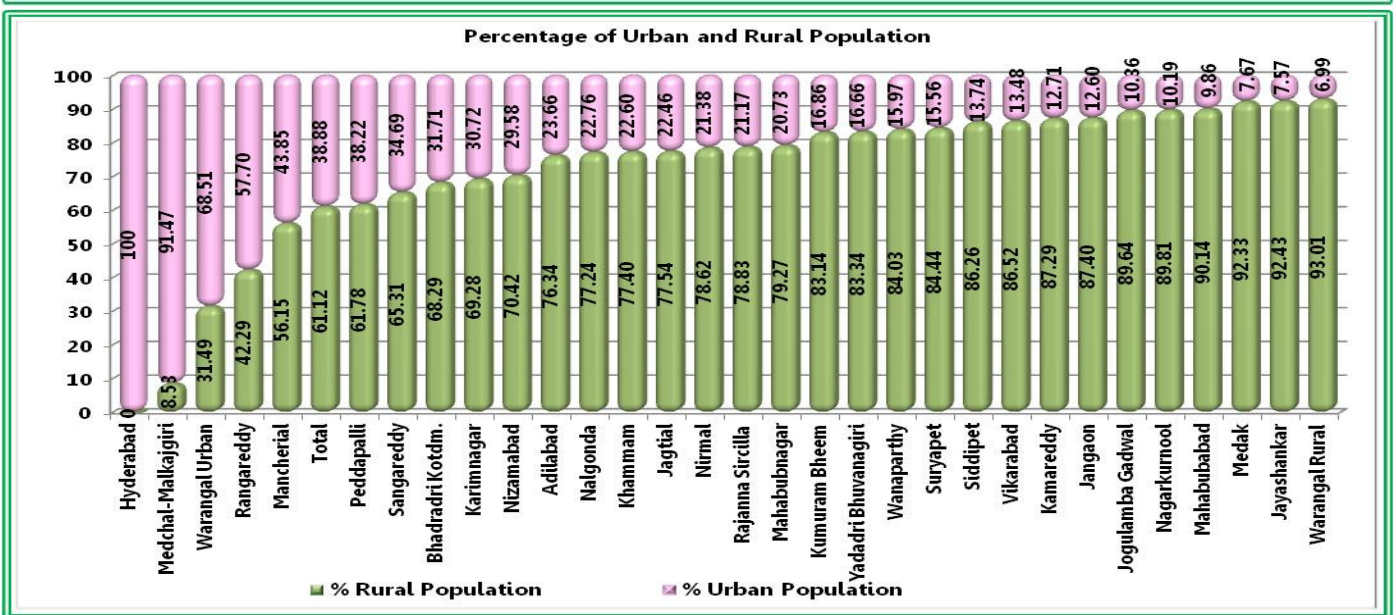

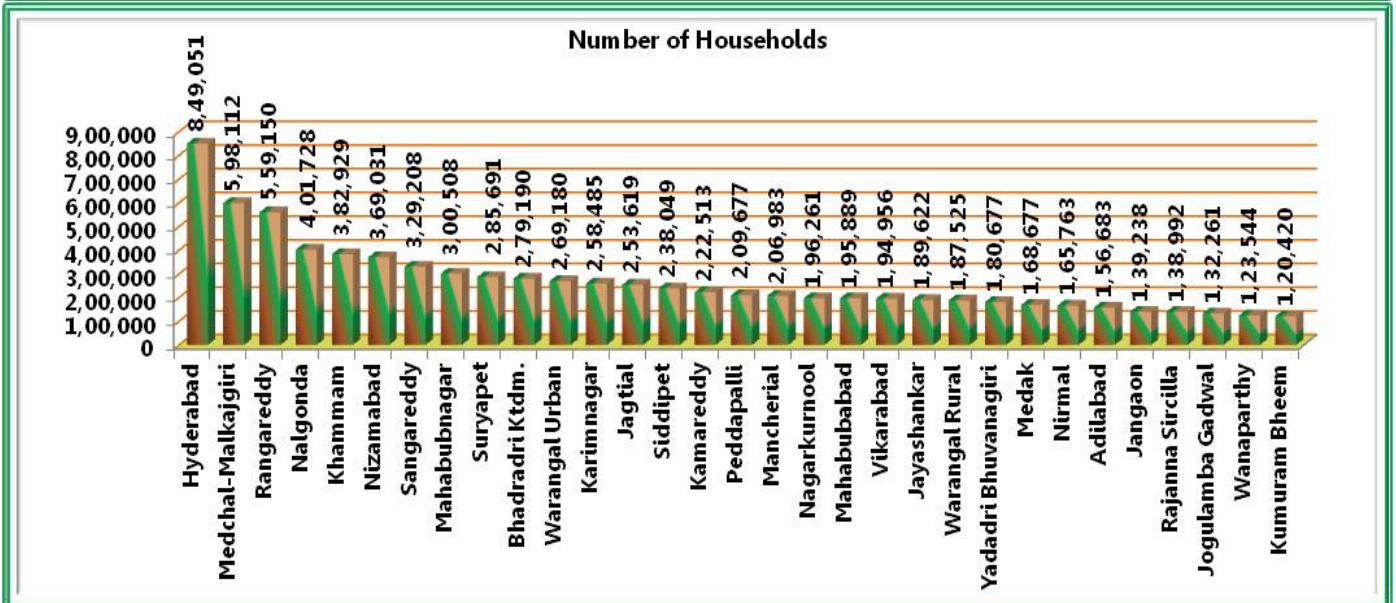

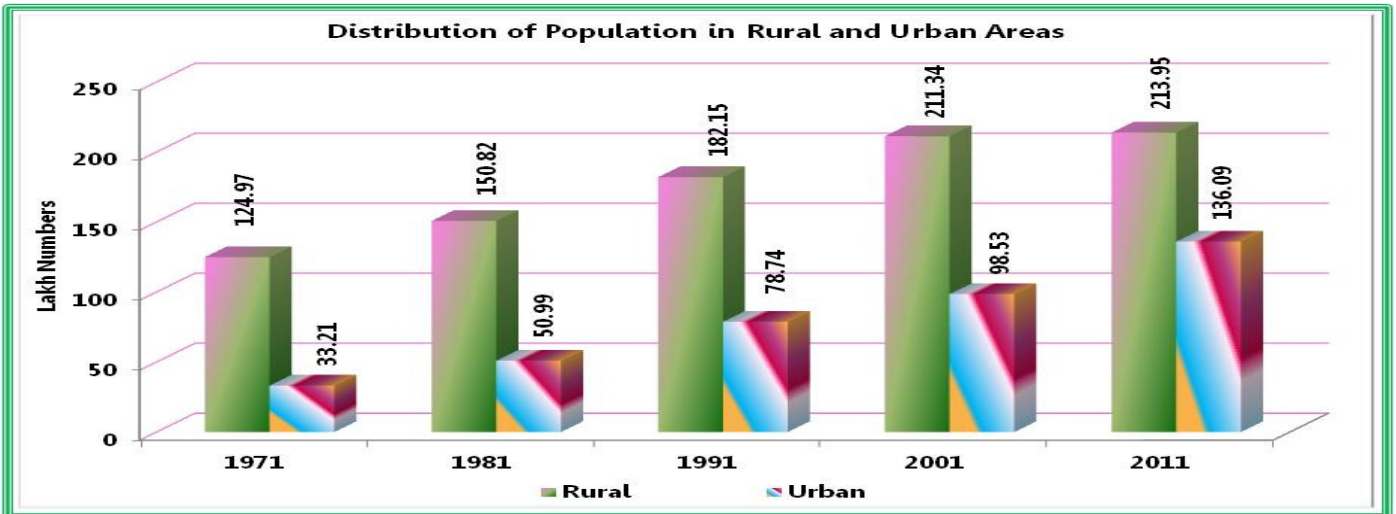

### Growth and Level of Urbanization

The distribution of population in rural and urban areas shall be in equilibrium. The uneven distribution in either of the areas will pose problems relating to administration, law and order, transportation, water and other amenities. Government is taking appropriate action for providing these facilities based on the distribution of population in rural and urban areas. Urban population, according to 2011 census, is 136.09 lakhs, whereas it was 98.53 lakhs in 2001, which increased by 36% over the decade in the State. Hyderabad is a hundred percent urban district but the city of Hyderabad

spreads much beyond the district boundary into the neighboring Medchal-Malkajgiri and Rangareddy districts. This has made Medchal-Malkajgiri as the next highly urbanized district with 70.22% urban population, then Rangareddy with 57.70% Urban Population stood at third position, around 30% of the total urban population in Telangana state resides in the capital city of Hyderabad alone.

The Distribution of population in rural and urban areas from 1971 to 2011 is furnished graphically.

## Composition of Workforce

**Workforce:** Persons engaged in any economically gainful activity are considered as workers or workforce. According to population Census 2011, total workforce of the State is 163.42 lakhs.

**Work participation Rate:** It is the percentage of economically gainful active persons to total population.

**Total Workers** Include all main workers and marginal workers which constitute 163.42 lakhs in the State.

**Cultivator:** Cultivator is a person who is engaged as employer or worker in cultivation of certain crops on land owned by him or held by him for payment in money, kind or share. Cultivators include supervision or directions of cultivation. Total number of cultivators are 31.51 lakhs as per 2011 Census.

**Main Workers:** Main Workers are persons engaged in any economically gainful activity for 183 days or more in a year. There are 137.20 lakh main workers, of which 22.42 lakhs belong to scheduled castes and 14.58 lakhs belongs to scheduled tribes, as per 2011 Census.

**Marginal workers:** Marginal workers are persons engaged in any economically gainful activity for less than 183 days. As per 2011 Census there are 26.22 lakh marginal workers, of which 4.96 lakhs belong to scheduled castes and 2.93 Lakhs belongs to scheduled tribes.

**Agricultural labourer:** Agricultural labourer is a person working in another persons land for wages in cash or kind. He has no risk of cultivation. Total number of agricultural labourers as per Census 2011 in the State are 59.15 lakhs.

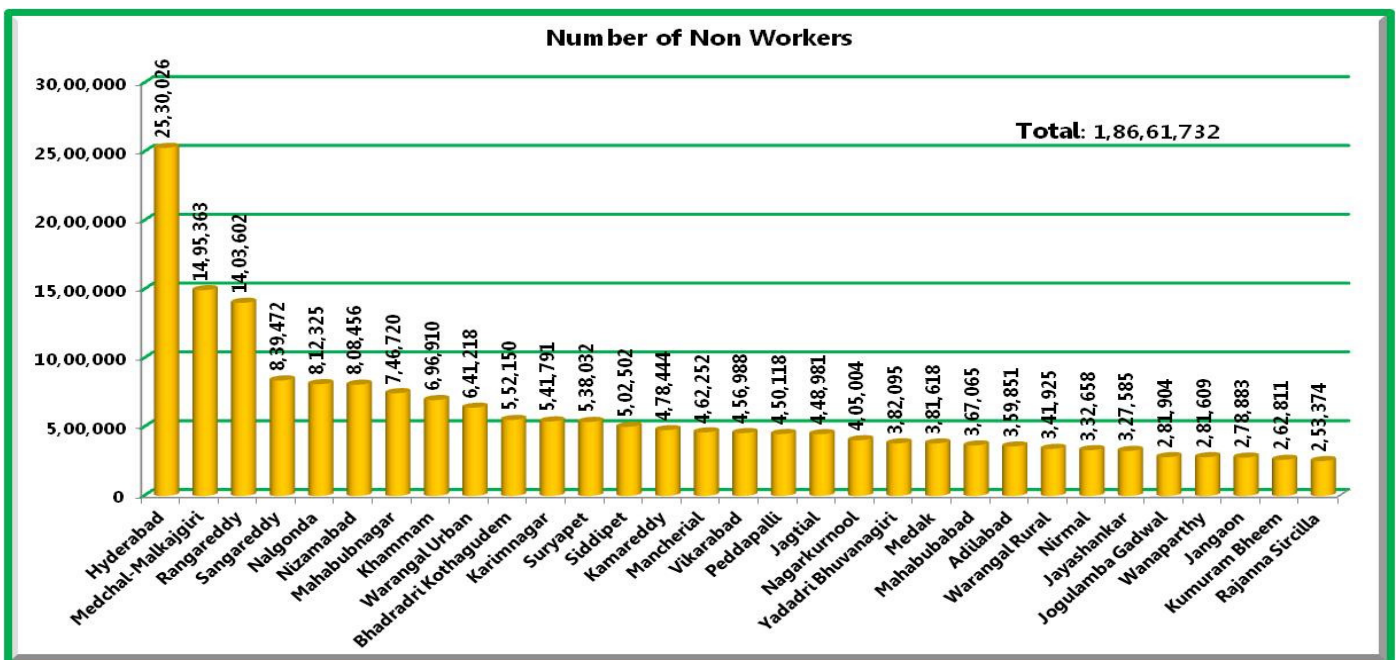

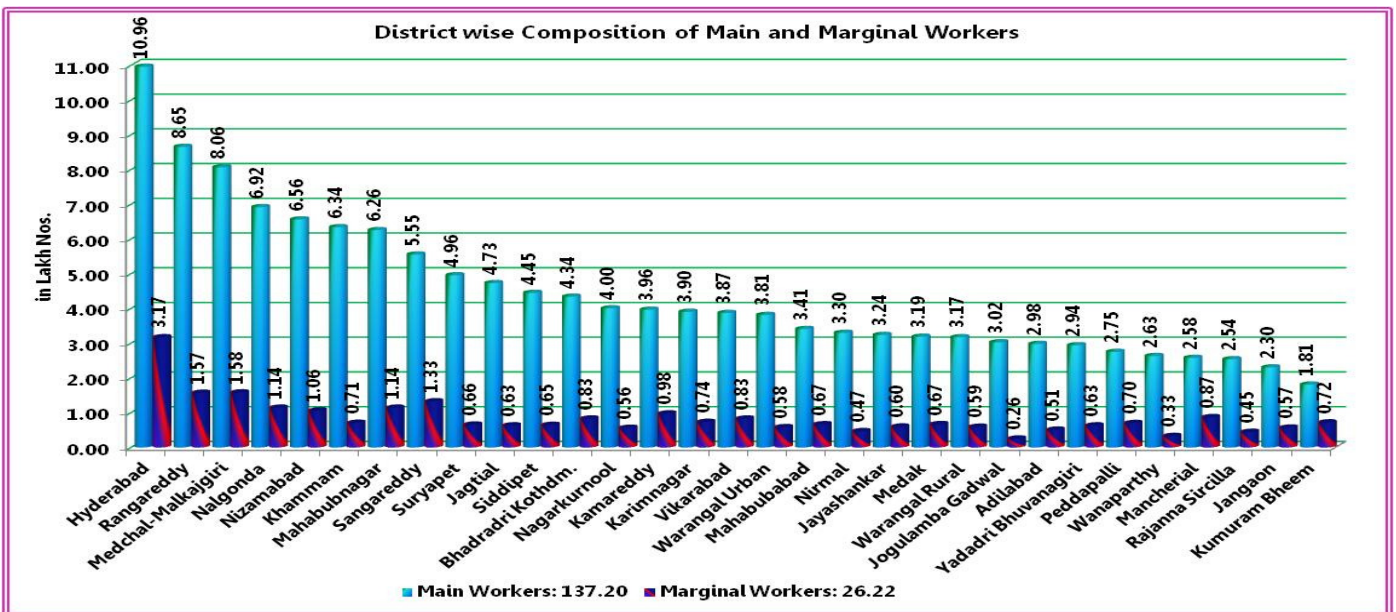

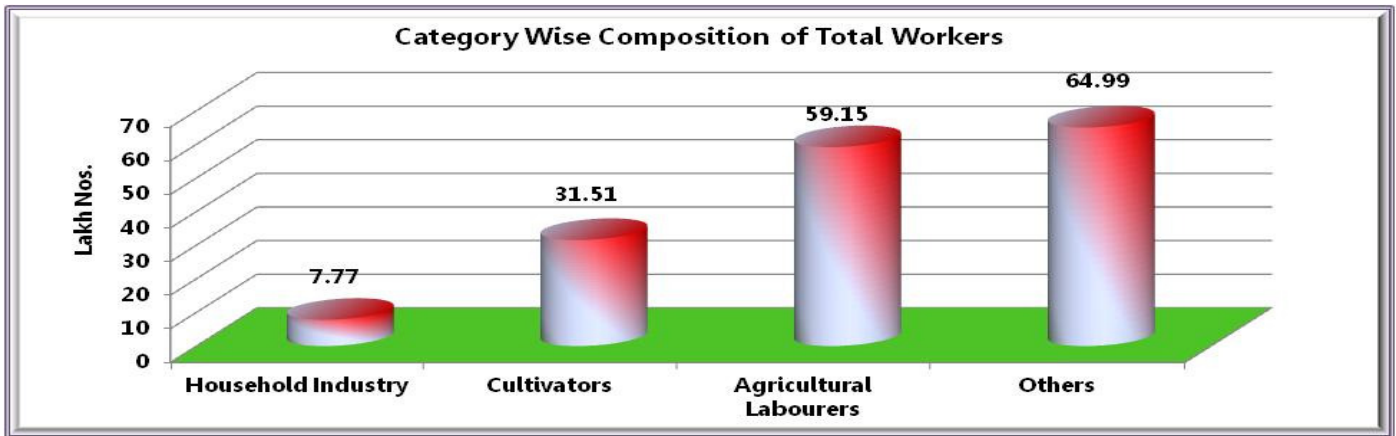

**Household industry worker:** Household industry worker is a person who work for a major part in household industry. Household industry relates to production, processing, servicing, repairing or making and selling of goods. There are 7.77 lakh persons engaged in household industry.

**Other worker:** Other worker are persons engaged in the activities other than cultivation, agricultural labour and household industry. There are as many as 64.99 lakh other workers in the State.

**Non worker:** Non worker is a person who is not engaged in any gainful activity. There are 186.62 lakh non workers as per 2011 Census.

Apart from the data so presented, an attempt is made in this chapter to present data on other parameters relating to the population and related matters in different tables.

## 2. Health and Family Welfare

The right to health is the economic, social and cultural right to the highest attainable standard of health. This right was well recognized in the Universal Declaration of Human Rights, International Covenant on Economic, Social and Cultural Rights and the Convention on the Rights of Persons with Disabilities. Every Country around the Globe are trying their best to address this issue of affordable health care to all their citizens.

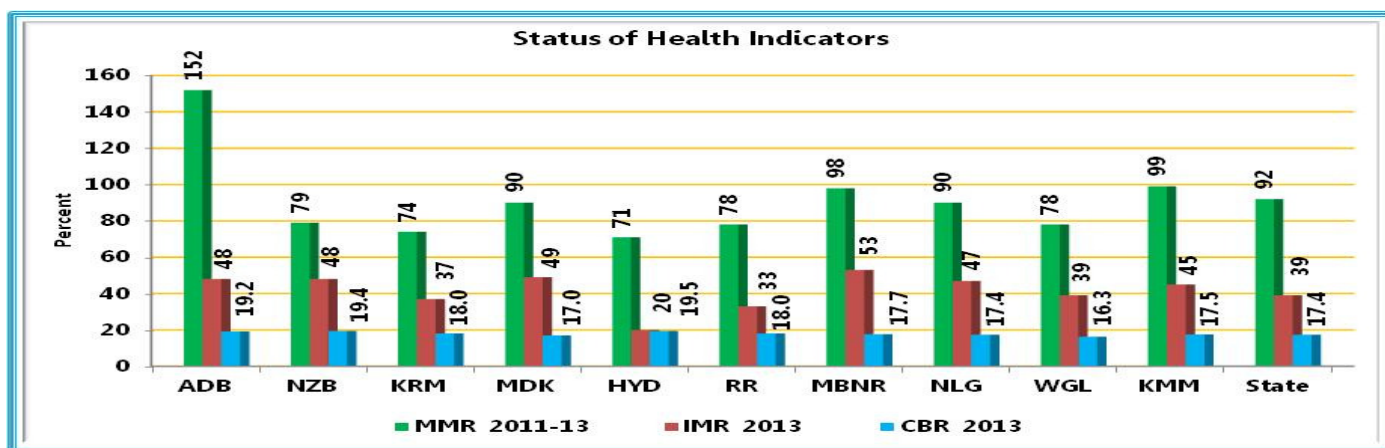

In accomplishing this, the Government of India has launched the National Health Mission (NHM) encompasses its two Sub-Missions, the National Rural Health Mission (NRHM) and the newly launched National Urban Health Mission (NUHM). The main programmatic components include

### Health Indicators

The availability of health care services is found to be inadequate, both quantitatively and qualitatively. Considering the fact, the Government has introduced various health schemes and programmes for providing basic health facilities to all citizens. In six out of ten erstwhile districts of the State, the Infant Mortality Rate (IMR) is found to be much higher than the State average of 39 and national average of 40. But in the Year 2015-16 the Infant Mortality Rate has come down to 34 as compared to 39 during the year 2013. The Maternal Mortality Rate (MMR) of the State is 92, which is

Health System Strengthening in rural and urban areas Reproductive-Maternal Neonatal Child and Adolescent Health (RMNCH+A), and Communicable and Non-Communicable Diseases. The NHM envisages achievement of universal access to equitable, affordable and quality health care services that are accountable and responsive to peoples need. As such, health care should be within the reach of every citizen. The Government has introduced various health schemes and programmes for providing basic health facilities to all of its citizens, including women, children and senior citizens are being implemented in the State. Many demographic and health indicators have been prescribed to monitor the health status in a given area like district, State etc .

much lesser than the national average of 167. Among all the erstwhile districts, the Maternal Mortality Rate (MMR) of Adilabad district is comparatively very high at 152, followed by Khammam and Mahabubnagar districts. The percentage of home deliveries is found to be very high in erstwhile Adilabad district with 11.5% as per District Level Household and Facility Survey (2012-13) conducted by the International Institute for Population Sciences. The status of Health Indicators for MMR, IMR and CBR is depicted in the chart below:

### Health and Family Welfare

There are 107 general hospitals, 17 hospitals for special treatment, totaling to 124 hospitals rendering services in the State. Apart from this, there are 683 primary health centers 32 Panel Clinics and 74 dispensaries functioning in the

State as on 31-03-2016. The strength of doctors in these hospitals is 3622, including 419 contract doctors to provide maternal and child health care and family welfare services to the people of the State.

### Human Development Index and Rankings

Human development is the expansion of people’s freedom to live long, healthy and creative lives. The construction of Human Development Index combines three dimensions of development viz., (i) per capita income, ii) longevity and health standards, and iii) literacy

and education. The Human Development Index for the years 2004-05, 2011-12 and 2015-16 (Projected) their rankings are presented in this chapter. The indices clearly indicate that there has been a significant improvement in the HDI in all districts of the State.

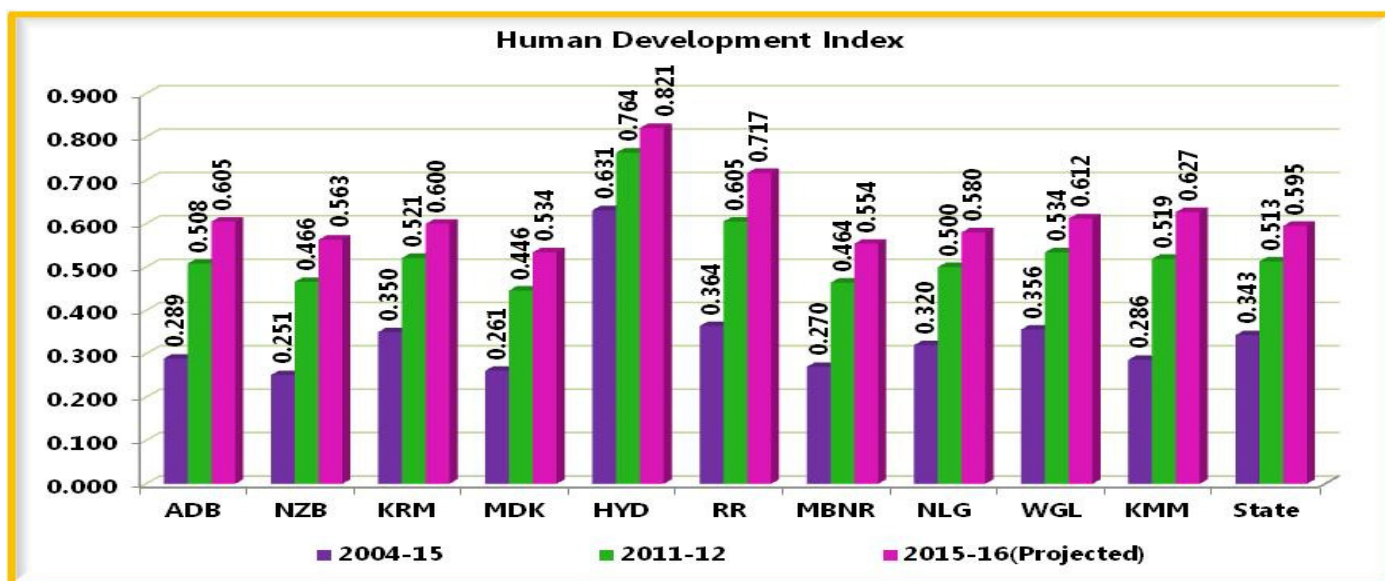

Table	Content
2.1	Estimated Birth, Death, Infant Mortality, Total Fertility and U5MR from 2012 to 2015
2.2	Estimated Age Specific Fertility Rate from 2012 to 2014
2.3	Status of Health Indicators in the State
2.4	Percentage distribution of Estimated Population by Age-Group, Sex and Residence, 2014
2.5	Government Medical Facilities under Allopathy, 2015-16
2.6	Government Medical Facilities under Allopathy by Districts, 2015-16
2.7	Department wise Medical Facilities under Allopathy, 2015-16
2.8	Government Hospitals, Dispensaries and Doctors under AYUSH, 2015-16
2.9	Government Medical Hospitals under AYUSH by Districts, 2015-16
2.10	Medical Dispensaries - Ayurveda under AYUSH by Districts, 2015-16
2.11	Medical Dispensaries - Unani under AYUSH by Districts, 2015-16
2.12	Medical Dispensaries - Homeopathy under AYUSH by Districts, 2015-16
2.13	Medical Dispensaries - Naturopathy under AYUSH by Districts, 2015-16
2.14	Health Management Information System, 2015-16
2.15	HIV Positives Identified and Patients Assisted by Districts, 2015-16
2.16	Human Development Index and its Ranking by Districts

### 3. Climate

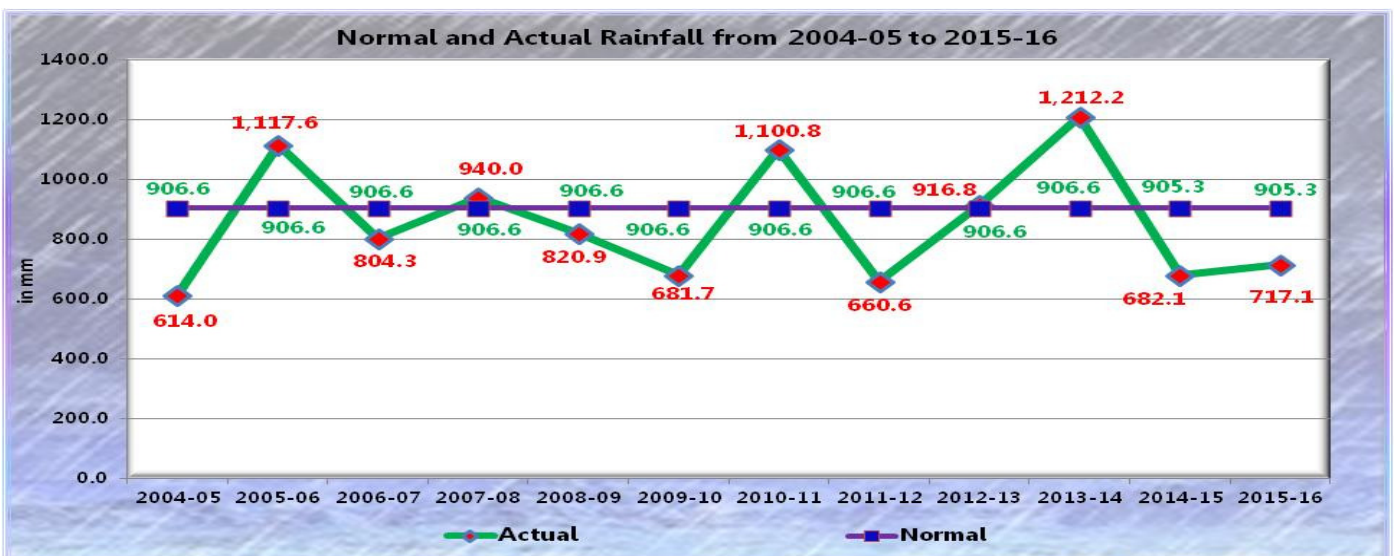

Telangana State is geographically located in a semi-arid area and has predominantly hot and dry climate. Summer starts in March, and reaches peak in May with average high temperatures of around 42°C (108°F). The monsoons enter into the State in June and lasts until September with about

713 mm., of precipitation. A dry, mild winter starts in late November and lasts until early February with little humidity and average temperatures in the range of 22–23°C(72–73°F). Occasionally the State is also prone to hailstorms in the month of April and May.

#### Rainfall

The average or normal rainfall of the State is about 905.3 mm and about 80% of annual rainfall is received from the south-west monsoons alone during (June to September). The rainfall in the State is erratic and uncertain and distribution of the rainfall is uneven in various mandals thus, making agriculture a proverbial gamble with the

monsoons. During the period from 2004-05 to 2015-16, the annual actual rainfall received was lowest in 2004-05 with 614 mm., where as it was the highest in 2013-14 with 1,212.2 mm., as against normal rainfall of 906.6 mm., in the State. Year wise details of actual and normal rainfall are depicted in the following graph.

Apart from rainfall, the details of climate conditions such as minimum & maximum temperatures, relative humidity & wind speed

and well frequency of ground water levels at different stations are presented in this chapter.

Table	Content
3.1	Season wise Rainfall from 2004-05 to 2015-16
3.2	Season wise Rainfall by Districts, 2015-16
3.3	Annual Average Rainfall by Districts from 2012-13 to 2015-16
3.4	Maximum and Minimum Temperatures at different Stations, 2016
3.5	Relative Humidity and Wind Speed at different Stations, 2016
3.6	Well Frequency of Ground Water Level Fluctuations, 2014-15
3.7	Well Frequency of Ground Water Level Fluctuations, 2015-16

## 4. Agriculture

Agriculture plays a pivotal role in the economy of the State and the better performance of this sector is vital for inclusive growth. Sustainable growth in Agriculture continues to be core agenda of the Government and occupies center stage in state economy embodying three thrust areas viz., (i) to promote inclusive growth, (ii) to enhance rural income, and (iii) to sustain food security. About 55.49 percent of the State's population is dependent, in some form or the other, on farm activity for livelihoods, it is imperative to increase the farm incomes and ensuring sustainable growth in Telangana to reduce poverty. The share of agriculture sector to the Gross State Value Added (GSVA) in 2015-16 is 14.7 percent and 2016-17 is 15.3 percent at current prices.

Pressure on agricultural land is increasing over the years for industrialization, urbanization, housing, infrastructure and others. All these

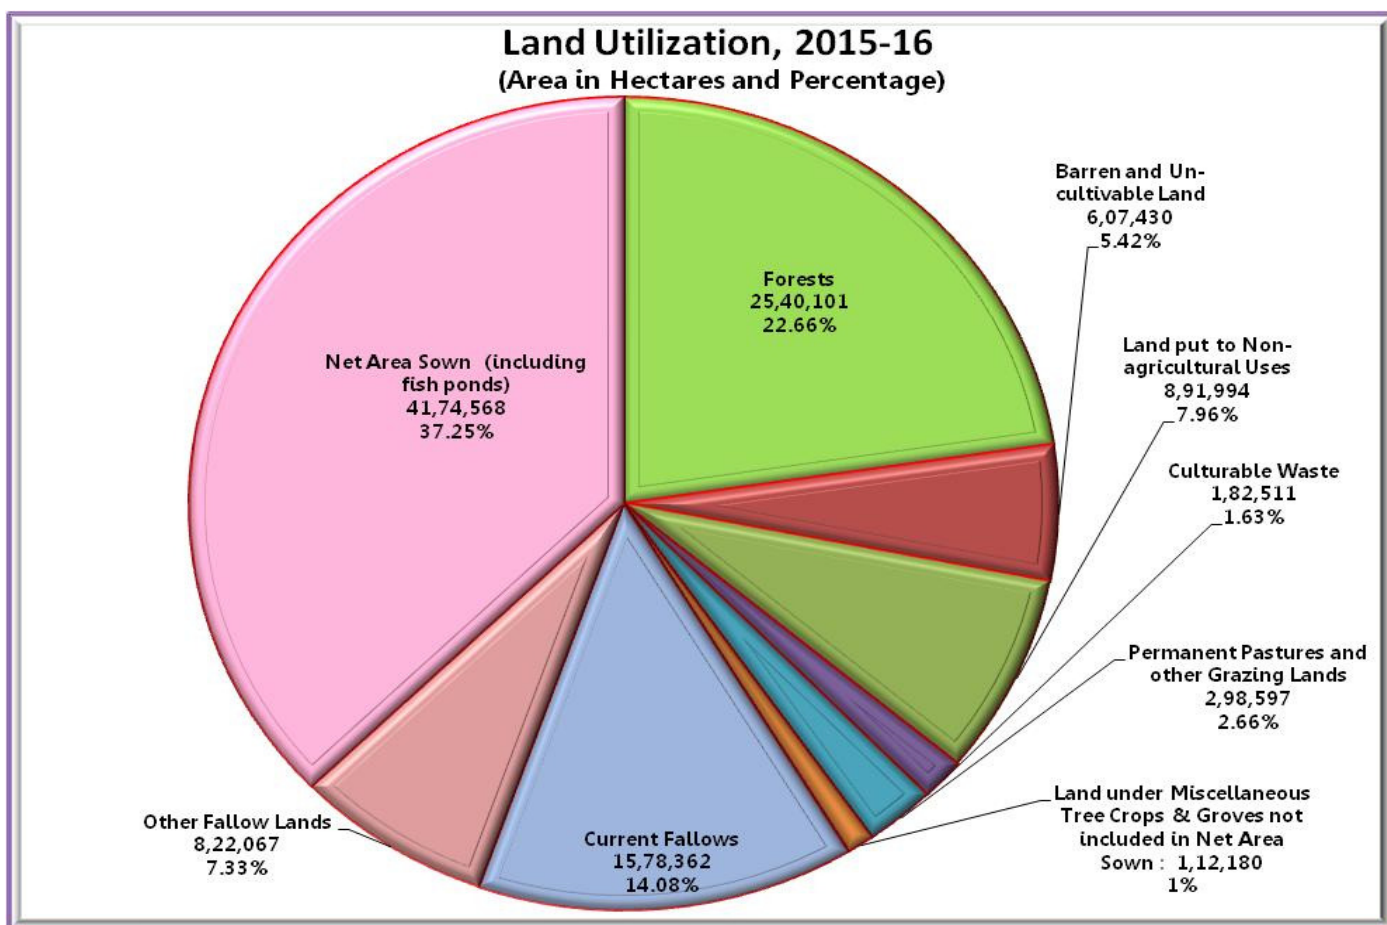

### Land Utilization

The total geographical area of the State is 112.08 lakh hectares, of which the area under forest cover is 25.40 lakh hectares, constitute 22.66% of the land. About 37.25% area is under cultivation (41.75 lakh hectares), 14.08% is current fallow lands (15.78 lakh hectares), 7.96% of land is put to non-agricultural uses (8.92 lakh hectares), 5.42% is barren and uncultivable (6.07 lakh hecets.)

factors are forcing for conversion of agricultural land to non-agricultural uses. The scope for expansion of the area available for cultivation is coming down to that extent, ultimately decrease in net area sown. Paddy is the major food crop and staple food of the State. Other important crops grown are Maize, Jowar, Red gram, Green gram, Bengal gram, Groundnut, Soya bean, Mango, Cotton, Chillies, Sugarcane etc., and agriculture has been one of the important sources of income for the State's economy.

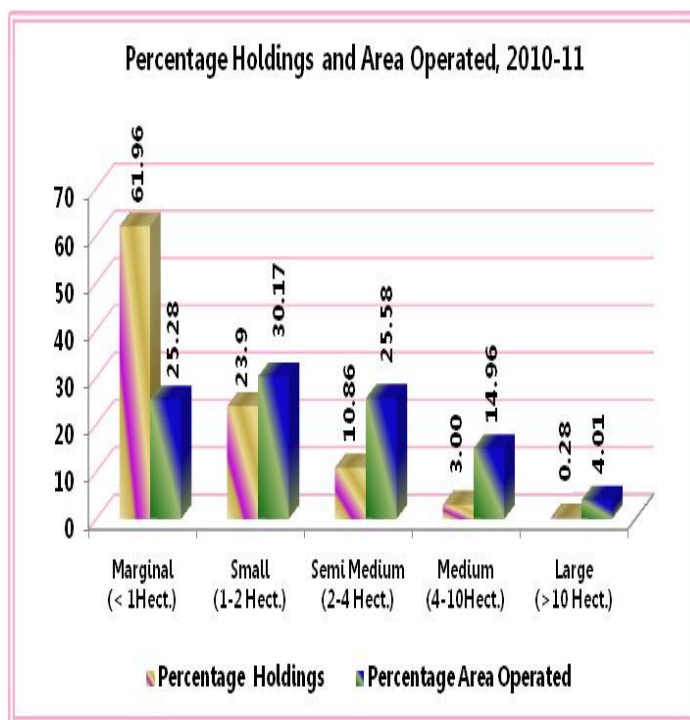

During 2015-16, production of total food grains was recorded as 51.45 lakh tonnes in the State. Of the total food grains, production of cereals and millets was 48.98 lakh tonnes, pulses 2.47 lakh tonnes. Production of oil seeds was 5.79 lakh tonnes, Chillies 2.28 lakh tonnes, Turmeric 1.84 lakh tonnes etc.

and 7.33% falls under other fallows (8.22 lakh hecets.). The remaining 5.29% is under culturable waste, permanent pastures and other grazing lands, and land under miscellaneous tree crops and groves are not included in the net area sown (5.93 lakh hectares). The pattern of land use under various categories is indicated in the following chart.

### Land Holdings and Area Operated

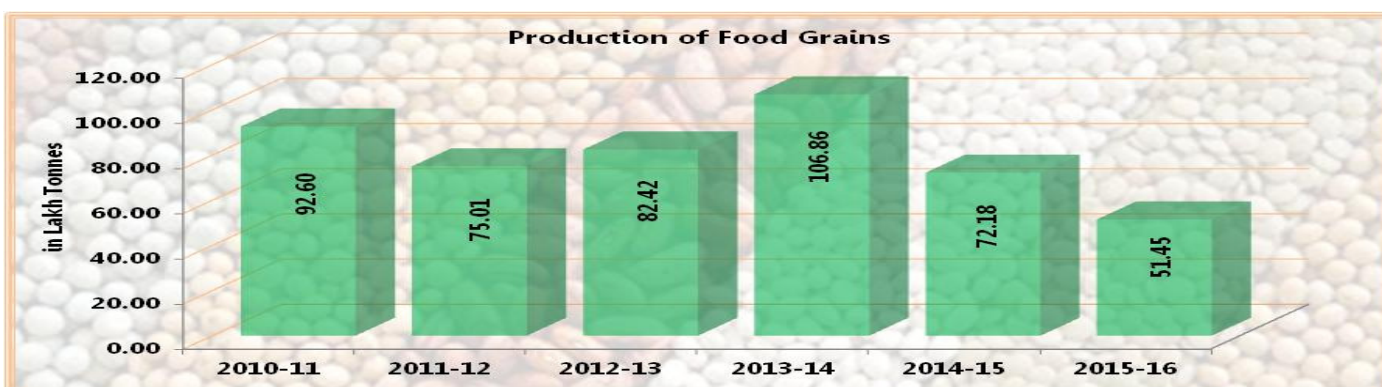

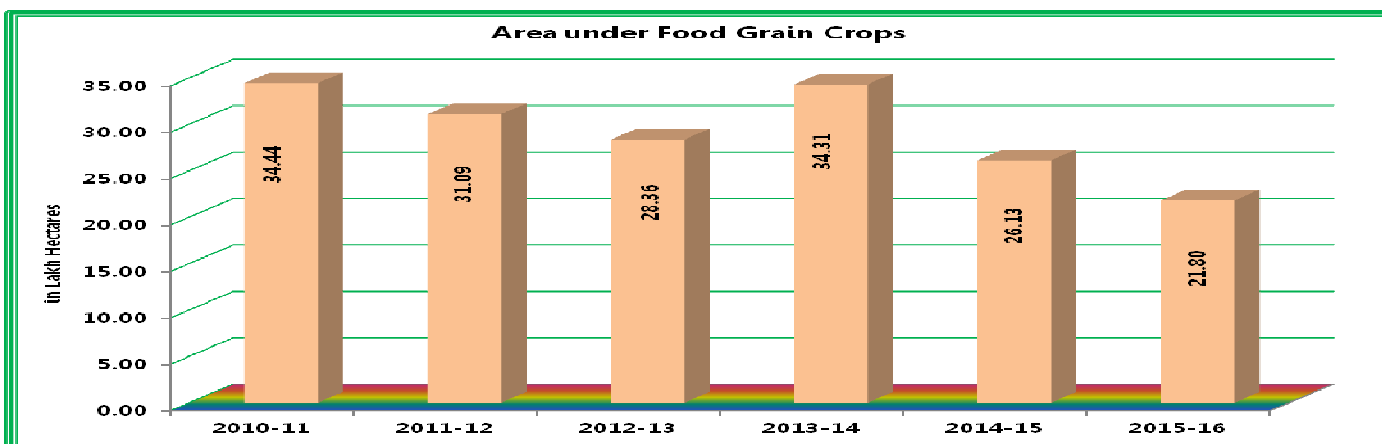

As per the Agricultural Census, 2010-11, the number of land holdings in the State is accounted to 55.54 lakhs and the area held by these holdings is 61.97 lakh hectares. The average size of the holdings in the State is 1.12 hectares, which is highly uneconomical to operate. In the State, 62.0 percent of the holdings are marginal (less than 1 hectare) and the percentage of small holdings (1 to 2 hectares) is 23.9%. Thus, marginal and small holdings constitute about 85.9% of total agricultural holdings in the State, making agriculture a subsistence source of livelihood for majority of the population. Distribution of land holdings and area operated as per size classes is depicted in the graph.

### Area and Production of Food Grains

Area and production of food grains from 2010-11 to 2015-16 in the State are shown in the following charts. It can be observed that, the area sown is higher with 34.44 lakhs hectares in 2010-

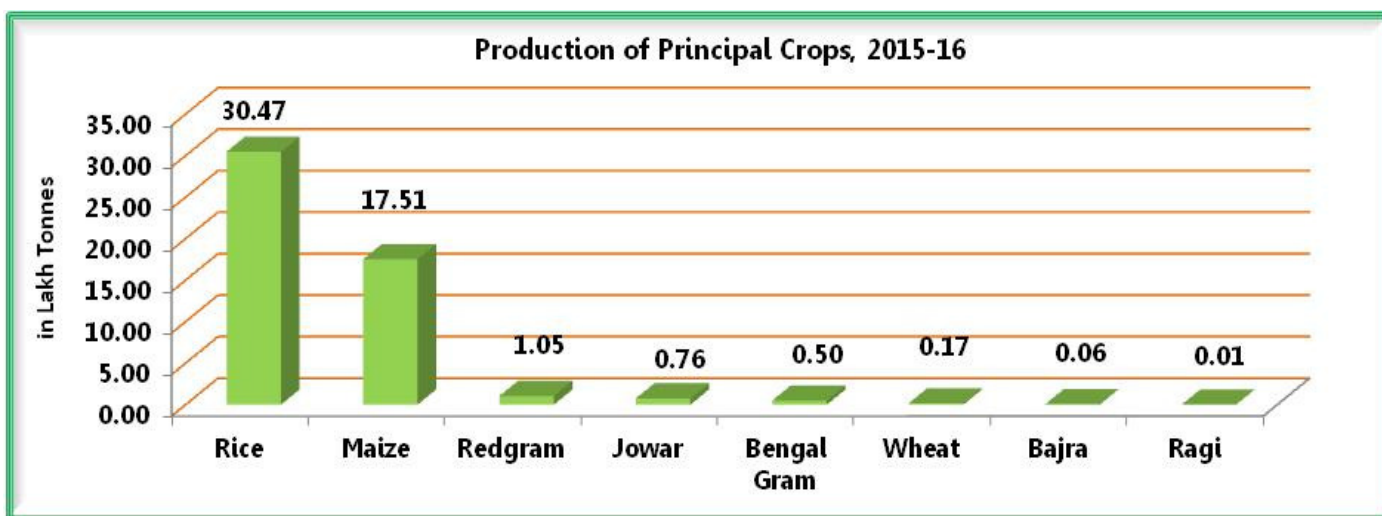

11 with a production of 92.60 lakhs tonnes, whereas the area sown was lowest in 2015-16 with 21.80 lakh hectares with a production of 51.45 lakh tonnes, in the State.

### Production of certain Principal Food Crops

Production of food grains under certain principal

crops like Rice, Maize, Jowar, Bengal gram etc., for the year 2015-16 is shown in the graph below:

### Crop Productivity

The average productivity (average yield in kilograms per hectare of land) of principal crops during the year 2015-16 are 2,913 Kgs. in respect of Rice, Maize with 3,057 Kgs., Red gram with 421 Kgs., 991 kgs., for Jowar, Bengal gram with 721 kgs., Wheat with 3,413 kgs., Bajra with 938 kgs. and Ragi with 559 Kgs.

The productivity of Rice decreased from 3,211

Kgs., to 2,913 Kgs. Maize also decreased from 3,338 Kgs., to 3,057 Kgs. The yield of Jowar also decreased from 1,054 to 991 kgs., Bengal gram reduced from 1,370 to 721 Kgs., whereas the yield of Wheat increased from 1,189 to 3,413 Kgs., Ragi has reduced drastically from 1,145 Kgs., in 2014-15 to 559 Kgs., in 2015-16. Other crops are almost stable with little increase or decrease or at the same level.

### Cropping Intensity

The cropping intensity (the ratio of gross cropped area to net cropped area) is one of the indicators for assessing efficiency of agriculture sector. In other words cropping intensity refers to raising of a number of crops from the same field during one Agricultural year. The cropping intensity for the year 2015-16 decreased to 1.17

from 1.21 in 2014-15, showing a decrease of 3.31 percent over previous year. The level of cropping intensity moves in consonance with the behavior of the monsoon and availability of water for irrigation. The cropping intensity is highest in Nizamabad district with 1.36 and lower in Mahabubnagar district with 1.08.

## 5. Irrigation

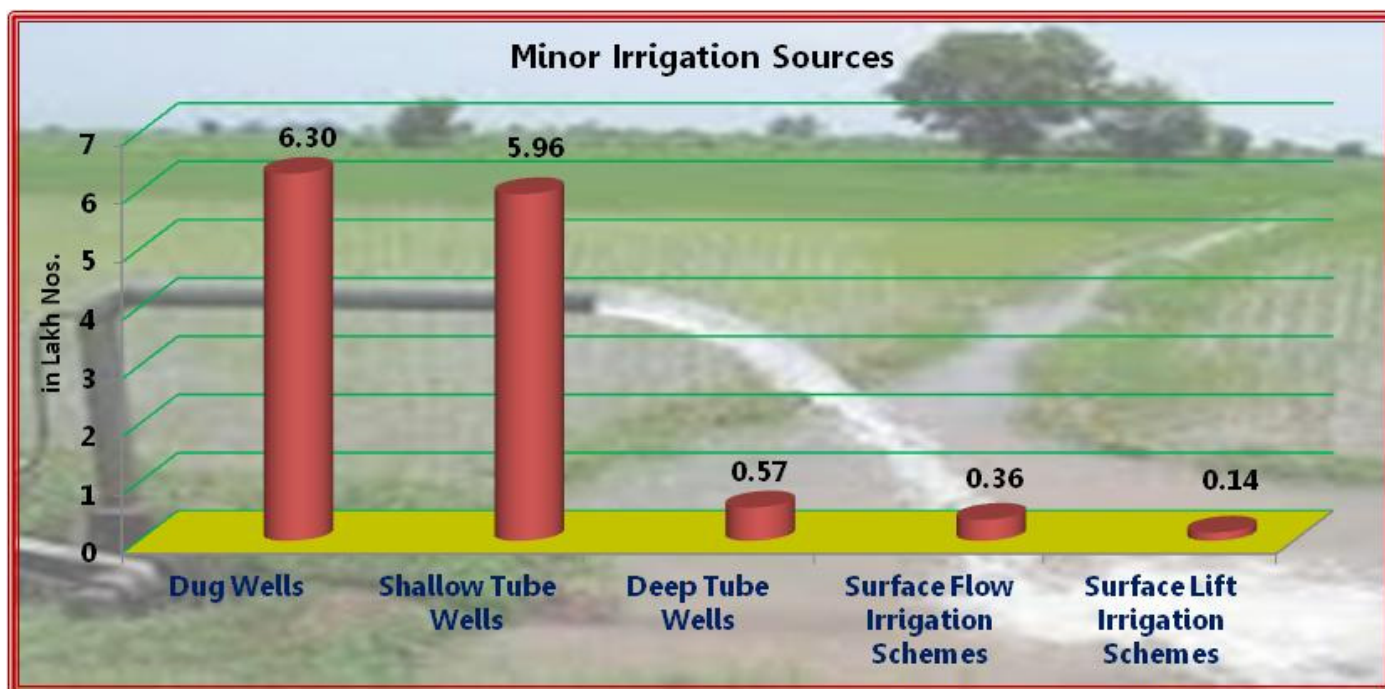

Irrigation is the artificial application of water to the land or soil. It is used to assist in growing of agricultural crops, maintenance of landscapes, and re-vegetation of disturbed soils in dry areas and during periods of inadequate rainfall. Irrigation is one of the most important critical inputs for enhancing the productivity that is required at different critical stages of plant growth. One cannot imagine agriculture without irrigation. Two important rivers of India, the Godavari and

Krishna are flowing through the State and providing irrigation. Major sources of irrigation in the state are canals, tanks, tube wells, dug wells etc., and irrigation is being done with the use of various techniques such as surface irrigation, localized irrigation, drip irrigation, sprinkler irrigation, sub-irrigation depending upon the availability of source, accessibility and others to increase the productivity of the crop grown.

### Irrigation sources

There are 6.30 lakh dug wells, 6.53 lakh tube wells, 0.50 lakh surface flow and lift irrigation sources totaling to 13.33 lakh sources are catering to the

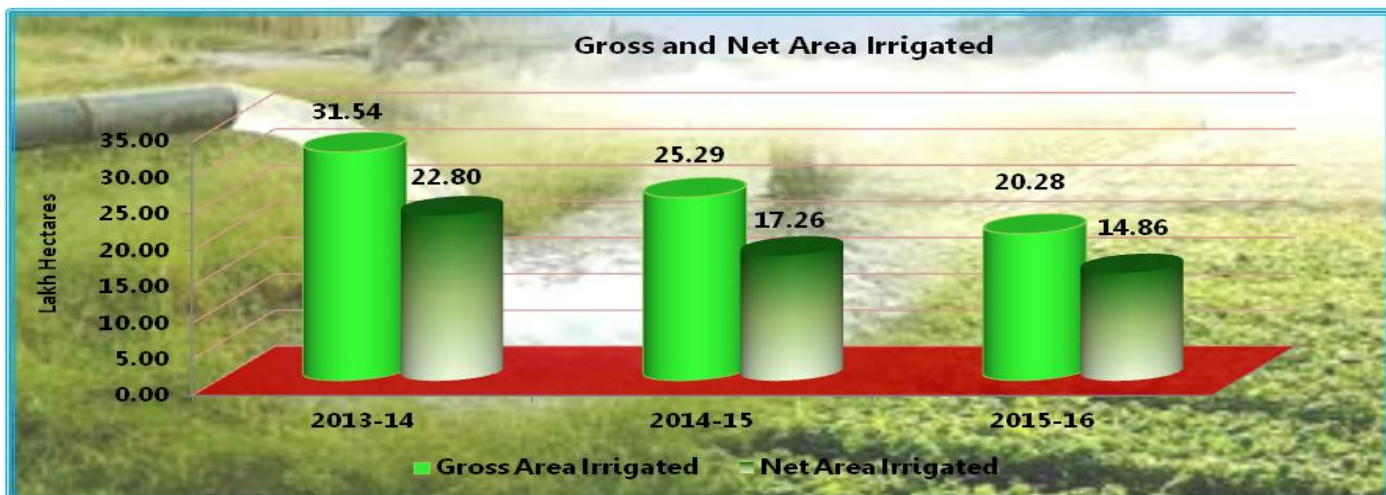

needs of agriculture, according to the fourth Minor Irrigation Census conducted in the State during 2006-07. Pictorial representation is as follows.

### Gross and Net Area Irrigated

The gross area irrigated in the State during 2015-16 has decreased to 20.28 lakh hectares from 25.29 lakh hectares in 2014-15, showing a decrease of 19.81%. Similarly, the net area irrigated has also decreased to 14.86 lakh hectares

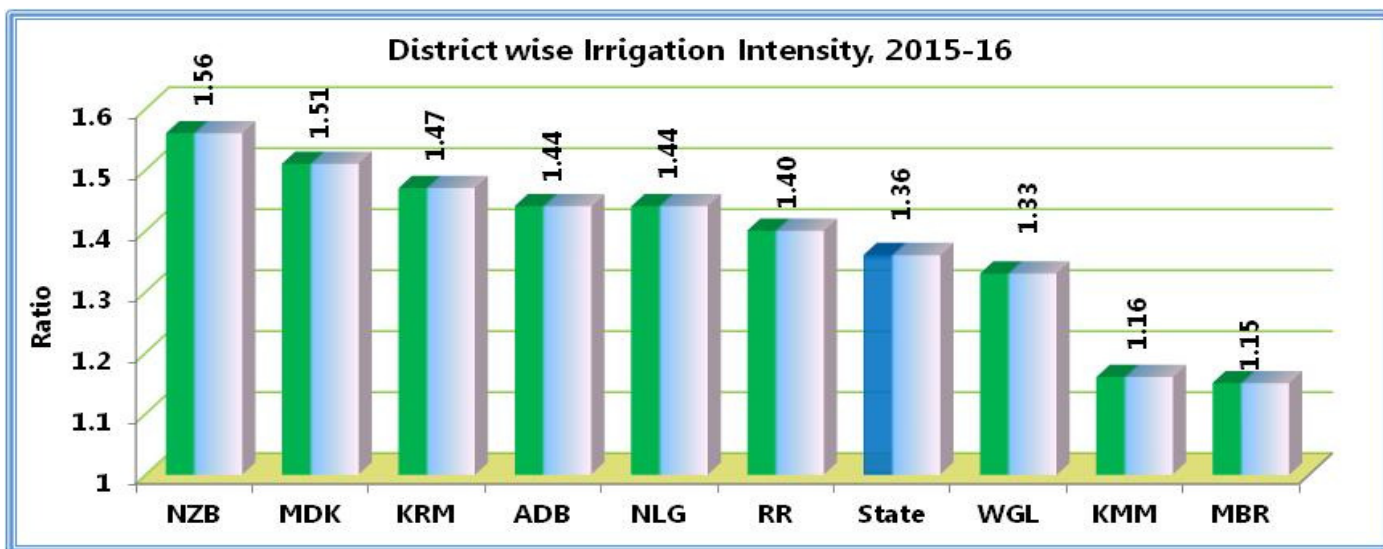

in 2015-16 from 17.26 lakh hectares in 2014-15 showing a decrease of 13.90%. Graphical representation of Gross and Net areas irrigated during 2013-14 to 2015-16 is as follows:

### Irrigation Intensity

The irrigation intensity is the ratio of gross area irrigated to the net area irrigated. In other words, it represents the number of times the area is irrigated in a year, in both the seasons. The irrigation intensity during the year 2015-16 was

1.36 whereas it was 1.47 in 2014-15. The irrigation intensity is highest in Nizamabad district (1.57) and lowest in Mahabubnagar district (1.14). The Year wise and district wise irrigation intensity during is depicted in the following chart.

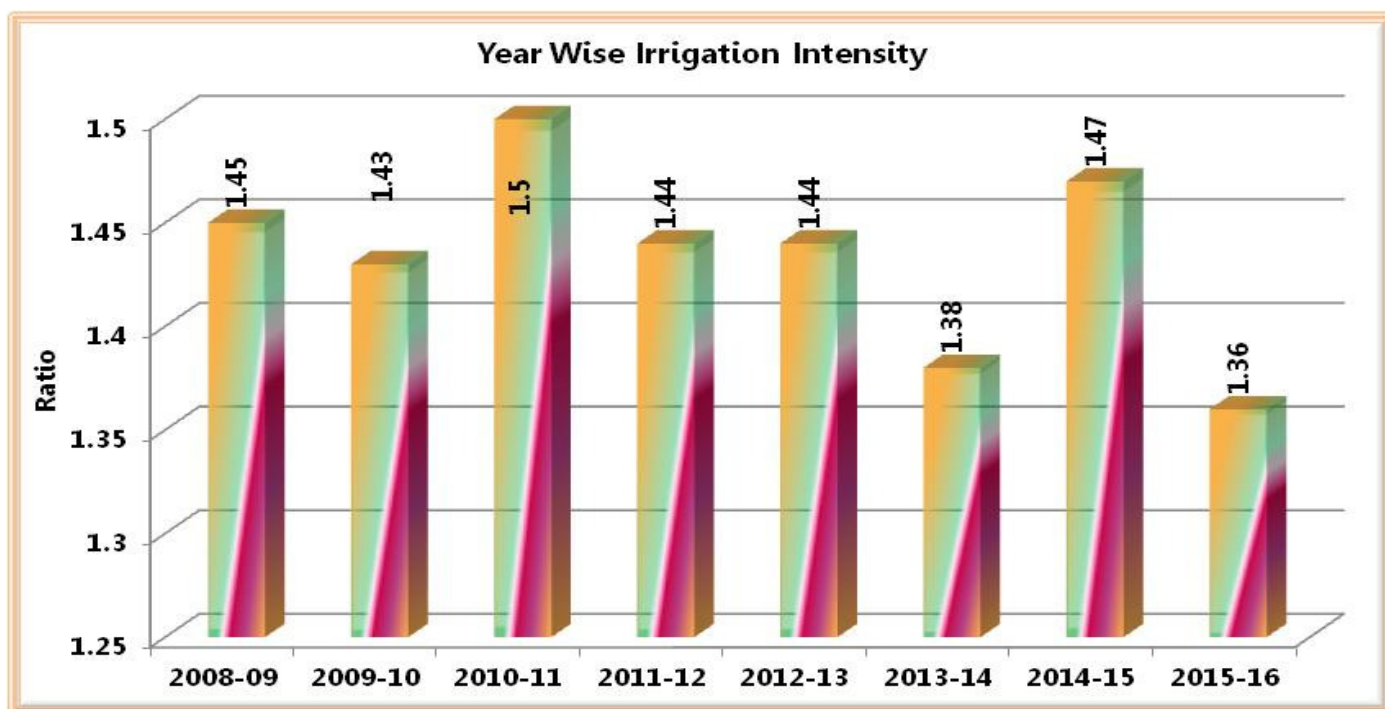

Table	Content
5.1	Minor Irrigation Sources according to periodic Minor Irrigation Censuses
5.2	Irrigation Potential Created and Area Actually Irrigated according to 3 <sup>rd</sup> and 4 <sup>th</sup> Minor Irrigation Censuses
5.3	Minor Irrigation Sources Created and Area Irrigated by Type according to 3 <sup>rd</sup> and 4 <sup>th</sup> Minor Irrigation Censuses
5.4	Minor Irrigation Sources according to 4 <sup>th</sup> Minor Irrigation Census, 2006-07
5.5	Gross Area Irrigated by different Sources from 2008-09 to 2015-16
5.6	Net Area Irrigated by different Sources from 2008-09 to 2015-16
5.7	Area Irrigated by different Sources by Districts, 2015-16
5.8	Crop wise Gross Area Irrigated under Food and Non-Food Crops, 2010-11 to 2015-16
5.9	Crop wise Gross Area Irrigated under Food and Non-Food Crops by Districts, 2015-16

## 6. Livestock and Fisheries

Rearing of Livestock play an important role in the Economy, especially in the rural areas. Apart from agriculture many rural youth are eking their livelihood in dairy, rearing sheep, goat and pig etc. The prosperity of Agriculture obviously depends upon its Livestock population. They are not only helping the farmer in agricultural operations and also helping more in conserving soil health and paving path for healthy crops and conservation of moisture.

Animal Husbandry sector consists of bovine, ovine, pig and poultry population. Bovine population is further classified into cattle and buffaloes and ovine population into sheep and goat. Telangana is well off with livestock resources, especially sheep population accounting to 19.80% of total Country's sheep population. The State stands 2nd in Sheep population, 13<sup>th</sup> in Goat population, in the country as per the Livestock Census, 2012.

### Animal Health Care Services

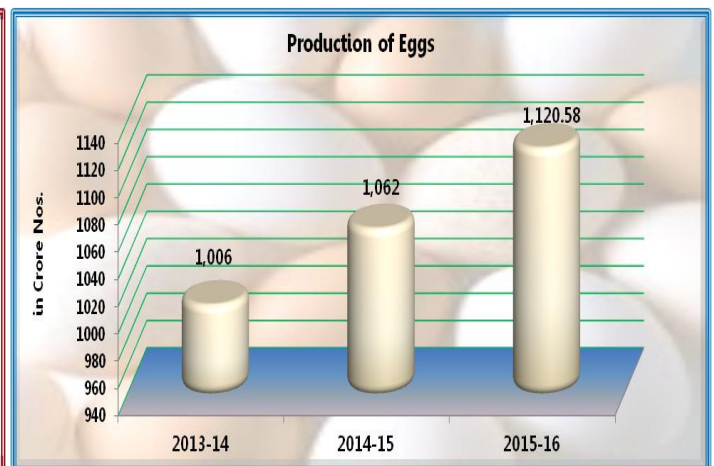

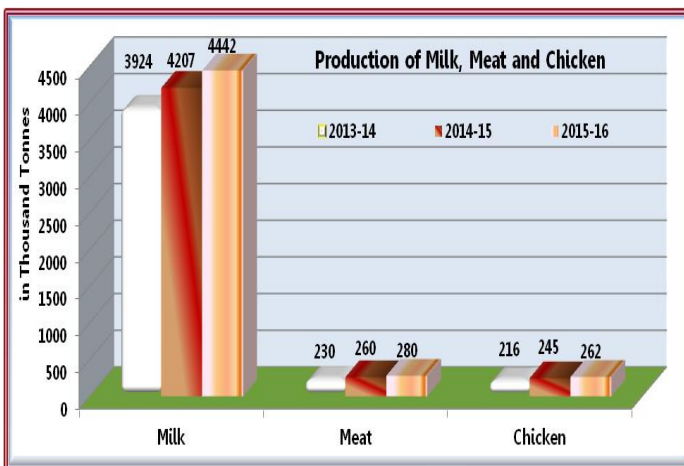

The important animal health care services available during the year 2015-16 are Super Specialty Veterinary Hospital (1), Veterinary Polyclinics (8), Veterinary Hospitals (100), Veterinary

Dispensaries (906), Mobile Veterinary Clinics (37) and Rural Livestock Units (1,102) are rendering animal health care services in the State.

### Production of Milk, Meat and Eggs

The State had produced 44,42,285 tonnes of Milk, 2,79,982 tonnes of Meat, 2,62,081 tonnes of Chicken and 1,12,058.228 Lakh Eggs during the year 2015-16. The Poultry population according to

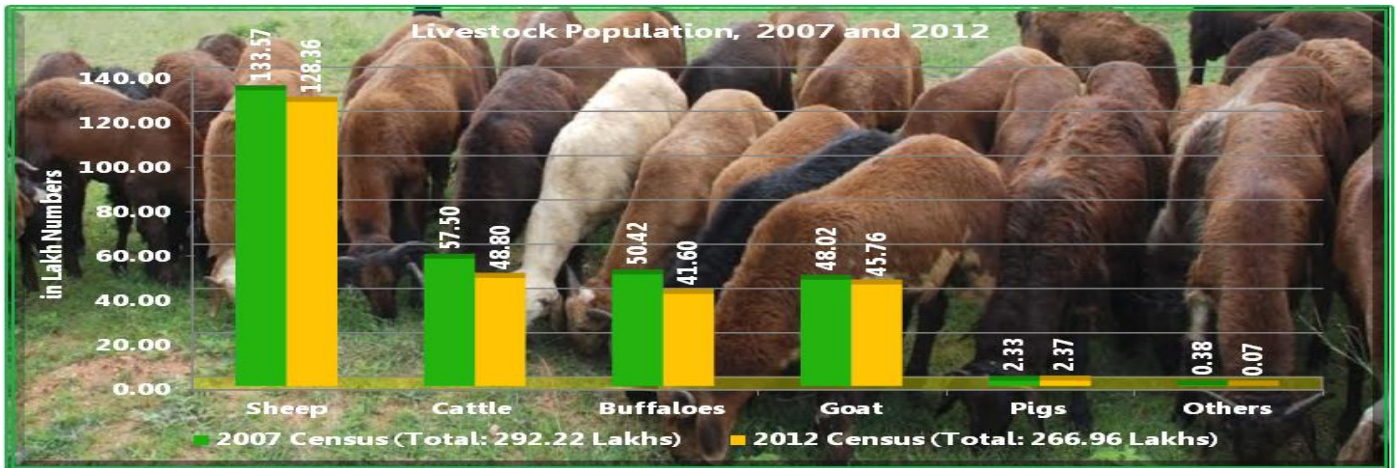

Livestock Census 2012 is 8,07,50,833, which increased manifold when compared to 2007, 2003 and 1999 Livestock Censuses. The same is depicted in the following graphs.

### Composition of Livestock Population

According to Livestock Census, 2012, the State has 48.80 lakh Cattle, 41.60 lakh Buffaloes, 128.36

lakh sheep, 45.76 lakh Goat and 807.51 lakh Poultry population.

### Fisheries

The State is blessed with important Irrigation Projects with abundant water such as Nagarjuna Sagar, Srisailem Project, Sri Ram Sagar Project, Nizamsagar, Singuru etc., numerous water bodies, perennial rivers like Godavari, Krishna, Manjeera and Pranahitha are the resources for fresh water fish and prawn in the State.

which provides cheap and nutritious food and source of livelihood for a large section of economically backward population of the State. The production of inland fish and prawn during the year 2015-16 is 2,36,752 Tonnes, with a value of Rs. 2,64,604.21 lakh and its contribution to Gross State Value Added (GSVA) is 0.6%. Production of species wise inland fish and prawns is given in the following chart.

Fisheries sector is one of the fast growing sectors

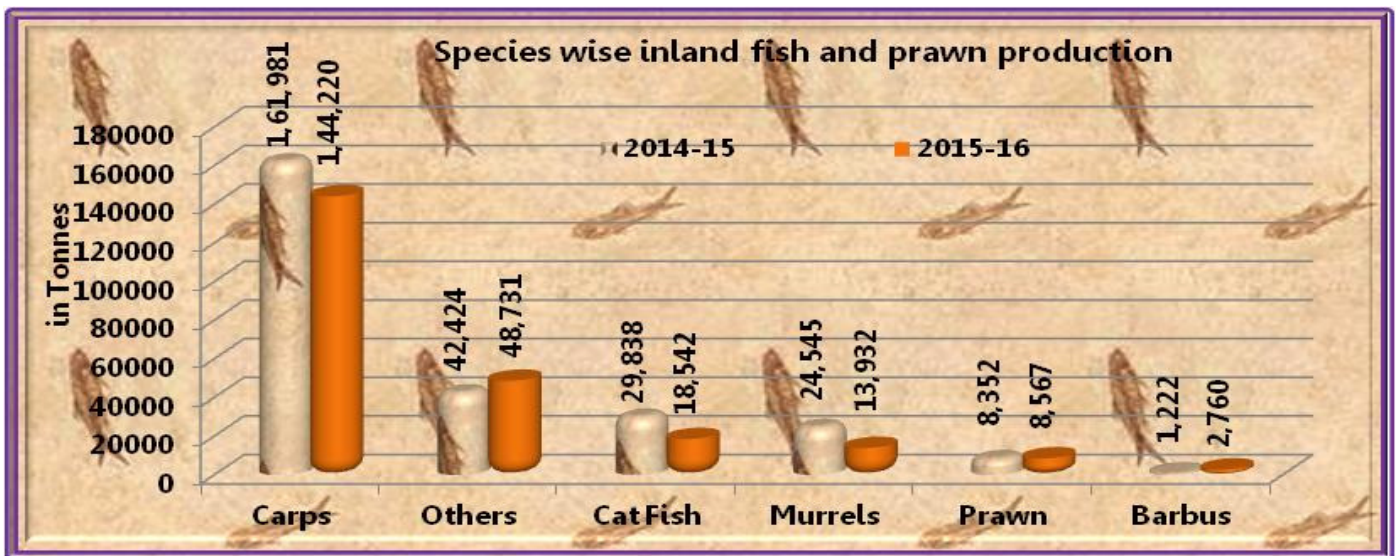

Table	Content
6.1	Livestock Development and Veterinary Services from 2008-09 to 2015-16
6.2	Availability of Veterinary Services from 2011-12 to 2015-16

## 7. Forests

Forest is large area of land covered chiefly with trees or other woody vegetation. The Hon'ble Supreme Court of India in W.P. No. 202/95 has defined the term "forest land", occurring in Section 2 of F.C Act, as it will not only include "forest" as understood in the dictionary sense, but also any area recorded as forest in the Government records irrespective of the ownership. India's National forest policy 1988 aims at maintaining 33 percent country's geographical area under forest and tree cover.

Forest cover means all lands, one hectare and more in area, with a tree canopy density of 10 percent or more irrespective of ownership and legal status. Such lands may not necessarily be a recorded forest area. It also includes orchards, bamboo and palm.

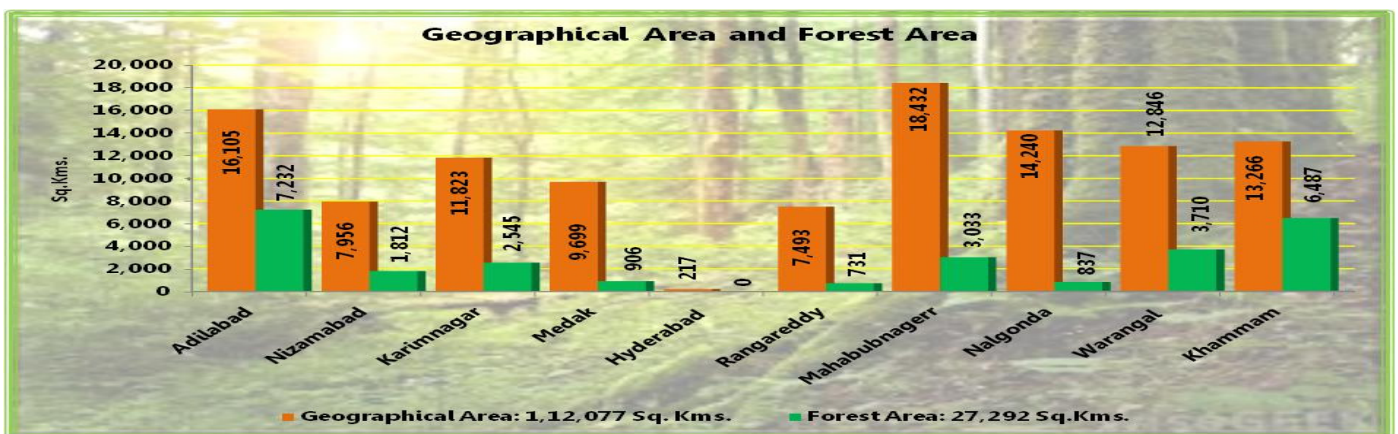

As far as Telangana is concerned, the Central Deccan Plateau dry deciduous forests eco-region covers much of the State, including Hyderabad. The characteristic vegetation is woodlands of *Hardwickiabinata* and *Albiziaamara*. Over 80% of the original forest cover has been cleared for agriculture, timber harvesting, or cattle grazing, but large blocks of forest can be found in Nagarjuna Sagar-Srisailem Tiger Reserve and elsewhere. The more humid Eastern Highlands moist deciduous forests cover the Eastern Ghats in the eastern part of the state. Forests cover is

critical for living environment, as it influences the quality and quantity of air and water and plays a major role in supporting livelihood activities of rural poor, contributing to the economy of the State, mitigating the threat of Global warming besides conserving the fertile soil and vulnerable Wildlife.

The contribution of Forestry and logging sector to State Gross Value Added (GVA) at current prices is 0.41% and 2.75% in the GVA of Agriculture and allied sector for the year 2015-16. The core objective of forests is to enhance green cover by integrating it with livelihood of living beings.

The Geographical area of the Telangana State is 1,12,077 sq. kms., and occupied 12<sup>th</sup> position in India. At the same time, the State is having a forest area of 27,292 sq. kms., which accounts for 24.35% of total geographical area, including social forestry. Out of the total Forest Area, Reserved Forest area is 19,629.54 sq. kms., Protected Forest forms 6,988.95 sq. kms., and the rest of the area is unclassified. The total revenue realized during 2015-16 is Rs. 10,820.79 lakhs on sale of forest produce in the State.

The district wise geographical area and the corresponding forest area for the State of Telangana is depicted in the graph below.

## Social Forestry

The Government has launched a massive peoples movement involving general public and farmers in a big way to increase tree cover outside reserve forests to improve and protect the environment and also to provide gainful employment. The main components of social forestry are distribution of seedlings, raising

of plantations in community lands, institutions and road side avenues.

The main species raised for free distribution and planting in public lands are Raavi, Marri, Neem, Kanuga, Badam, Neredu, Rela and others.

## National Parks and Sanctuaries

There are three National Parks in the state viz., Kasu Brahmananda Reddy National Park in Hyderabad district, Mahavir Harina Vanasthali National Park and Mrugavani National Park in Rangareddy district.

Wild Life Sanctuaries in the state include Eturnagaram Wild Life Sanctuary in Jayashankar district, Pakhal Wild Life Sanctuary in Mahabubabad district, Kawal Wild Life Sanctuary (Tiger Reserve) is

spread over in Mancherla and Nirmal districts, Pranahita and Siwaram Wild Life Sanctuaries in Mancherla district, Kinnerasani Wild Life Sanctuary in Bhadrachalam district, Manjira Wild Life Sanctuary in Sangareddy district, Amarabad Tiger Reserve is spread over in Nalgonda and Nagarkurnool districts, and Pocharam Wild Life Sanctuary in Medak district.

## 8. Industries

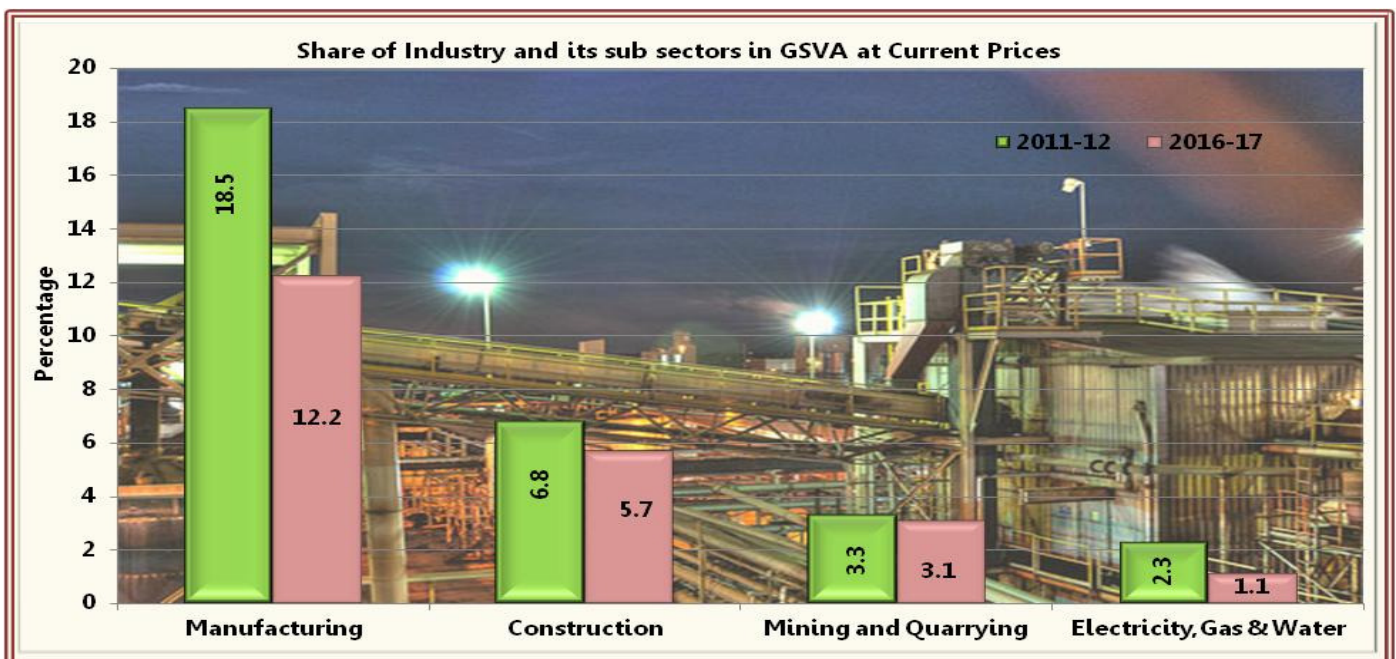

The State of Telangana is the twelfth largest State in India both in terms of land and population with abundant Road, Rail and Air Transport connectivity and providing wide range of opportunities for the entrepreneurs willing to establish industries in the State. Availability of Land, water, manpower at affordable price with congenial atmosphere are attracting features for the entrepreneurs to establish their new industries in the State.

The State is now home for several major manufacturing industries in bulk drugs, pharmaceuticals, agro-processing, cement and mineral-based industries, high precision engineering, textiles, leather, apparels, automobiles and auto components industry, spices, horticulture, poultry farming, bio-

technology, defense equipment etc.

The Industry Sector is contributing around 20% to the Gross State Domestic Product with a direction of positive growth in the State. The long-term average annual growth of industries sector comprising Mining & Quarrying, Manufacturing, Electricity, Gas and Water supply and Construction, during the period between 2012-13 and 2016-17 is averaged at 5.24% as against GSDP growth of 12.72% in the State. The contribution of industry sector is showing similar trend in respect of share and growth as that of all India.

The sub-sector wise share of Industry sector for the years 2011-12 to 2016-17 is depicted in the chart given below.

## Annual Survey of Industries

The Annual Survey of Industries is the principal source of organized manufacturing statistics in India and in the state as well. It provides statistical information to assess and evaluate, objectively and realistically, the changes in the growth, composition and structure of organized manufacturing sector comprising activities related to manufacturing processes, repair services, gas and water supply and cold storage. This Annual survey of industries is conducted annually under the statutory provisions of the Collection of Statistics Act, 2008 and Rules, 2011.

The Annual Survey of Industries covers all factories registered under sections 2m(i) and 2m(ii) of the Factory Act, 1948. This survey also covers the Beedi and Cigar Manufacturing establishments registered under the Beedi and Cigar Workers (Condition of Employment) Act, 1966 employing 10 or more workers using power and 20 or more workers without using power.

The data pertaining to (i) factories registered under sections 2m (i) and 2m (ii) of the Factory Act, 1948, (ii) distribution and working of factories by districts industry wise, and (iii) results of Annual Survey of Industries, 2013-14 are presented in this chapter.

Apart from this, an attempt is also made to showcase the functioning of Primary Weavers Cooperative Societies, in the State.

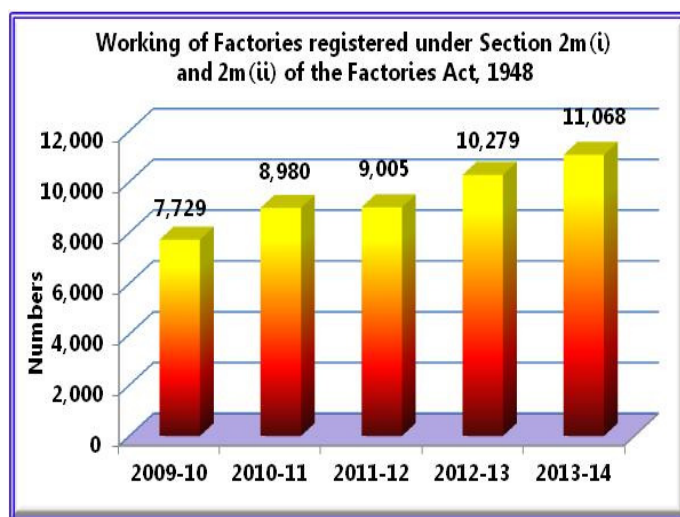

Table	Content
8.1	Working of Factories Registered under Sections 2m (i) and 2m (ii) of the Factories Act, 1948 from 2009-10 to 2013-14
8.2	Industry Code wise Number of Factories from 2010-11 to 2013-14
8.3	Distribution of Factories and their related important Parameters by Districts, 2013-14
8.4	Factories Registered and Working under Sections 2m (i) and 2m (ii) from 2012-13 to 2015-16
8.5	Factories Registered under Sections 2m(i), 2m(ii) and 85(i) of the Factories Act by Districts, 2015-16
8.6	Industry wise Factories Working under the Factories Act and Persons Employed, 2015-16
8.7	Working of Primary Weavers Co-operative Societies, 2016

## 9. Mining

In general, mining is defined as extraction of valuable metals and minerals or other geological materials from the earth or from an ore body, lode, vein, seam, reef etc. Ores recovered by mining include metals, coal, oil, shale gemstones, limestone, dimension stone, rock salt potash, clay and gravel.

Mining is required to obtain any material that cannot be grown through agricultural processes, or created artificially in a laboratory or factory. Mining in a wider sense including extraction of any non-renewable resource such as petroleum, natural gas, or even water.

Mining operations usually create a negative environmental impact, both during the mining activity and after the mine has closed. Hence, most of the world's nations have passed regulations to decrease the impact. In this direction, the Government has evolved a comprehensive mineral policy, which aims at optimum exploitation, scientific development, value addition, marketing and exports under private and joint sectors. The Government has kept open the mineral sector for private investment and likes to withdraw from areas in which their presence is no longer required and disinvest from these public sectors.

Telangana region has rich natural resources. About 20 percent of the country's coal deposits are found here. The Singareni Collieries Company Limited excavates coal from these mines for industrial needs and also to cater to thermal power stations. Telangana is also rich in limestone deposits that cater to cement factories. The State has other mineral resources like bauxite and mica too.

Minerals and mineral industries have significant macro links with the economy of a country. Mining activity which generates employment opportunities is obviously an important source of tax revenue and contributes to State income thereby leading to economic growth.

Mining is one of the core sectors that drives growth in an economy. Not only does it contribute to GSDP, it also acts as a catalyst for the growth of other core industries like power, steel, cement, etc., which, in turn, are critical for the overall development of the economy.

### Production of principal minerals

The value of major and minor minerals produced and production of certain principal minerals is given in the following graphs.

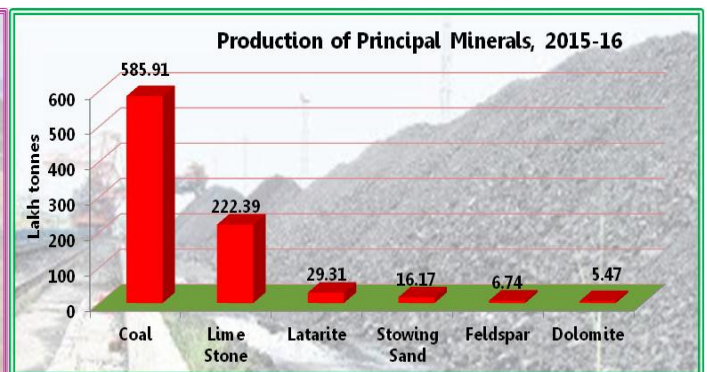

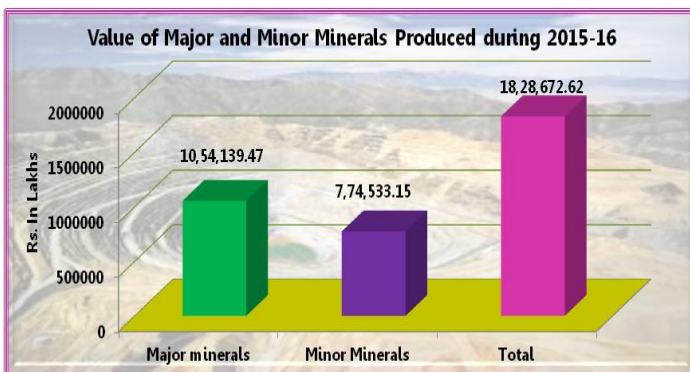

Table	Content
9.1	Production of Principal Minerals, 2015-16
9.2	Production of Principal Minerals by Districts, 2015-16
9.3	Production of Minor Minerals by Districts, 2015-16
9.4	Production and Consumption of Indigenous Coal from 2013-14 to 2016-17

**TABLE - 9.1  
PRODUCTION OF PRINCIPAL MINERALS, 2015-16**

## 10. Energy

Electric Energy is considered to be the most versatile and important source of power consumed by industry, commercial buildings, institutions and residents. In one sentence energy is required for all facets of our life and also a basic human need and is a critical infrastructure for socio economic development of a state or nation. It is supplied by generating stations. Traditional generating stations manufacture power in electrical generators. This is accomplished by turning those generators with turbines that are

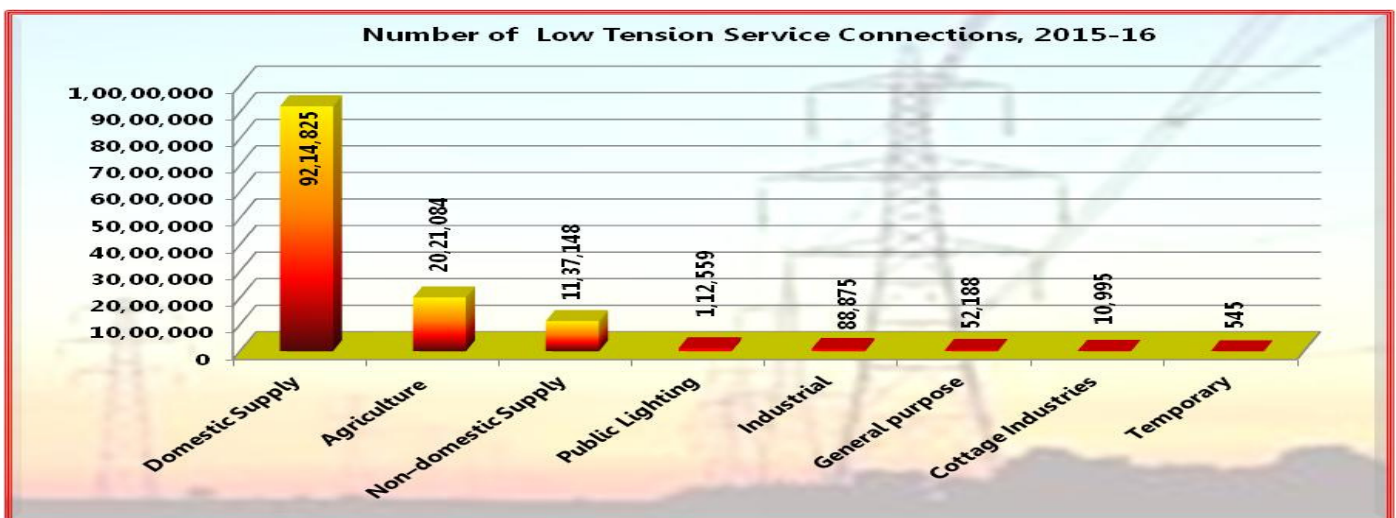

in turned by a number of sources. In the case of fossil-fuel burning stations, energy sources such as coal, oil, natural gas (actually, any source of fuel that is carbon based) are used to boil water. That water is boiled into high pressure steam. This high pressure steam is what turns the turbines that turn the generator that in turn manufactures Electric Energy. The State has a installed capacity of 6,245.26 MW, including all sources such as Hydel and Solar.

### Service Connections

This energy so generated is being supplied to various industrial, Commercial, Agricultural, Domestic consumers through distribution companies by issuing service connections, in the State.

There are 126.48 lakh service connections

released with a connected load of 27,328 MW in the State up to the year 2015-16, including both low tension and high tension. Number of service connections and Category wise power consumption during 2015-16 is given in the following chart.

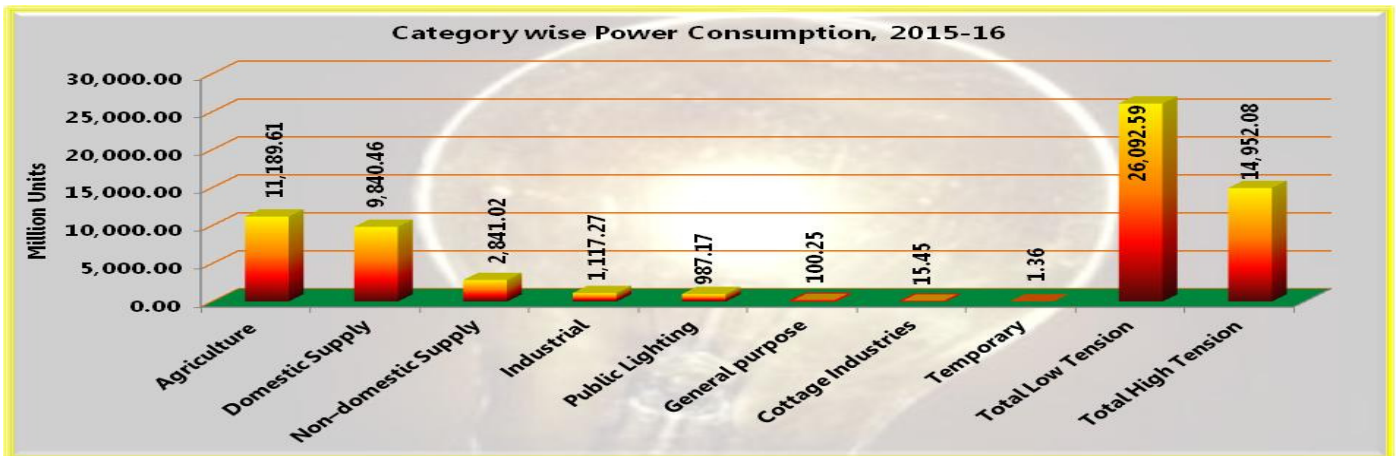

Table	Content
10.1	Installed Capacity and Generation of Electricity, 2014-15 and 2015-16
10.2	Growth of Transmission and Distribution Lines
10.3	Category wise Number of Services and Connected Load
10.4	Category wise Sale of Electricity by SPDCL and NPDCL, 2015-16
10.5	Category wise Power Consumption from 2013-14 to 2015-16
10.6	Category wise Number of Services and Connected Load by Districts, 2015-16
10.7	Functioning of Electricity Sub-Stations by Districts, 2015-16
10.8	Installation of biogas plants and subsidy released in 2014-15 and 2015-16

## 11. Transport and Communications

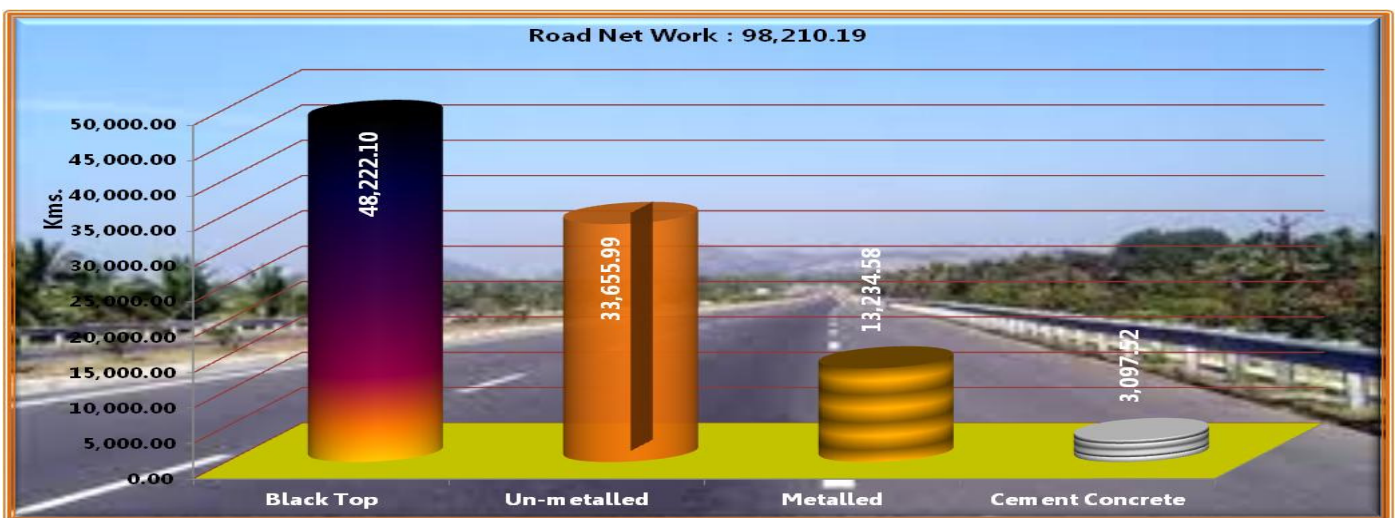

### Roads

Availability of the transport road network plays an important role in the economic development and therefore, the kilometer age of paved roads existing in a State or Country is often used as an index to assess the extent of its development. The proper development of the transport road network not only reduces the cost of transportation, both in terms of money and time, but also helps in the integration of various parts of the State or Country. The transport road network contributes to the development of the State by bringing in direct benefits in the development of certain sectors, such as agriculture, industry, minerals and commerce etc.

As such, a systematic development of Roads is one of the important pre-requisites for development of certain and acceleration of economic growth. The importance of Road network is much more in a State like Telangana whose economy is mainly accrued from service Sector and has chosen manufacturing

as its future, where the Rail connectivity is poor and where the rural areas are hardly covered by the Rail network.

Among the different modes of domestic transport systems, road transport carries more than 80% of the goods and passenger traffic. The network of roads, particularly from rural to urban facilitates speedy movement of goods and services and ensures higher growth trends, social integrity and wellbeing of the society. The productivity and efficiency of Road transport is directly linked with the availability and quality of Road network. Total Network constitute 98,210.19 Kms., of road length in which Black Top is 48,222.10 Kms., Un-Metalled roads are 33,655.99 Kms., Metalled roads are 13,234.58 Kms and Cement Concrete are 3,097.52 Kms., pertaining to National Highways, Panchayat Raj and Roads & Buildings departments, respectively. Pictorial representation of the road network is shown hereunder.

**Railways:** Indian Railways have a history and rich heritage spanning over 150 years. Indian Railways is a State owned public utility of Government of India under the Ministry of Railways. As a national common carrier transporting passenger and goods over vast network of 65,808 kms., route lengths and it has been playing a key role in country's as well as States' social and economic development. It is comparatively cheap

**Rail Network:** As on 31.03.2016 the Indian railways are rendering its services by establishing 232 railway

**Transport:** Road Transport plays a prominent role in the economic development of the State. The Transport Department plays a key role in issuing driving licenses, registration of motor vehicles, issue of transport permits, levy and collection of motor vehicle tax, enforcement of vehicle violations and acts as nodal agency for road safety. The State has registered more than 78.38 lakh vehicles up to the year 2014-15, of which about 8.74 lakh are transport vehicles and rest about 69.64 lakh are non-transport vehicles. During the year 2015-16, total number of new vehicles registered, including all categories are 8,39,043 of

and affordable means of transportation for lakhs of passengers in the State and Country.

As a carrier of bulk freight, namely ores and minerals, iron and steel, Cement, mineral oils, food grains, fertilizers etc., and the importance of Indian Railways for development of Agriculture, Industry and for the benefit of common public is well recognized.

stations with a route kilometerage of 1,736.665 in the State.

which 98,571 are transport vehicle and 7,40,472 are non- transport values.

**Communications:** Communication is an essential process of human society. Communications may be used by persons and organizations to communicate their ideas, feelings, notices, news, problems and solution etc., with others in an ordinary course of personal life or organizational operations. Various communication services such as Postal, Telecommunications provided by the Government are presented in this chapter.

## 12. Public Finance

Public finance is concerned with how a government raises money, how that money is spent and the effects of these activities on the economy and society. It is an act how Governments at all levels, State and Local, provide the public with desired services and how they secure the financial resources to pay for these services.

Public finance deals with the finances of

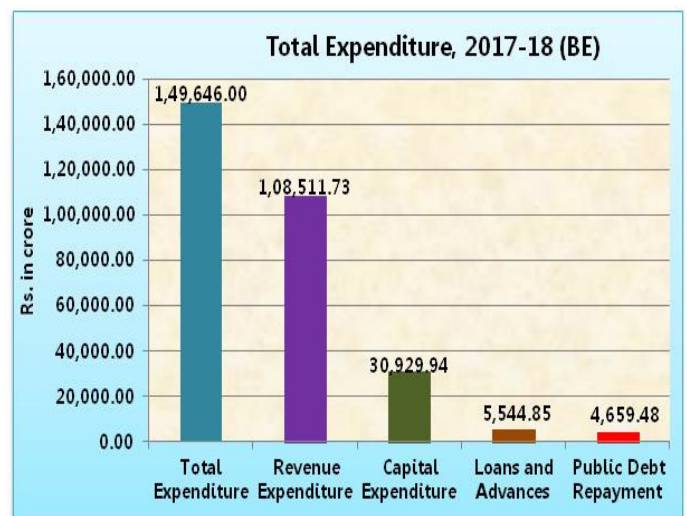

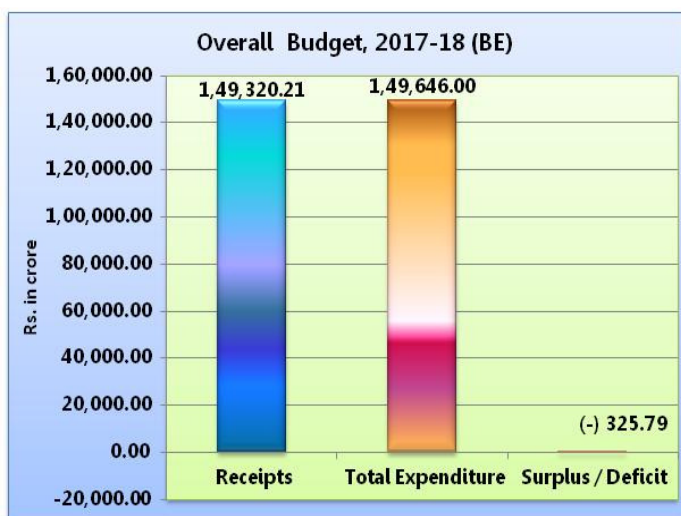

### Budget Outlay

It is obvious that the budget of Government has considerable impact on the economy of the State as a whole. Due to its sheer size, as reflected in high magnitude of receipts and expenditure of Government and various policy prescriptions articulated through the Budget, it can be easily considered to be the prime mover of the growth trajectory of the economy. The State, since it is formed very recently, is ambitious to have development in all respects in the light of

public bodies, State or Local, for the performance of this functions. The performance of these functions leads to expenditure. The expenditure is incurred from funds raised through taxes, fees, fine, sale of goods & services, grants, loans etc. The different sources constitute the revenue of the public authorities. Public finance analyses the manner in which revenue is raised and how the expenditure is incurred upon different items etc.

aspirations of its citizens across the State. The Budget for 2017-18 has been presented against the backdrop of the GSDP growth rate of the economy and the aspirations of the citizens on one hand and the challenges in front of the State Government to withstand to accelerate the development and welfare programmes on the other hand.

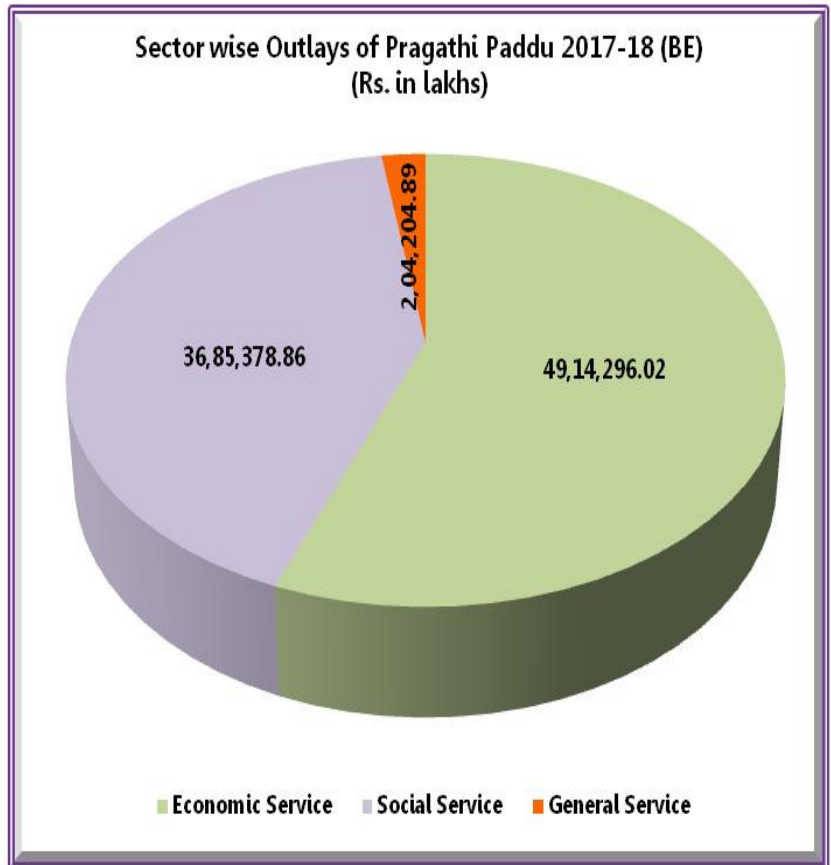

Overall budget provisions for the year 2017-18 are depicted in the following graphs.

### Pragathi Paddu Outlay

An attempt is also made to present in brief the Pragathi Paddu Outlay of the Budget Estimates for the year 2017-18. According to the Budget Estimates for the year 2017-18, total provision under Pragathi Paddu Outlay is Rs.88,03,879.77 lakhs, of which Rs.49,14,296.02 lakhs (55.82%) is provided for Economic Services, Rs. 36,85,378.86 lakhs for Social Services (41.86%) and rest of Rs. 2,04,204.89 lakhs (2.32%) for General Services.

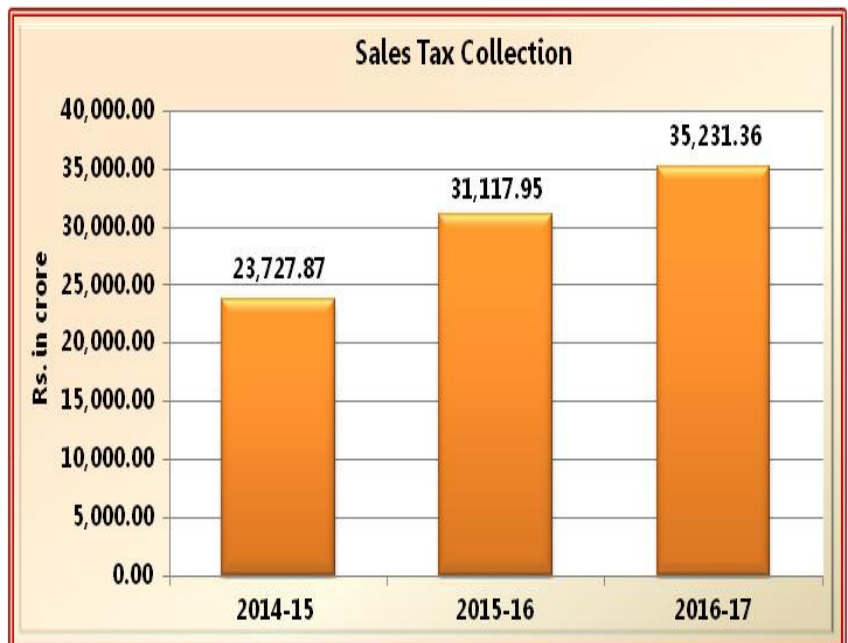

The Services wise outlay of Pragathi Paddu for the year 2017-18 (BE) is illustrated in the graph.

### Collection of Sales Tax

The progress of tax collection by the Commercial Tax Department during the period from 2014-15 to 2016-17 is depicted below.

The sales tax realized in the State, including from Petrol, Liquor, Cigarettes, PSUs etc., during the years 2014-15, 2015-16 and 2016-17 are Rs.23,727.87 crore, Rs.31,117.95 crore and Rs.35,231.36 crore, respectively. The pictorial representation is shown in the graph presented here.

Attempt has also been made to cover the revenue from Registration & Stamps and

Prohibition and Excise Departments, in this chapter.

## 13. State Economy

### Gross State Domestic Product

State Income or Gross State Domestic Product (GSDP) is the most important indicator for measuring the economic development. It is a measure in monetary terms the sum total of volume of all goods and services produced during a given period of time, usually one year, accounted without duplication, within the geographical boundaries of the state.

These estimates of economy, over a period of time, reveal the extent and direction of changes in the level of economic development and also

### Adoption of new Base Year (2011-12)

The Government of Telangana has revised its GSDP estimates by adopting the new base year 2011-12, on par with the Central Statistics Office, Ministry of Statistics and Programme Implementation (MOSPI). The reason for changing the base year periodically is to take into account the structural changes that have been taking place in the economy over the years, adoption of latest methodologies, new data sets and latest census and survey results and to depict a true picture of the economy through macro aggregates like Gross State Domestic Product (GSDP), Capital Formation etc. The estimates of these macro-economic aggregates are prepared at the prices of selected year known as base year for examining the performance of the economy

the performance made by various sectors towards the overall economy. The sectoral composition of State Domestic Product gives an idea of the relative position of different sectors in the economy over a period of time. It not only indicates the real structural changes taking place in the economy but also facilitates formulation of policies aimed at overall economic development. When studied in relation to the total population of the State, they indicate the level of per capita net output of goods and services available or the relative standard of living of the people in the State. These are referred to as estimates of Per Capita Income (PCI).

in real terms. The estimates at the prevailing prices of the current year are termed as "at current prices", while those prepared at base year prices are termed as "at constant prices". The comparison of the estimates at constant prices, which means "in real terms", over the years gives the measure of real growth.

As per new series, industry-wise estimates will be presented as Gross Value Added (GVA) at basic prices, while "GSDP at market prices" will henceforth be referred to as GSDP. Estimates of GVA at factor cost (earlier called GSDP at factor cost) can be compiled by using the estimates of GVA at basic prices duly adjusting the production taxes less subsidies.

Here it is important to note that the basic price is a price that includes the Production taxes minus production subsidies, whereas market price is a price, which includes the Product taxes minus

### Distinct features of the new series

One of the distinct features of the new series is compilation of GSDP estimates at market prices instead of factor cost and GVA at basic prices.

### Gross State Domestic Product (GSDP) during 2016-17

The Government of Telangana has released the GSDP estimates for the year 2016-17 (Advance Estimates). According to this, the anticipated GSDP at constant (2011-12) prices for the year 2016-17 (AE) is Rs. 5,11,286 crore as against Rs. 4,64,389 crore for 2015-16 (FRE), registering growth of 10.1 percent.

product subsidies. In nut shell, basic price means total expenditure incurred for production of goods or services whereas market price is the price available for consumer.

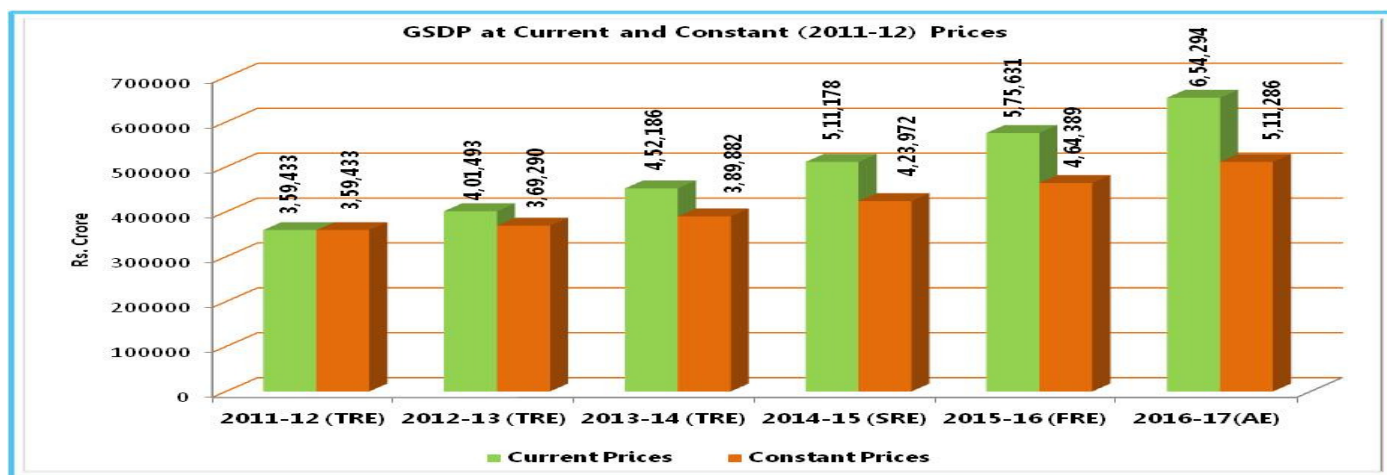

Another feature is usage of the results of latest censuses, surveys, studies, Ministry of Corporate Affairs data etc.

The GSDP at current prices for the year 2016-17 (AE) is anticipated at Rs. 6,54,294 crore as against Rs. 5,75,631 crore for 2015-16 (FRE), exhibiting a growth rate of 13.7 percent. The GSDP at current and constant prices is illustrated in the chart given below.

### GSDP at Current and Constant (2011-12) Prices

Year	Current Prices		Constant (2011-12) Prices	
	GSDP (Rs. crore)	Growth (%)	GSDP (Rs. crore)	Growth (%)
2011-12 (TRE)	3,59,433	-	3,59,433	-
2012-13 (TRE)	4,01,493	11.7	3,69,290	2.7
2013-14 (TRE)	4,52,186	12.6	3,89,882	5.6
2014-15 (SRE)	5,11,178	13.0	4,23,972	8.7
2015-16 (FRE)	5,75,631	12.6	4,64,389	9.5
2016-17 (AE)	6,54,294	13.7	5,11,286	10.1

Note: FRE: First Revised Estimates; SRE: Second Revised Estimates; TRE: Third Revised Estimates; and AE: Advance Estimates.

### Sectoral Growth Trends

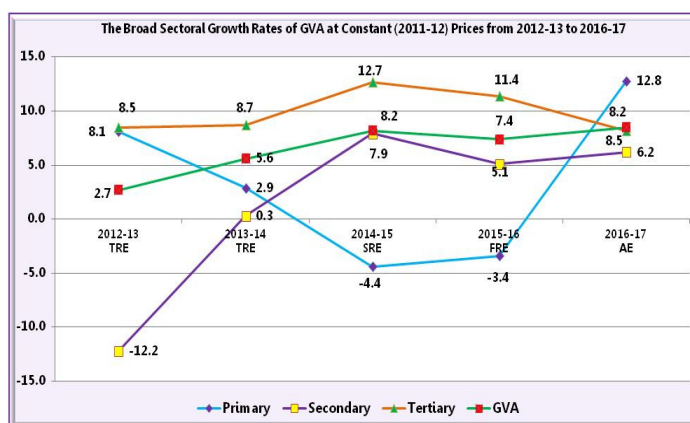

The growth rate of GSDP denotes the performance of economy of the State and changes in the magnitude and composition of the State economy, over time. The structure of the economy is classified into three broad sectors, viz., Primary, Secondary and Tertiary. The Primary Sector consists sub-sectors like Crops, Livestock, Forestry & Logging, Fisheries, and Mining & Quarrying.

The secondary sector consists of Manufacturing, Electricity, gas, water supply & other utility Services, and Construction sub-sectors.

The Tertiary sector consists sub-sectors viz., Trade & Repair Services; Hotels & Restaurants; Transport, including Railways, Road, Water, Air & Services incidental to Transport; Storages; Communications & Services relating to Broadcasting; Financial

services; Real Estate, Ownership of Dwellings & Professional Services; Public Administration; and Other Services.

The growth rates of each of the sectors will be measured in terms of GVA at basic prices. The broad sectoral growth rates of the State are depicted in the following chart.

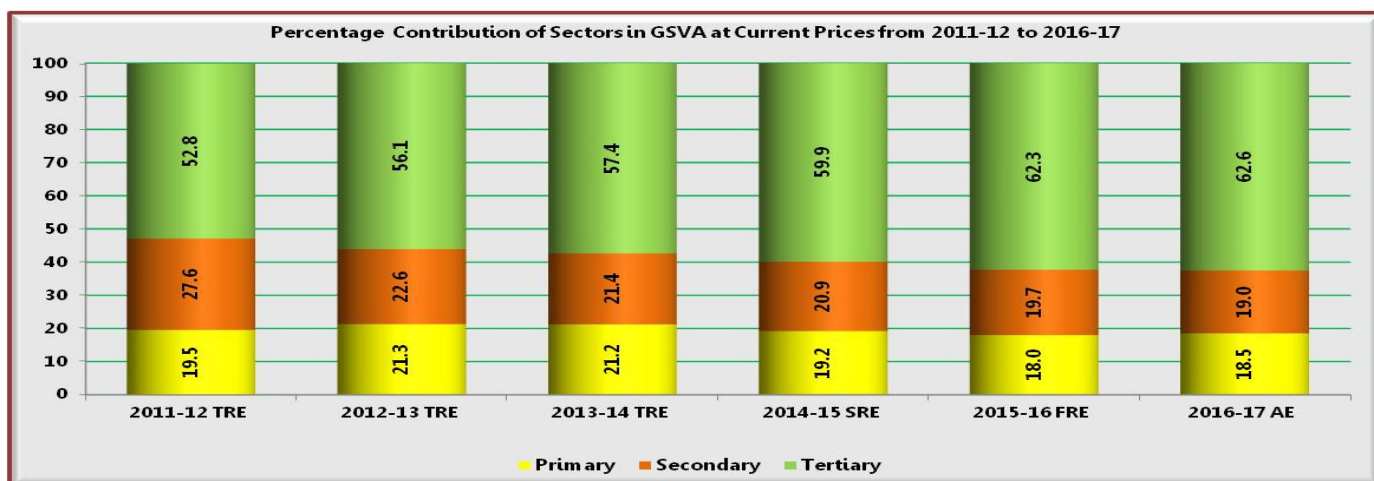

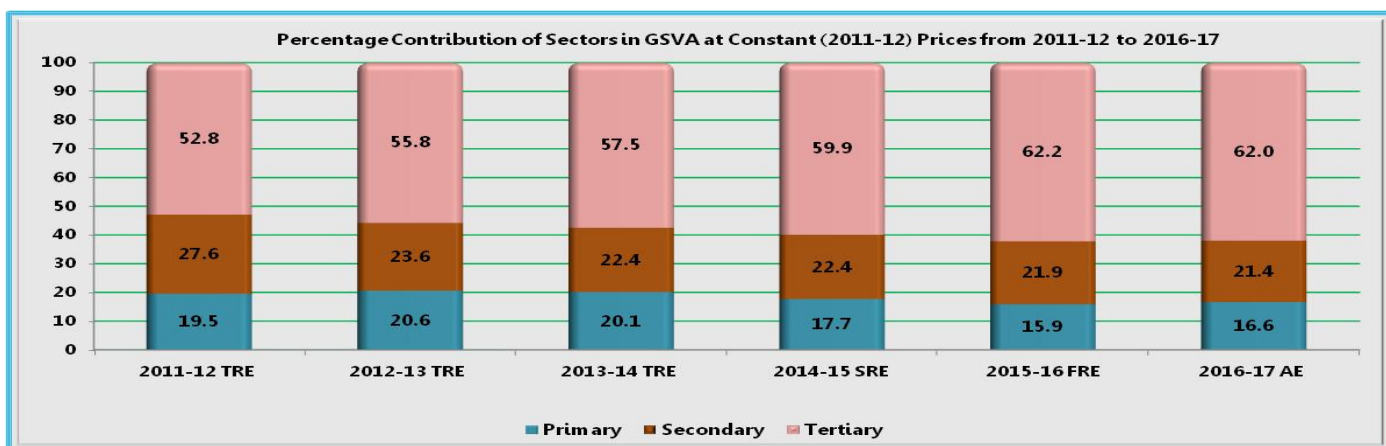

### Structural Composition of the Economy

The composition of GSDP is changing significantly over the years. The State has witnessed a decelerating share of primary sector in overall GSDP over the years. The crops sector experienced a decelerating trend in 2014-15, 2015-16 and 2016-17, still it continues to remain a priority sector for the State because of its high potential of employment generation, food security, inclusiveness and

sustainability of growth, as 55.7 percent of the workforce draws its subsistence fully or partially from agriculture, in the State.

The pictorial representation in terms of percentage contribution of three broad sectors in the total GSVA at current and constant (2011-12) prices is presented in the following charts.

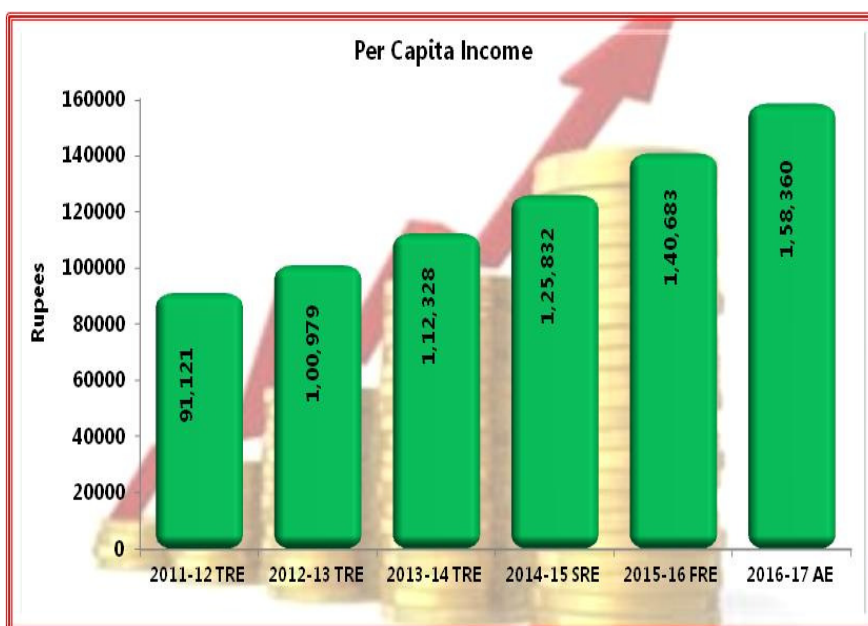

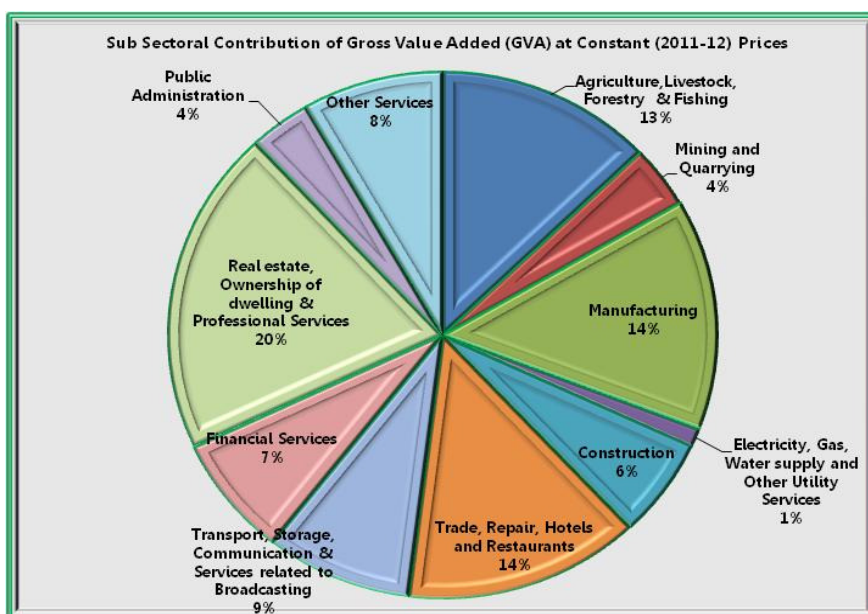

The sub-sectoral contribution of Gross Value Added (GVA) for the year 2016-17 (AE) at Constant (2011-12) Prices is depicted in the graphs shown here.

### Per Capita Income

**Per capita income** is the mean income from all the sources computed for every man, woman, and child in a geographic area, usually for a year. It is arrived at by dividing the total income originated in a geographical area by the total population (mid-year) in that area. The Per Capita Income gives a better idea about the level of development in a State, which is a proxy indicator for the standard of living of the people.

The Per Capita Income of the State at current prices is depicted in the chart.

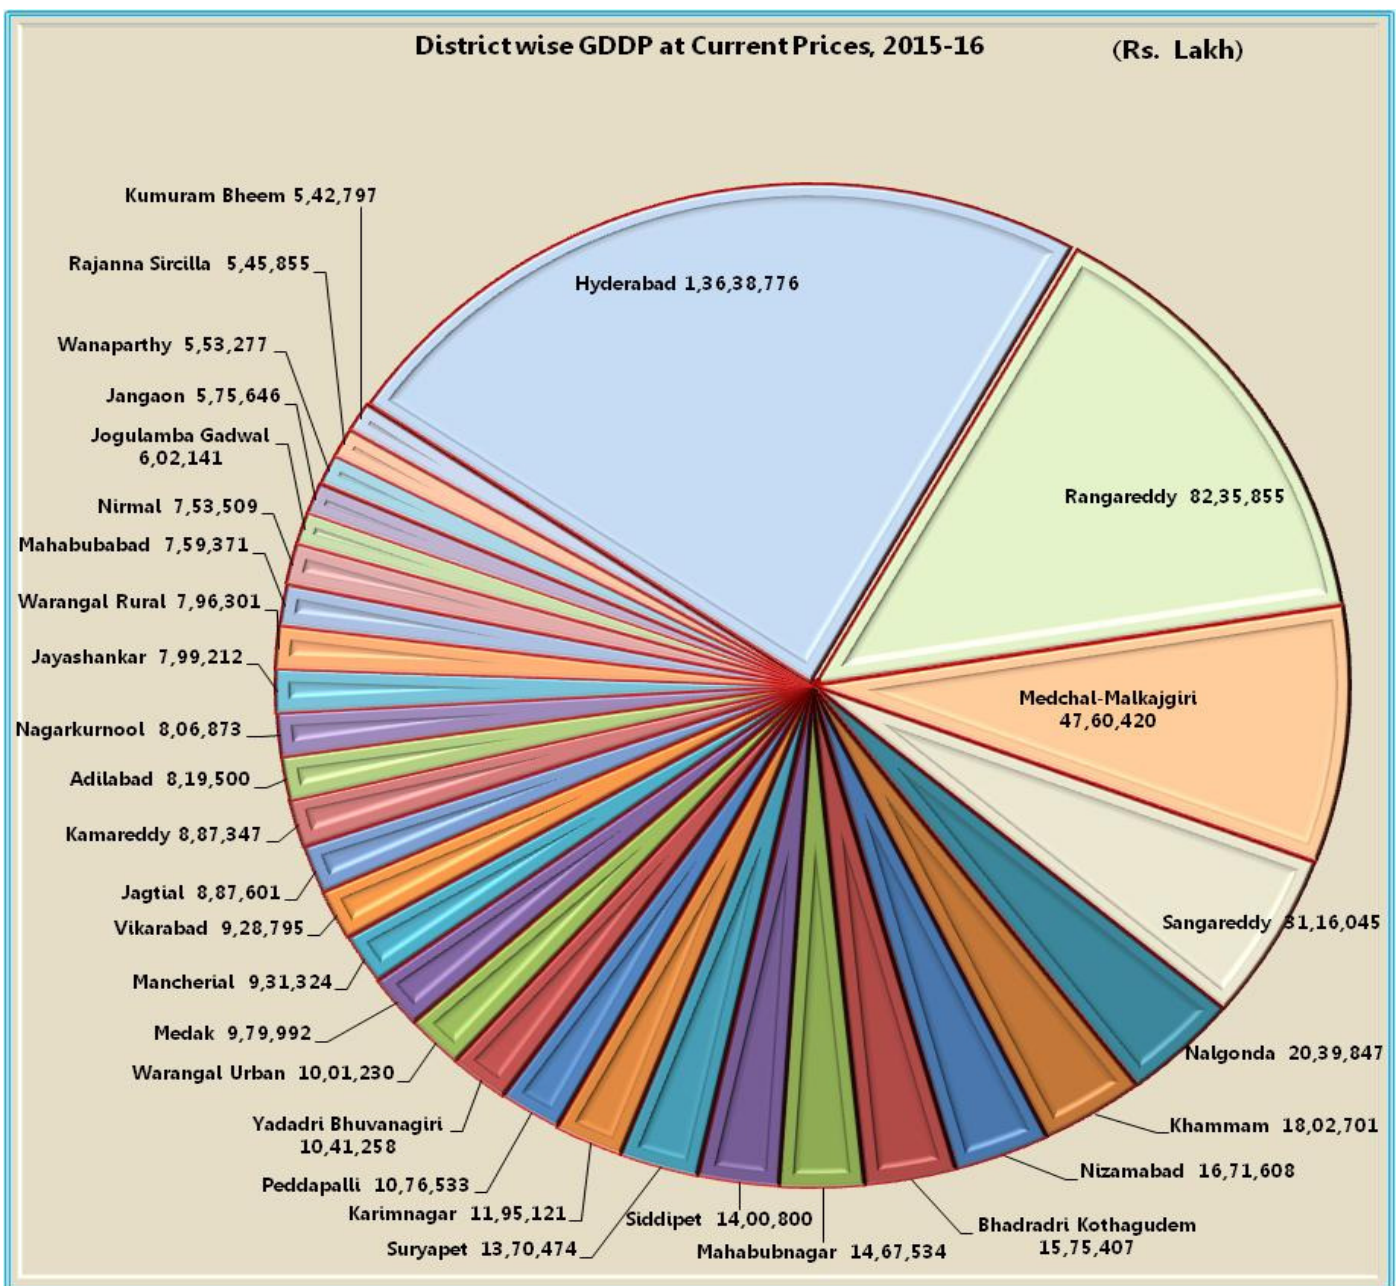

### Gross District Domestic Product

The estimates of Gross District Domestic Product (GDDP) reveal the size of the district economy and also to assess how the district is progressing over a period of time. As per the GDDP estimates for the year 2015-16 (FRE) at current prices, Hyderabad occupies the highest position in the State, followed by Rangareddy and Medchal-Malkajiri districts.

It is further noted that, the top four districts (viz., Hyderabad, Rangareddy, Medchal-Malkajiri and Sangareddy) contribute for about 52 per cent of State GDP. On the other hand, the rest of the districts together account for about 48 per cent of the State GDP which indicates concentration of economic activities in and around the State capital city.

## 14. Joint Stock Companies

A company is an incorporated association of persons formed usually for the pursuit of some commercial purpose. Any establishment formed and registered under the Section 3(1) of Indian Companies Act, 2013 is known as company or a company which is formed and registered under any of the previous company laws is also termed as company.

A Joint Stock Company is a voluntary association of individuals for profit, having its capital divided into transferable shares, the ownership of which is the condition of membership. The individuals or entities in possession of shares are called shareholders.

A Joint Stock Company is a type of

corporation or partnership involving two or more individuals that own shares of stock which enables the companies to perform their activities according to the predetermined plans, without intervention of the company.

As on 20-11-2016, there are 81 companies in public, 7,525 in private and 334 are one person companies (OPC), totaling to 7,940 companies working in the State with a paid-up capital of Rs. 710 crore, Rs. 3,539.60 crore and Rs. 13 crore, respectively, totaling to Rs.4,262.60 crore. Apart from discharging their legitimate functions, they are providing employment to thousands of unemployed and contributing their share in development of the economy of the State.

## 15. Banking

A Bank is a financial institution which accepts money from the public for the purpose of lending or investment repayable on demand or otherwise withdrawal by cheques, drafts or order or otherwise. They are not only the store houses of wealth but also the reservoirs of resources necessary for economic development.

“An institution, such as the banking system, which touches and should touch the lives of millions, has necessarily to be inspired by a larger social purpose and has to sub serve national priorities and objectives.”

There are 5,003 Scheduled Commercial Bank Branches, including nationalized banks, foreign banks, regional rural banks and private sector banks

are functioning in the State as on 31-03-2017. On an average one bank branch is available for every Seven thousand population in the State. Their credit-deposit ratio is 99.6 percent.

An attempt is made to showcase the functioning of District Central Co-operative Banks. There are 269 branches functioning in the State with a share capital of Rs. 47,878.49 Lakh. They have mobilized deposits worth Rs.3,08,134.20 Lakhs and extended advances worth Rs.5,10,053.98 Lakhs for various purposes. The long term and short term loans disbursed for various purposes from the year 2013-14 to 2015-16 is also shown. All scheduled Commercial Bank branches functioning as on 31-12-2016 are illustrated in the following table.

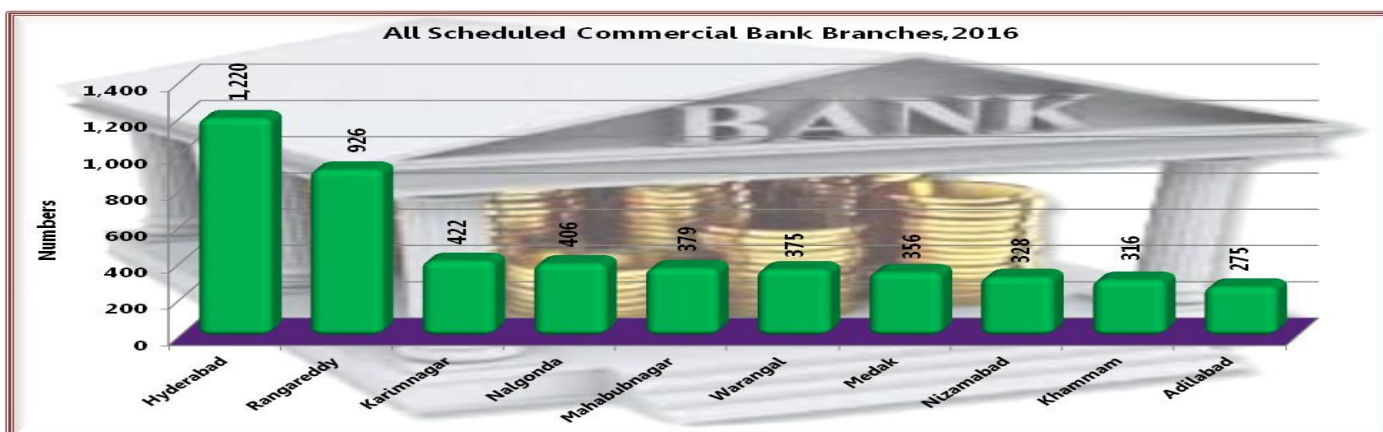

Table	Content

## 16. Prices

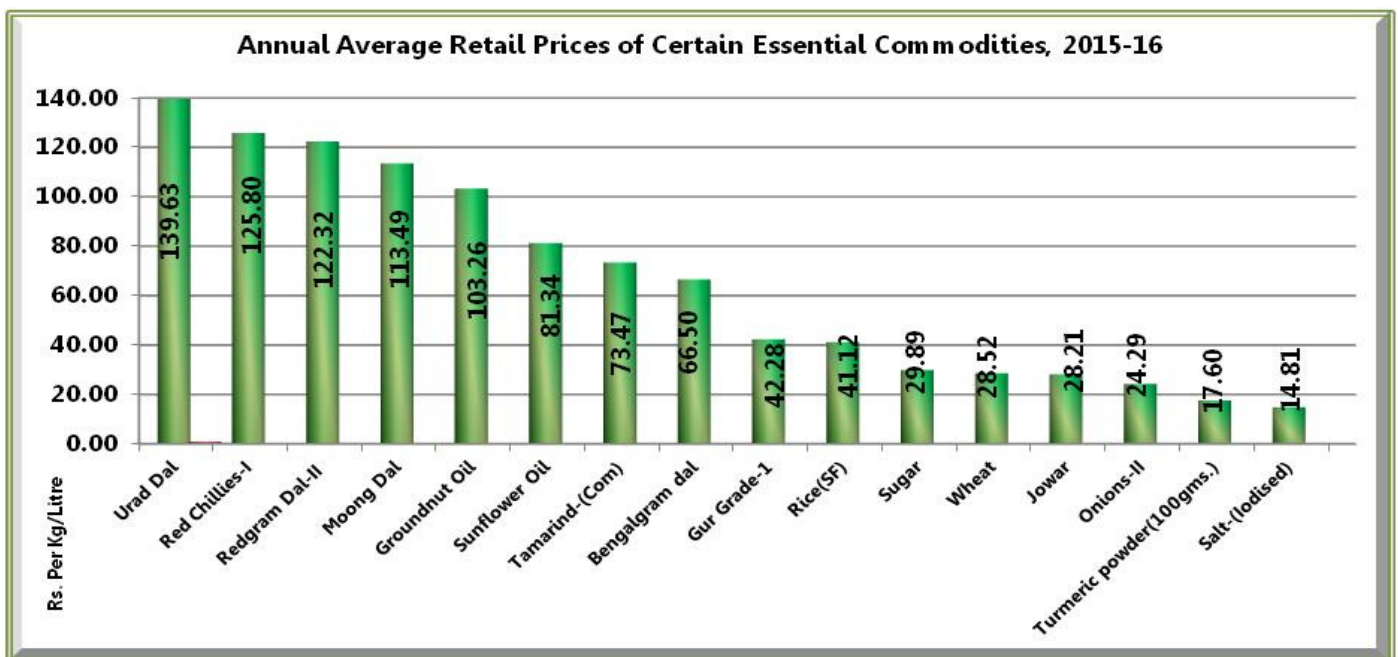

Generally price is the quantity of payment or compensation given by one party to another in return for goods or services, usually in units of some form of currency. Prices affect all sections of society as such price statistics are regarded as the most important economic data reflecting changes in the economy of a State or country. The prices influence both the quantum of production and the

pattern of consumption. However, changes in the prices of different commodities affect different sections of society differently. As such, it becomes necessary to compile different types of Price Statistics as each has its own importance and impact in the economy. There are different prices which have their impact on different sections of people and economy as a whole.

### Retail Prices

Retail Price is the price at which the ultimate consumer pays for relatively small transactions. These prices are collected on daily and weekly basis from all Revenue Divisional headquarters of the State with an objective to supply these retail prices regularly to the departments concerned

that have to initiate suitable measures for achieving the desired stability in prices. Annual average retails prices of certain essential commodities in the State during the year 2015-16 are given in the following chart.

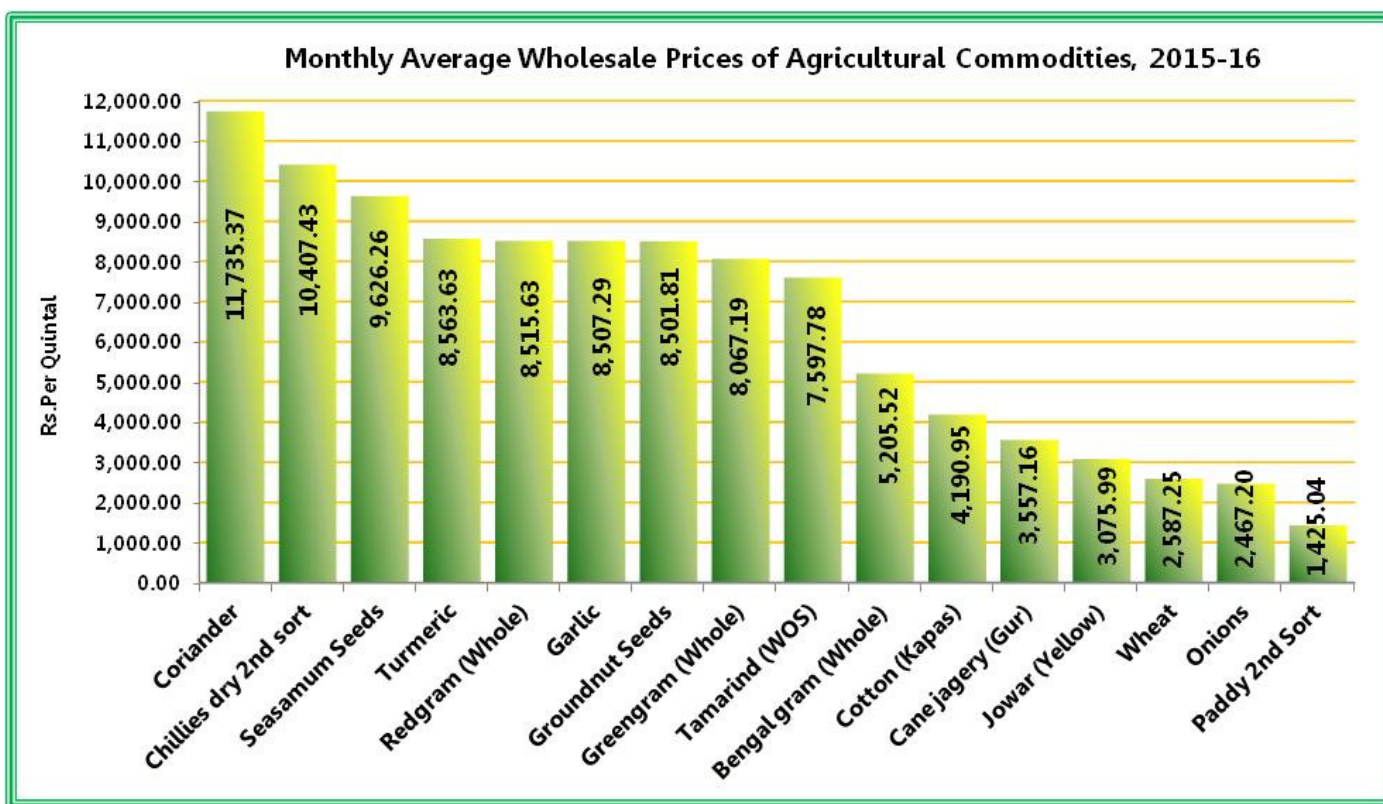

### Wholesale Prices of Agricultural Commodities

The wholesale price is the cost of a goods sold by a wholesaler. The wholesaler will usually charge a price somewhat higher than he or she paid to the producer, and the retailer who purchases the goods from the wholesaler will increase the price again when they sell the good

in their store. Goods available on wholesale have a lower price than goods available at retail.

The monthly average wholesale prices of certain selected agricultural commodities during the year 2015-16 are shown in the chart given below.

### Consumer Price Index Numbers for Industrial Workers (CPI-IW)

Consumer Price Index numbers is a comprehensive measure used for estimation of price changes in a basket of goods and services representative of consumption expenditure in an economy, over a period of time. It is one of the

most important statistics for an economy and is generally based on the weighted average of the prices of commodities. It gives an idea of the cost of living of people for which these index numbers are compiled.

Table	Content
16.1	Annual Average Retail Prices of certain Essential Commodities, 2015-16
16.2	Monthly Average Wholesale Prices of 40 Agricultural Commodities, 2015-16
16.3	Farm Harvest Prices of selected Commodities from 2009-10 to 2015-16
16.4	Annual Average Prices of selected Building Materials, 2015-16
16.5	Annual Average Wages of Building Construction Workers, 2015-16
16.6	Consumer Price Index Numbers for Industrial Workers, 2015-16

## 17. Labour and Employment

Labour includes both physical and mental work undertaken for some monetary reward. In this way, workers working in factories, services of doctors, advocates, ministers, officers, teachers etc., are all included in labour. According to Martin Luther King Jr. " All labour that uplifts humanity has dignity and importance and should be undertaken with painstaking excellence." Any physical or mental work which is not undertaken for getting income, but simply to attain pleasure or happiness, is not labour.

Employment can be expressed in number of people working or in total working hours. A mixed measure is the number of hours divided by standard working hours to give a full-time equivalence to jobs.

Wages are defined to include all remuneration in monetary terms and also payable more or less regularly in each pay period to workers as compensation for work done during the accounting year.

Many industrial units or companies established in the State and providing labour and employment to different sections of people. They come from different sections, religions, social groups etc., and their way of behaving, doing things will obviously be not uniform.

Hence, there is every possibility to arise

disputes among the employees it self, some times between the management and employees cause industrial disputes. The State has witnessed numerous instances of industrial disputes in many of the industrial units, over the years.

In this direction, the Government has enacted many legislations aimed at social and economic security of the labour to minimize the industrial disputes and also to ensure industrial peace. The information such as occurrence of industrial disputes, man-days lost, industrial accidents and compensation paid are being collected and published periodically to facilitate the government and policy makers to evolve corrective mechanism as and when such disputes take place.

This chapter presents data in respect of category wise employment in Coal Mines, Registration and Placements through Employment Exchanges and also particulars of Industrial disputes and man-days lost, employment in shops and commercial establishments etc., for better understanding.

There are, on an average 58,491 number of daily workers deployed in coal mines of Singareni Collieries Company Limited, during 2016. The Colliery wise average number of workers employed are given in following graph and subsequent table.

**Average Number Of Daily Workers Employed in Singareni Collieries**

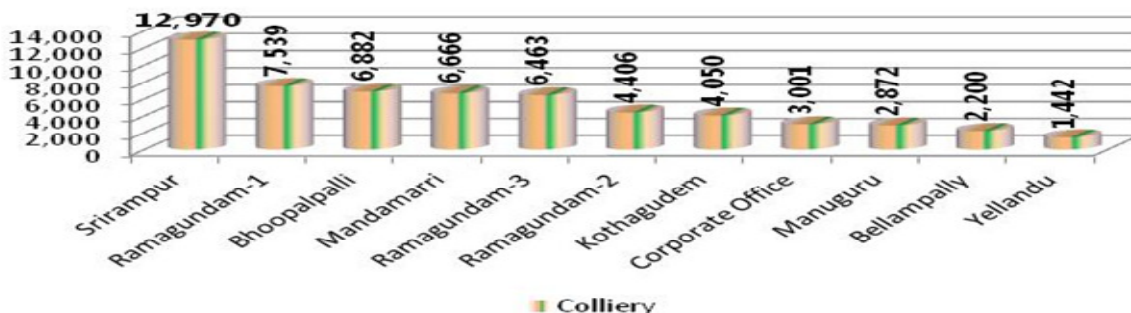

Table	Content
17.1	Average number of daily workers employed in Coal Mines from 2008 to 2016
17.2	Average number of daily workers employed in Coal Mines by categories of Employment, 2016
17.3	Average Daily Earnings of Labour at different Coal Fields from 2010-11 to 2015-16
17.4	Number of Applicants on the Live Register classified by broad divisions from 2013 to 2016
17.5	Category wise number of Registrations, Notifications, Placements and on Live Register, 2015
17.6	Category wise number of Registrations, Notifications, Placements and on Live Register, 2016
17.7	Registrations and Placements through Employment Exchanges by districts, 2015
17.8	Registrations and Placements through Employment Exchanges by districts, 2016
17.9	Registrations and Placements by Employment Exchanges in respect of special categories of applicants, 2015
17.10	Registrations and Placements by Employment Exchanges in respect of special categories of applicants, 2016
17.11	Employers using Exchanges, Vacancies Notified and Placements from 2008 to 2016
17.12	Occurrence of Industrial Accidents and Compensation paid by Industries, 2015-16
17.13	Industrial Disputes and Man-days lost in Major Industries from 2008 to 2016
17.14	Employment in Shops and Commercial Establishments, 2015-16

## 18. Social Security

Social Security is both a concept as well as a system. It represents basically a system of protection of individuals who are in need of such protection by the State as an agent of the society. Such protection is relevant in contingencies which are beyond the control of the individual members of the Society. State as an agent of the society has an important mandate to harmonize such differences through a protective cover to the poor, the weak, the deprived, the distraught and the disadvantaged.

The concept of social security is now generally understood as protection provided by the State to its citizens through a series of public measures against the economic and social distress that otherwise is caused by the stoppage or substantial reduction of earnings resulting from sickness, maternity, employment injury, occupational diseases, unemployment, invalidity, old age and death.

The Directive Principles of the constitution of India direct that "the State shall strive to promote a social order in which justice, social, economic, and political, shall inform all the institutions of the national life" and, in particular, shall ensure "that the citizens, men and women equally, have the right to an adequate means of livelihood.

In this endeavor, the State Government has taken up promoting peoples' welfare as the central agenda. Accordingly, a number of initiatives have been taken in this direction. Some of the achievements made under various programmes such as distribution of Government land for Agricultural purposes, house sites to weaker sections, construction of houses for weaker sections, functioning of public distribution system, functioning of anganwadies, disbursement of social security pensions etc., during the year 2015-16 are presented in this chapter.

Table	Content
<b>18.1</b>	Distribution of House Sites to Weaker Sections from 2013-14 to 2015-16

## 19. Education

Education in its general sense is a form of learning in which the knowledge, skills, values, beliefs and habits of a group of people are transferred from one generation to the next through story telling, discussion, teaching, training, or research. Education may also include informal transmission of such information from one human being to another through a set of instructions in the process of making them educated about the society, surroundings, environment etc.

Telangana state has multiple institutes of higher education universities along with numerous

### School Education

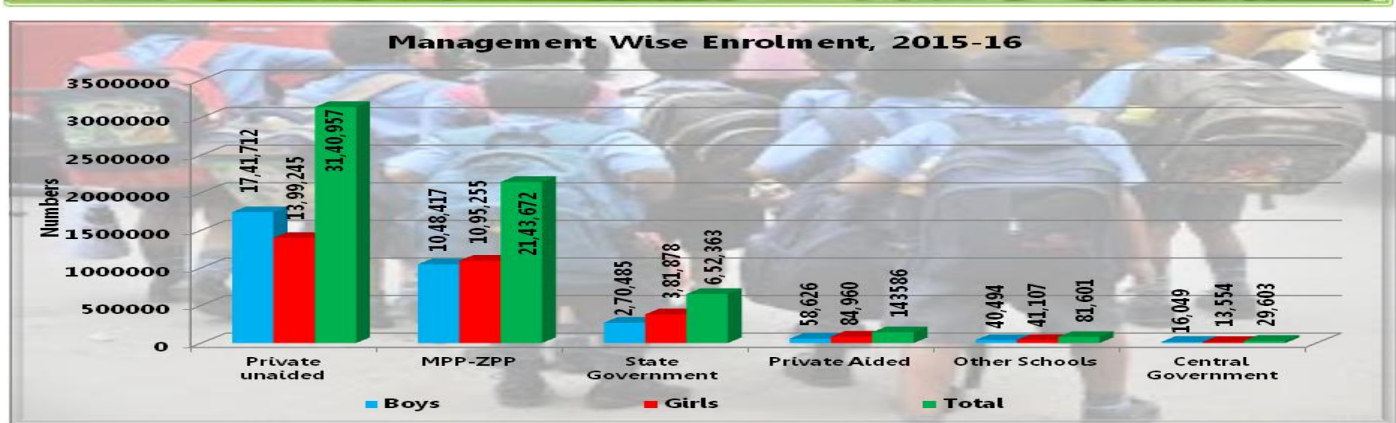

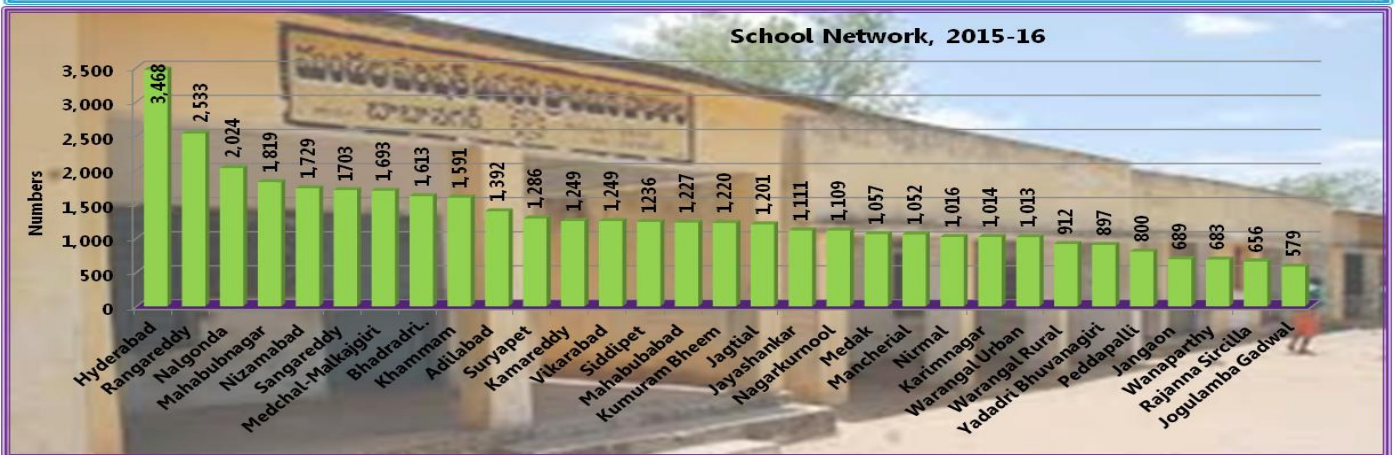

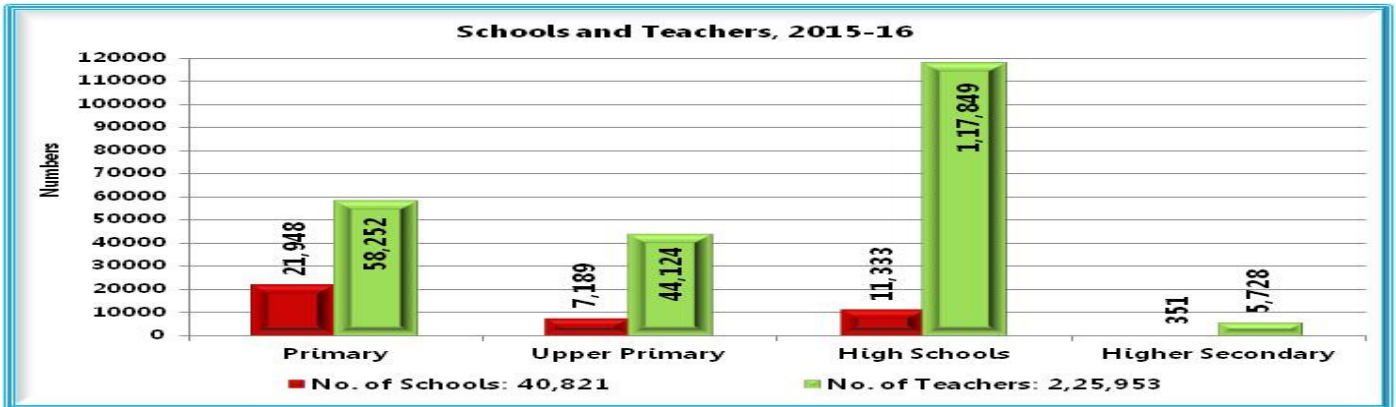

The Government of India with an objective to provide universal education to all of its citizens has enacted the Right of Children to Free and Compulsory Education Act, 2009 to provide free and Compulsory Education to all the children in the age group of 6 to 14 years, in the country. In order to achieve this objective, need exists for ensuring access to education, gender parity in school enrolment, overall enrolment and retention and the quality of education being imparted.

In the light of Right of Children to Free and Compulsory Education Act, 2009, the Government has taken various initiatives for universalization of elementary education like strengthening of

primary and secondary schools. The state is home to a number of institutes, which impart higher education. The higher education includes many colleges, universities and research institutes providing professional education in the fields of arts, humanities, science, engineering, law, medicine, pharmacy, business Administration, and veterinary sciences, with undergraduate and post-graduation. These institutions are producing lakhs of professional scholars, every year who in turn give direction to the state in transforming its objectives into reality. There is a saying that today's children are tomorrow's citizens and the future of the state would be as directed by them.

existing schools, opening of new primary schools, and other type of educational facilities in remote and un-served habitations, in the State.

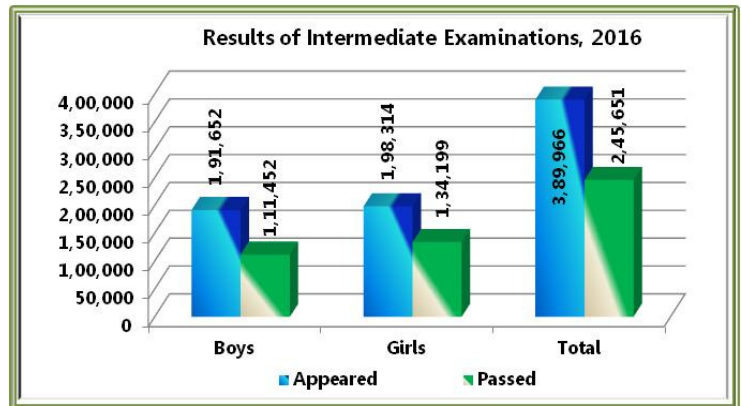

There are 40,821 schools functioning under various managements during 2015-16 in the State and imparting quality education to pupil. Total students enrolled during the year are 61.92 lakhs, consisting of 31.76 lakhs boys and 30.16 lakhs girls. The teachers deployed are 2.26 lakhs and the teacher-pupil ratio is 27.40. Category wise number of schools functioning, students enrolled and teachers employed are shown in the charts given below.

### Junior Colleges

All put together, there are 3,129 Junior Colleges functioning during the year 2016-17 in the State. The number of students enrolled are 4,36,727 consisting of 2,14,067 boys and 2,22,660 girls and a total of 24,019 lecturers are imparting education in these colleges. The results of Intermediate Examinations held during 2016 are presented in the graph.

### Degree Colleges

There are 1,180 Degree Colleges functioning in the State with an enrolment of 2,90,119

students, consisting of 1,36,547 men and 1,53,572 women during 2016-17

### Engineering Colleges

Engineering colleges are primarily established to produce engineers and technicians with technical knowledge and adequate skills with an objective to meet the technical skills requirements as per the needs of the industry. There are about

224 engineering colleges in the State with a total intake of 1,05,132 students during 2016-17. Apart from engineering, there are 218 polytechnic colleges functioning with a strength of 53,360 students during 2015-16.

### Welfare Hostels

Government has been taking numerous welfare measures for imparting quality education to all those children whose parents are not in a position to offer education to their children by establishing residential schools and hostels, in the State.

Apart from these institutions, several other institutions are also functioning in the fields of arts, humanities, medical, pharmacy, business administration, computer applications and special schools for deaf and dumb, mentally challenged, blind etc. They impart quality education to the students in the light of achieving the universal education in the State.

There are 888 hostels with a strength of 72,862 students for scheduled castes, 170 hostels with a strength of 30,882 students and 302 Ashram schools with a strength of 84,740 students for scheduled tribes and 700 hostels with a strength of 68,024 students for backward classes welfare functioning in the State during the year 2016-17 together with Pre and Post-Matric hostels.

An attempt is made in this chapter to provide information on the functions of various educational institutions in the subsequent tables.

## 20. Economic Census

Economic Census is the process of complete enumeration of all the establishments or enterprises engaged in economic activity within the geographical boundaries of the country/state/district at a given point of time. Any activity resulting in production of goods and services that adds value to the National/State product is considered as an economic activity. Such activities

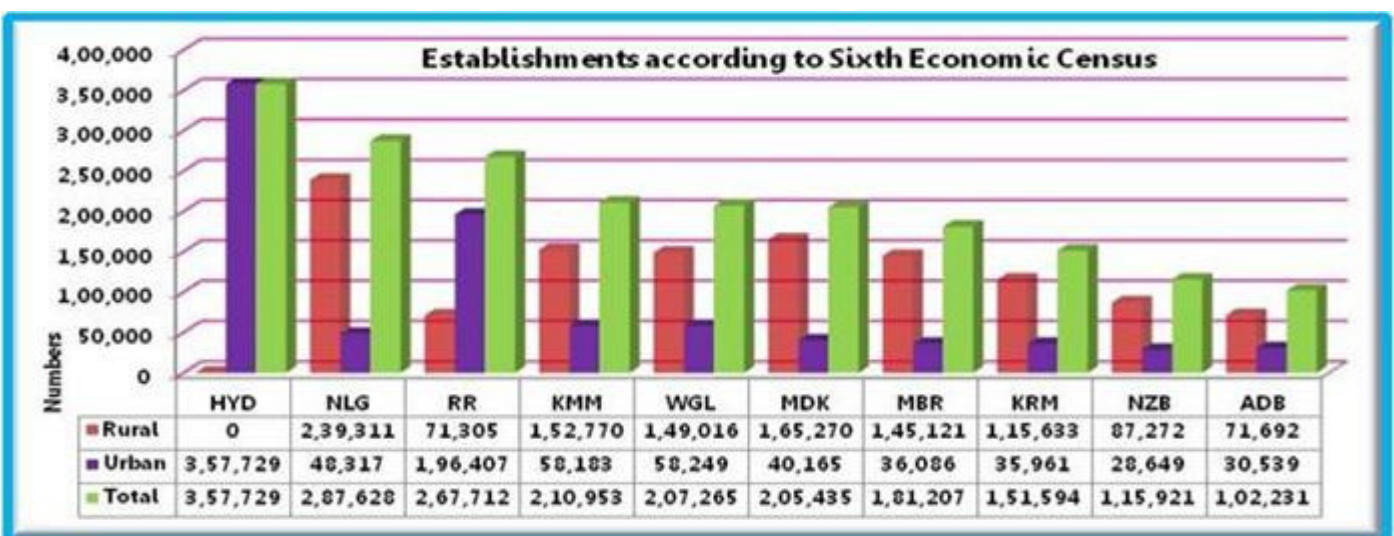

include production of all goods and services for the market (i.e. for pay or profit) including those of government services, and production of primary commodities for own consumption and own account production of fixed assets, except those involved in crop production and plantation, public administration, defense and compulsory social security.

### Enterprises as per 6th Economic Census

The Sixth Economic Census covers all types of entrepreneurial activities in the field of agricultural (except crops production and plantation) as well as non-agricultural entrepreneurial activities i.e., all those economic activities dealing with the production and/or distribution of goods/services not solely for the purpose of own consumption.

In this chapter, efforts are made to present the figures, in brief, the total number of

establishments existing and number of persons working in those establishments, district-wise and also activity wise, according to the sixth Economic Census, 2013 along with comparison of some of the parameters with that of fifth Economic Census conducted during 2005, in the State. According to sixth Economic Census about 20.88 lakh establishments with about 55.37 lakh employees are functioning in the State. Details are given in subsequent tables

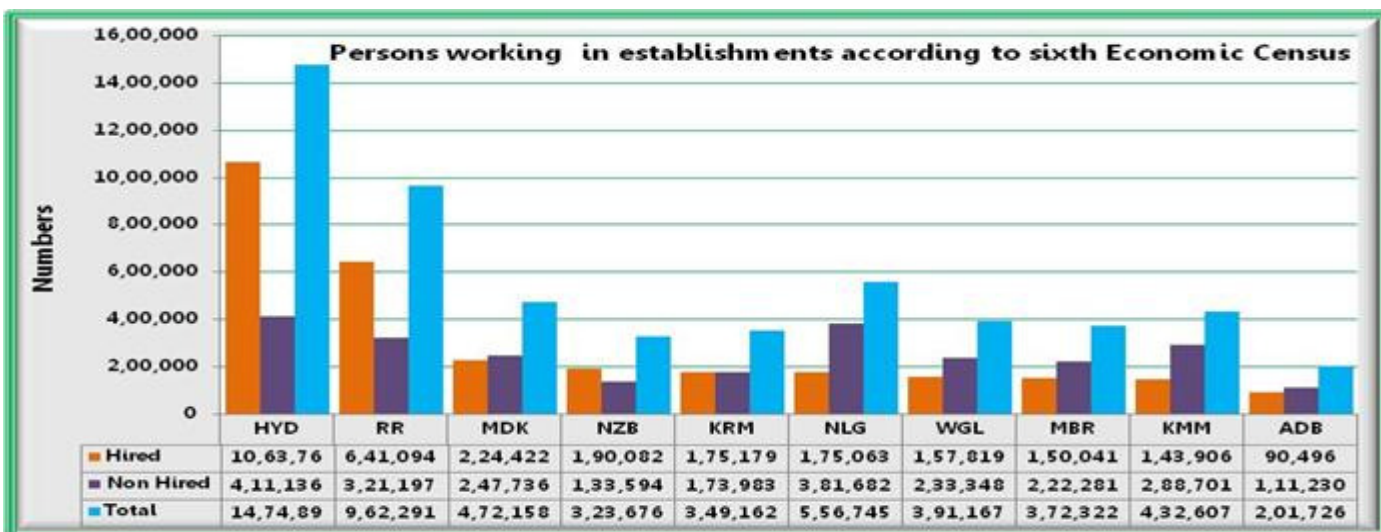

Table	Content
20.1	Activity wise number of Establishments by type of Ownership as per Sixth Economic Census, 2013
20.2	Activity wise number of Persons Employed by type of Ownership as per Sixth Economic Census, 2013
20.3	Number of Establishments by Activity and Size Class of Employment as per Sixth Economic Census, 2013
20.4	Number of Establishments as per Sixth Economic Census, 2013 (Rural)
20.5	Number of Establishments as per Sixth Economic Census, 2013 (Urban)
20.6	Number of Establishments as per Sixth Economic Census, 2013 (Combined)
20.7	Number of Persons working in Establishments as per Sixth Economic Census, 2013 (Rural)
20.8	Number of Persons working in Establishments as per Sixth Economic Census, 2013 (Urban)
20.9	Number of Persons working in Establishments as per Sixth Economic Census, 2013 (Combined)
20.10	Activity wise concentration of Establishments in Agriculture Sector as per Sixth Economic Census, 2013
20.11	Activity wise concentration of Establishments in Non-Agriculture Sector as per Sixth Economic Census, 2013
20.12	Comparison of Establishments and Employment during Fifth (2005) & Sixth (2013) Economic Census
20.13	Establishments as per Fifth (2005) and Sixth (2013) Economic Census
20.14	Persons Working in Establishments as per Fifth (2005) and Sixth (2013) Economic Census

## 21. Local Bodies

Local Bodies are the institutions of Local Self Government and play a pivotal role in local governance and development. The Local bodies in state are broadly classified into two categories viz., Rural Local Bodies and Urban Local Bodies. The Local bodies constituted for local Planning, development and administration in rural areas are referred as Rural Local Bodies (Gram Panchayats, Mandal Praja Parishads and Zilla Praja Parishads) and those institutions constituted for local Planning, development and administration in Urban areas are referred as Urban Local Bodies (Municipal Corporations, Municipalities, Nagar Panchayats).

A Gram Panchayat is the Grass root level statutory institution of Rural Self Government in the **Panchayat Raj** system at the village or small town level, and has a **Sarpanch** as its elected head. The work Panchayat comes from Sanskrit, panch meaning five. This is because such councils originally consisted of five members. Gram Panchayat is the Grass root level statutory institution of Rural Self Government.

Mandal Praja Parishad is a local government body at Mandal level in the state. The Mandal Praja Parishad is the link between Gram Panchayat and Zilla Praja Parishad. A Mandal Praja Parishad is constituted

for a revenue Mandal, as such, both the Mandal Praja Parishads and the revenue Mandals are coterminous comprising of group of villages in the State.

Zilla Praja Parishad is a local government body at district level in the state. It looks after the administration of the rural area of the district and its office is located at the district headquarters. The Hindi word Parishad means Council and Zilla Parishad translates to District Council

In India, a Nagar Palika or Municipality or **Nagar Nigam** is an urban local body that administers a city of population 1,00,000 or more. However, there are exceptions to that, as previously Nagar palikas were constituted in urban centers with population over 20,000 so all the urban bodies which were previously classified as Nagar palika were reclassified as Nagar palika even if their population was under 1,00,000. Under the Panchayat Raj system, it interacts directly with the state government, though it is administratively part of the district. Generally, smaller district cities and bigger towns have a Nagar palika. Nagar palikas are also a form of local self-government, entrusted with some duties and responsibilities, as enshrined and guided upon by the Constitutional (74<sup>th</sup> Amendment) Act, 1992.

### Municipal Corporations

Municipal Corporation is an urban local government that works for the development of a city, which has a population of more than one million. The growing population and urbanization in various cities of India necessitated a local governing

body that can work for providing necessary community services like health care, educational institution, housing, transport etc. by collecting property tax and fixed grant from the State Government.

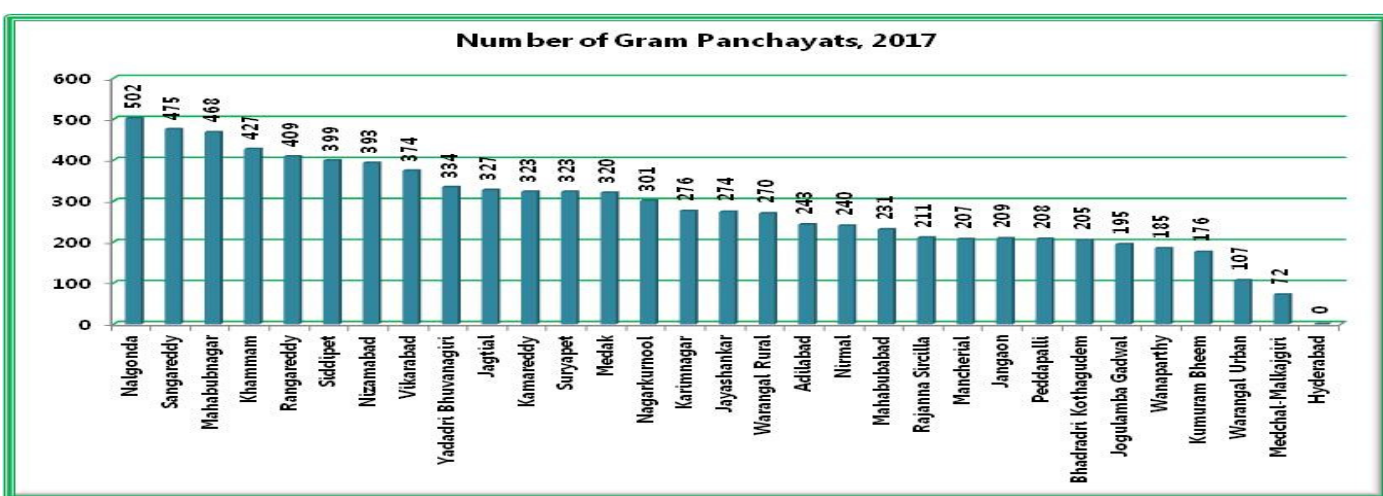

Major functions to be performed by the local bodies are (i) providing public health, sanitation and drainage services; (ii.) Maintaining village roads, wells, tanks etc., and burial and cremation

### Functioning of Local Bodies and Mandals

There are 8,684 Gram Panchayats, 438 Mandal Praja Parishads, 25 Nagar Panchayats, 42 Municipalities and 6 Municipal Corporations, the local self governments, functioning in

grounds; iii.) Building shelters for travelers; (iv.) Construction, repair & maintenance of public places and buildings for public use; viz. Laying out new roads, footpaths and its maintenance etc.

the State as on 31<sup>st</sup> March, 2017. Pictorial representation of number of Gram Panchayats existing in the State are shown in the following graph.

The Local Bodies are getting grants from the central and state budgets apart from generating their own resources and utilize them in the process of discharging their legitimate functions as stated above. Efforts have been made in this

chapter to explain the Income and Expenditure of Greater Hyderabad Municipal Corporation, Municipalities, Zilla Praja Parishads, Mandal Parishads and Gram Panchayats in the State.

Table	Content

## 22. Judicial

The judiciary (also known as the judicial system) is the system of courts that interprets and applies the law in the name of the state. The judiciary also provides a mechanism for the resolution of disputes. Under the doctrine of the separation of powers, the judiciary generally does not make law (that is, in a plenary fashion, which is the responsibility of the legislature) or enforce law (which is the responsibility of the executive), but rather interprets law and applies it to the facts of each case. This branch of the state is often tasked with ensuring equal justice under law. It usually consists of a court of final appeal (called the "Supreme court" or "Constitutional court"), together with lower courts.

In many jurisdictions the judicial branch has the power to change laws through the process of judicial review. Courts with judicial review power may annul the laws and rules of the state when it finds them incompatible with a higher norm, such as primary legislation, the provisions of the constitution or international law. Judges constitute a critical force for interpretation and implementation of a constitution, thus defects in common law countries creating the body of constitutional law.

In 1980s, the Supreme Court of India for almost a decade had been encouraging Public Interest Litigation (PIL) on behalf of the poor and oppressed by using a broad interpretation of several articles of the Indian Constitution.

The term "Judiciary" is also used to refer collectively to the personnel, such as judges, magistrates and other adjudicators, who form the core of a judiciary, as well as the staff who keep the system run smoothly.

An attempt is made to present the number of cases pending at the beginning of the year, institutions and disposals during the year and pending at the end of the year 2015-16 and 2016-17 along with working of judicial officials in this chapter.

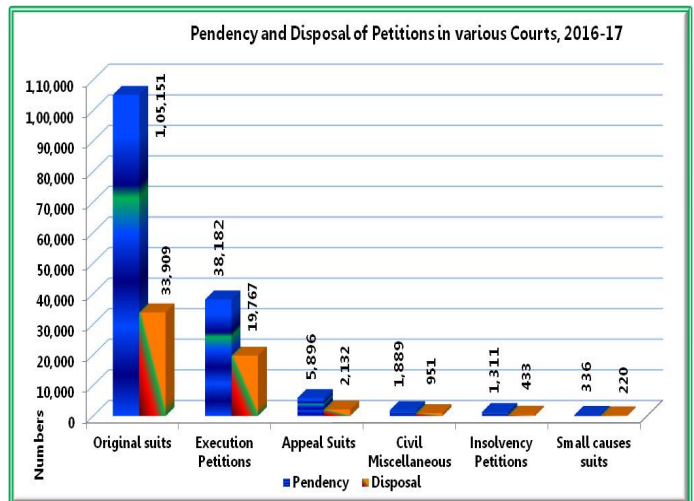

Table	Content
22.1	Institutions, Disposals and Pendency of Petitions in various Courts, 2015-16
22.2	Institutions, Disposals and Pendency of Petitions in various Courts, 2016-17
22.3	Number of Judicial Officers in the states of Telangana and Andhra Pradesh from 2015 to 2017

## 23. Police and Crime

Crime Statistics is an important and essential input for assessing quality of life and the human rights situation in the society. Crime Statistics broadly reflects the status of operations of Criminal Justice System in a Country. Crime Statistics includes data on offences, breaches of the law offenders, those who commit offences (victims), those who are offended against etc. Crime Statistics in the state are generated on the basis of crime records maintained by different law enforcing agencies like Police, Judiciary at different level of administrative/legal jurisdiction. These statistics are normally readily available and are generally used for assessing how crime is being dealt with by law enforcement agencies. However, these statistics are based on those cases which are generally reported to the law enforcement agencies and recorded through all stages of actions on the cases reported.

Apart from incidence of cognizable crimes, an attempt has been made to present information on Police, Juvenile Statistics Category of Prisons, Lock-up report of the Prisons, Age-wise classification of Prisoners, Type of Offence and Remand Period, Particulars of Education, Employment and Marital Status of Prisoners and production of Industrial, Agricultural and Dairy & Poultry production in Jails etc., in this chapter.

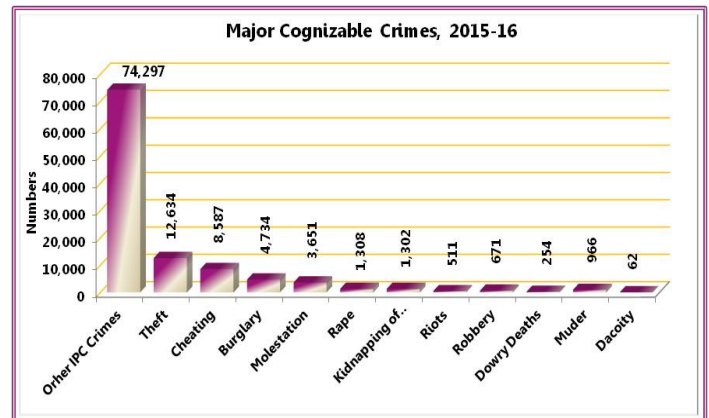

Table	Content
23.1	Strength of Civil Police for the Years 2013-14 to 2015-16

## 24. Tourism

It is evident that from nomadic existence to present day economies, people have always been on the move. Purpose may be anything, but people are moving on a pilgrimage, documenting history of locations, visiting relatives, visiting places for medical treatment, leisure or business, or those travelling distances, fired merely by the zest to travel, people have crisscrossed the globe integrating cultures and systems.

The tourism in the present day, has become increasingly significant and organized (industry) as more and more people with increased disposable income, higher propensity to spend and changing social mores trot cities and countries due to variety of reasons. Along with the evolution of tourism, its definition has also formalized over the years and in the present parlance a visitor is considered to be a traveler taking a trip to a main destination outside their usual environment, for less than a year, for any main purpose (business, leisure or other personal purpose) other than to be employed by a resident entity in the country or place visited.

A visitor (domestic, inbound or outbound) is classified as a tourist (or overnight visitor),

**Rural Tourism:** Telangana has a tremendous potential for Rural Tourism and is a fascinating canvas of myriad colors, cultures and customs.

if his/her trip includes an overnight stay, or as a same-day visitor (or excursionist) otherwise. A traveler on the other hand is someone who moves between different geographic locations, for any purpose and any duration. The visitor is a particular type of traveler and consequently tourism is a subset of travel. However, "Tourism" refers to all activities of visitors, including both "tourists (over-night visitors)" and "same-day visitors".

In the context of Telangana, its culture combines cultural customs from Persian traditions embedded during Moghuls, Qutub Shahis and Nizams rule with prominent and predominantly south Indian traditions and customs. The State has a rich tradition in classical music. It has a rich painting and folk arts such as Burrakatha, Shadow Puppet Show, and Perini Shiva Tandavam, Gusadi Dance, Kolatam etc. Telangana has a variety of tourist attractions including historical places, monuments, forts, waterfalls, forests and temples. Lakhs of tourists, including foreign tourists visit these tourist attractions every year and carrying their experiences, customs and traditions of Indian heritage, sweet memories to their native states or countries.

Handicrafts represent, perhaps, the oldest traditions of living culture and Telangana has some of the richest sources of handicrafts.

**Wildlife and Eco Tourism:** Telangana has rich forests and wild life sanctuaries, which provide scope for eco-tourism and wildlife tourism that cover Alisagar Deer park in Nizamabad, the Eturunagaram Sanctuary in Jayashankar District and Pakhal Wildlife Sanctuary in Mahabubabad District, Kawal Wildlife Sanctuary in Mancherial, Nirmal

**Heritage Tourism:** Telangana is a historic land dotted with a number of forts, which have a potential to be developed into classic heritage tourism sites. Some famous forts, where Tourism Department is taking up projects to develop amenities for tourists are Golconda Fort, Medak Fort, Khammam Fort, Nizamabad Fort, Elagandula Fort, Karimnagar and Bhongir Fort, Yadadri Bhuvanagiri. Warangal Fort and Golconda Fort also host Sound and Light shows which take us back to a magnificent

**Medical Tourism:** Hyderabad has the potential to emerge as a global medical tourism hub, in view of the world class treatment at affordable prices offered in the leading hospitals located in the city. Steps are being taken to prepare a comprehensive

District, Pranahitha Wildlife Sanctuary and Siwaram Wildlife Sanctuary in Mancherial, Mahavir Harina Vanasthali National Park, Rangareddy and Nehru Zoological park in Hyderabad, Manjira Bird Sanctuary in Sangareddy, and Pocharam Sanctuary in Medak, Shamirpet Deer Park in Medchal-Malkajgiri District.

past. More shows of this kind will highlight the rich heritage of Telangana. Telangana State Tourism Development Corporation (TSTDC) organizes all the above tourist packages and also connects the neighboring States. TSTDC also maintains Haritha Hotel chains, wayside amenities, river cruises and water fleet in different locations. Any trip to Telangana State is incomplete without a taste of its cuisine, including the famous Hyderabad Biryani, Qubani-ka-Meetha, Haleem, Osmania Biscuits and Irani Chai.

plan for this purpose and to conduct road shows abroad. An attempt is made in this chapter to present domestic and foreign tourists visited the State in the following graphs and subsequent data tables.

## 26. Comparative Statistics of Telangana with All India

Efforts are made to present the Comparative Statistics of Telangana State with that of All India under various parameters viz., demographic characteristics according to Population Census, 2011, classification of workers, health indicators, land utilization, area and out-turn of food grains, source wise irrigation and area

operated, livestock population, working of factories, per capita income, details of Mineral production, functioning of Bank branches, etc. This comparison will facilitate better understanding of the State with that of All India and its relative position in various parameters at national level.

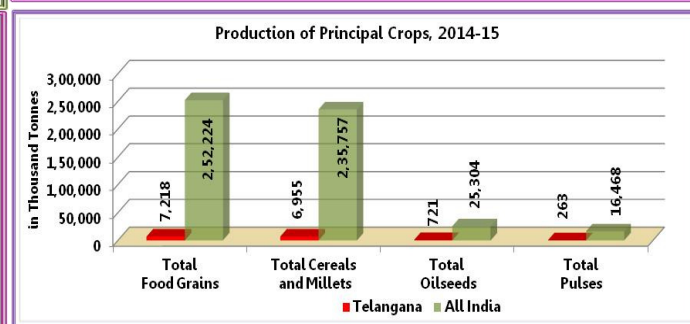

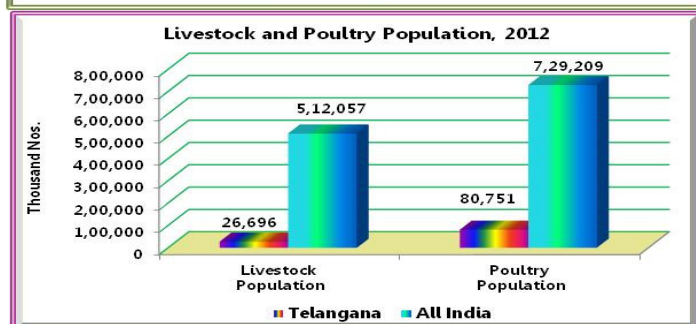

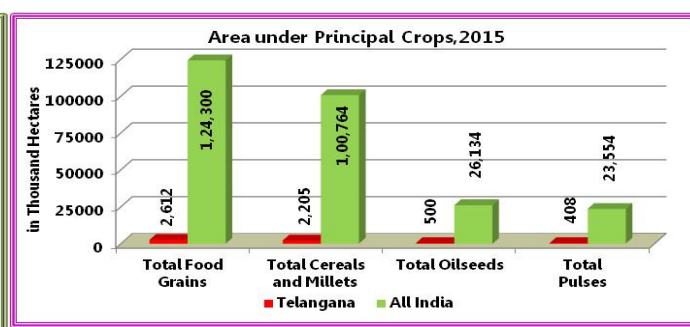

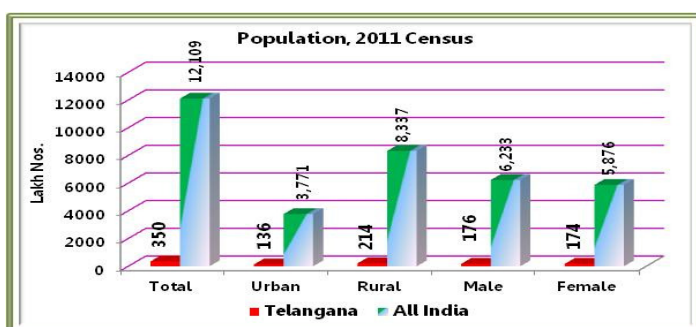

Table	Content
26.1	Comparison of Demographic Characteristics of Telangana State with All India, 2011 Census
26.2	Comparison of Age Group wise population of Telangana State with All India, 2011 Census
26.3	Comparison of Percentage of Population in the Age Group to total Population by Sex and Residence, 2015
26.4	Comparison of Estimated Health Indices by Residence, 2015
26.5	Comparison of Land Utilization of Telangana State with All India from 2011-12 to 2013-14
26.6	Comparison of Area and Production of Principal Crops of Telangana State with All India, 2014-15
26.7	Comparison of Source wise Area Irrigated in Telangana State with All India, 2012-13 and 2013-14
26.8	Comparison of Livestock Census, 2007 and 2012 of Telangana State with All India
26.9	Comparison of Mineral Production in Telangana State with All India, 2015-16
26.10	Comparison of Companies at work in Telangana State and All India, 2015 and 2016
26.11	Comparison of Reporting Offices, Aggregate Deposit and Gross Bank Credit of S.C Banks, 2016
26.12	Comparison of total Establishments and Persons Employed as per Sixth Economic Census

## 27. Important Statistics of all States

There are (36) states/Union Territories existing in the Union of India and are performing their best to achieve the ambitions and desires of public residing in the States, but all are functioning in accordance with the national Policies and Programmes. It is necessary to present a comparative picture of the States on different Parameters. Accordingly, efforts are made in this chapter to present important Statistics of all States and all India in the country. The statistics

presented in this chapter include Geographical Area, Population, Land Utilization, Area and Out-turn of Food grains, Livestock including Poultry population, Gross State Domestic Product with Gross Domestic Product etc. It is envisaged that, this comparison of States with that of all India, on each of the parameters, will give the reader a broader perspective about each of the states .

<b>Table</b>	<b>Content</b>
<b>27.1</b>	Area, Households, Population and Sex Ratio, 2011 Census
<b>27.2</b>	Males and Females Population by Residence, 2011 Census

## 28. Important Statistics of All India

This chapter contains important Statistics at All India under various parameters like land utilization, area sown under various principal crops and out-turn thereon, electricity generated, index of industrial production, mineral production, consumer price index numbers for working class,

gross domestic product, per capita income, etc.

The objective of the chapter is to give the reader a comprehensive idea about the nation on various parameters and how the nation is performed during the current year compared to that of previous years.

<b>Table</b>	<b>Content</b>
<b>28.1</b>	Land Utilization from 2009-10 to 2014-15
<b>28.2</b>	Area, Production and Yield of Principal Crops from 2012-13 to 2014-15
<b>28.3</b>	Per Capita Net Availability of Food-grains, Year wise, in India from 1951 to 2017
<b>28.4</b>	Per Capita Net Availability of Food-grains, per Day, in India from 1951 to 2017
<b>28.5</b>	Per Capita Net Availability of Food-grains in India from 2009 to 2017
<b>28.6</b>	Livestock and Poultry Population according to Livestock Census from 1992 to 2012
<b>28.7</b>	Electricity Generated and Sold from 2012-13 to 2015-16
<b>28.8</b>	Index of Industrial Production from 2007-08 to 2015-16
<b>28.9</b>	Mineral Production from 2013-14 to 2015-16
<b>28.10</b>	Factory Employment by Industry Groups, 2012 and 2013
<b>28.11</b>	Per Capita Annual Earnings of Employees in Manufacturing Industries from 2011 to 2013
<b>28.12</b>	Performance of Employment Exchanges from 2002 to 2014
<b>28.13</b>	Working of Companies in India from 2001 to 2016
<b>28.14</b>	Gross Domestic Product at Current Prices
<b>28.15</b>	Growth Rates of Gross Domestic Product at Current Prices
<b>28.16</b>	Gross Domestic Product at Constant (2011-12) Prices
<b>28.17</b>	Growth Rates of Gross Domestic Product at Constant (2011-12) Prices
<b>28.18</b>	Index Numbers of Wholesale Prices by Major Groups and Sub-Groups from 2012-13 to 2015-16
<b>28.19</b>	Consumer Price Index Numbers for Industrial Workers, Month wise from 2012 to 2016
<b>28.20</b>	Consumer Price Index Numbers for Industrial Workers (General Index) from 2008 to 2015
<b>28.21</b>	Distribution of Establishments and Persons Employed as per Sixth Economic Census, 2013
<b>28.22</b>	Distribution of Establishments and Persons Employed in Rural Sector as per Sixth Economic Census, 2013
<b>28.23</b>	Distribution of Establishments and Persons Employed in Urban Sector as per Sixth Economic Census, 2013
<b>28.24</b>	Distribution of Total Establishments and Persons Employed as per Sixth Economic Census, 2013
<b>28.25</b>	Information Technology Electronics and IT Production

**TABLE - 28.1**  
**LAND UTILISATION FROM 2009-10 TO 2014-15**

(in lakh Hectares)

Sl. No.	Year	2009-10	2010-11	2011-12	2012-13	2013-14	2014-15(P)
1	2	3	4	5	6	7	8
I	Geographical Area	3,287.26	3,287.26	3,287.26	3,287.26	3,287.26	3,287.26
II	Reporting area for land utilization statistics (col. 1 to 5)	3,074.08	3,074.83	3,073.92	3,074.91	3,077.96	3,078.18
1	Forests	715.55	715.93	715.99	715.73	718.28	717.94
2	Not available for cultivation	433.34	435.75	435.25	435.76	438.60	438.60
a	Area under non-agricultural uses	261.58	264.00	263.08	265.04	269.13	268.83
b	Barren and un-culturable land	171.77	171.75	172.17	170.72	169.48	169.96
3	Other uncultivated land excluding fallow land	264.99	261.52	261.11	260.82	258.32	258.32
a	Permanent pastures and other grazing lands	103.40	103.05	103.14	102.56	102.58	102.58
b	Land under Misc., tree crops and groves (not incl. in net area sown)	32.14	32.00	31.61	31.82	31.87	31.04
c	Culturable waste land	129.45	126.47	126.37	126.43	123.88	124.69
4	Fallow Lands	268.47	246.00	251.77	263.24	248.48	261.82
a	Fallow lands other than current fallows	108.38	103.23	106.65	110.37	106.94	110.92
b	Current fallows	160.09	142.77	145.12	152.87	141.54	150.91
5	Net area Sown	1,391.73	1,415.63	1,409.80	1,399.36	1,414.28	1,401.30
6	Total cropped area	1,891.88	1,976.83	1,956.94	1,941.40	2,008.59	1,983.60
7	Area sown more than once (Sl. No. 6 - sl. no. 5)	500.15	561.20	547.15	542.04	594.31	582.30
8	Agricultural Land/Cultivable Land (Sl. No. 3b+3c+4+5)	1,821.79	1,820.10	1,819.55	1,820.85	1,818.50	1818.85
9	Cultivable Land (Sl. No. 4b+5)	1,551.82	1,558.40	1,554.92	1,552.23	1,555.81	1552.21

2002	83.5	60.8	23.1	167.4	3.9	12.9	180.4
2003	66.2	65.8	17.1	149.1	3.1	10.6	159.7
2004	71.3	59.2	25.3	155.8	4.1	13.1	168.9
2005	64.7	56.3	21.7	142.7	3.9	11.5	154.2
2006	72.3	56.3	22.1	150.7	3.9	11.8	162.5
2007	70.8	57.6	20.3	148.7	4.3	12.9	161.6
2008	64.0	53.0	19.7	143.9	3.9	15.3	159.2
2009	68.8	56.5	23.3	148.6	4.7	13.5	162.1
2010	66.4	61.4	18.8	146.6	4.9	12.9	159.5
2011	66.3	59.7	23.9	149.9	5.3	15.7	165.6
2012	69.4	57.8	21.9	149.1	4.9	15.2	164.3
2013	58.3	53.2	19.2	130.7	5.6	15.8	146.5
2014	72.3	66.8	22.6	161.6	6.0	16.9	178.3
2015	67.9	61.3	28.4	153.8	4.5	16.0	169.8
2016	67.2	72.9	26.1	162.0	-	15.7	177.7
2017(P)	69.5	74.9	29.8	169.8	-	19.3	189.1

Note: a) The net availability of food grains is estimated to be gross production(-) seed, feed and wastage, (-) exports(+/-) imports (+/-) change stocks. b) The net availability of food grains divided by the population estimates for a particular year indicates per capita availability of food grains in items of kg/year net availability, thus worked out further divided by the number of days in a year i.e. 365 days gives us net availability of food grain in terms of grams/day. c) Figures in respect of per capita net availability given above are not strictly representative of actual level consumption in the country especially as they do not take in to account any change in stocks in possessions of traders, producers and consumers. d) Food-grains includes rice, wheat, other cereals and all pulses. P-provisional.

Note: a) The net availability of food grains is estimated to be gross production(-) seed, feed and wastage, (-) exports(+) imports (+/-) change stocks. b) The net availability of food grains divided by the population estimates for a particular year indicates per capita availability of food grains in items of kg/year net availability, thus worked out further divided by the number of days in a year i.e., 365 days gives us net availability of food grain in terms of grams/day. c) Figures in respect of per capita net availability given above are not strictly representative of actual level consumption in the country especially as they do not take in to account any change in stocks in possessions of traders, producers and consumers. d) Food grains includes rice, wheat, other cereals and all pulses. P-provisional.

## CONVERSION TABLE

(For Changing British units of Weight, Length and Capacity in to Metric Units)

### I. STANDARDS OF WEIGHTS

1 Ounce	=	28.3495 Grams
1 Gram	=	0.035274 Ounce
	=	0.09 Tola
1 Pound	=	0.45359 Kilogram
1 Kilogram	=	2.20462 Pounds
1 Tonne (Metric Ton)	=	0.98420 Tonne
	=	1,000 Kilograms
	=	10 Quintals
1 Ton	=	1.01605 Metric Tonnes
1 Maund	=	0.037324 Metric Tonne
	=	82.2857 Pounds
	=	0.3732 Quintal
1 CWT	=	0.508 Quintal
1 Seer	=	0.9331 kilogram
1 Bale of Cotton Lint (392 lbs.)	=	0.1778 Metric Tonne
1 Bale of Jute (400 lbs.)	=	0.181436 Metric Tonne
1 Metric Ton	=	5.624 Bales
	=	5.5166 Bales of Jute

### II. STANDARDS OF AREA

1 Hectare	=	2.47105 Acres
1 Acre	=	0.404686 Hectare
	=	4,840 Square Yards
	=	43,560 Square Feet
1 Sq. Mile	=	640 Acres
	=	2.59 Sq. Kilometers
1 Sq. Kilometer	=	0.3861 Sq. Miles
	=	100 Hectares
1 Sq. Yard	=	0.8361 Sq. Meter
1 Sq. Meter	=	1.1960 Sq. Yards

### III. STANDARDS OF LENGTH AND CAPACITY

1 Kilometer	=	0.6214 Mile
1 Meter	=	1.0936 Yards
1 Yard	=	0.9144 Meter
	=	91.44 Centimeters
1 Inch	=	25.4 Millimeters
1 Millimeter	=	0.04 Inch

## OFFICIALS ASSOCIATED WITH THIS PUBLICATION

Sl. No.	Name (Sarva Sri)	Designation
1	G. Lakshmi Narayana	Joint Director
2	D. Jayanthimala	Statistical Officer
3	B.M.L. Narsimha	Deputy Statistical Officer
4	P. Hymavathi	Deputy Statistical Officer
5	D. Syamasundara Rao	Deputy Statistical Officer
6	Mohammed Isaq	Assistant Statistical Officer
